## CHOCOLATTA

Add boiling water and serve—and see how much better your food tastes. Chocollatta is a highly nutritious and digestible beverage and requires only boiling water to make—

a delicious palatable drink. Chocolate and cocoa and tea ordinarily require sugar and milk before they can be drunk, but Chocollatta (because it contains the chocolate, milk and sugar together is always ready in an instant).

**Dandruff Soon Ruins the Hair**

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

### NERVES WEAK HAD HYSTERICS

Orillia Lady Tells of Her Pitiable Condition When the Nerves Gave Way and She Became Sleepless, Irritable and Excited

Orillia, Ont., April 12.—There is an abundance of proof found right here in Orillia that Dr. Chase's Nerve Food is unrivalled as a means of forming new, rich blood and building up the exhausted nervous system.

At this season almost everybody feels the need of restorative, tonic treatment to keep up vitality and ward off the tired, languid feelings. This letter will give you some idea of the splendid results to be obtained by using this great food cure.

Mrs. Percy Moulding, 28 West street, Orillia, Ont., writes: "Some years ago my nerves got the better of me. I became so bad that on one occasion, during a thunderstorm, I had a severe attack of hysterics. Then I became anxious about my condition. It was sleeplessness and nervous debility that were my trouble. Some nights it would be 1 o'clock before I could get to sleep. Knowing the good results obtained from the use of Dr. Chase's Nerve Food, I commenced a treatment. I took about seven boxes, and gradually I could feed my nerves becoming steady and my appetite returning. I could sleep well, and stay alone without any difficulty. Some little time ago I commenced losing in weight, and I began using the Nerve Food again as a tonic. I used only two boxes, and my weight I had lost. I cannot speak too highly of Dr. Chase's Nerve Food, and when I see anyone looking ill or nervous I say, 'Get busy and use some Nerve Food.'"

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

### GUARDING AGAINST IMPORTS FROM ENEMY

As a precaution against enemy goods finding their way into Canada, the attention of all collectors of customs has been called to goods shipped to Canada from Norway, Sweden, Denmark, Holland and Switzerland. Such goods are not to be admitted to entry at customs unless there is produced at the time of entry a certificate of origin and interest covering the goods, and issued by a British consular officer in the country whence the goods were exported.

The regulation, in question, was adopted with a view to prevent goods of enemy origin being imported into Canada from neutral countries in Europe, but the certificates of origin are to be regarded as absolute proof that the goods are not of enemy origin. The following statement is stamped on each certificate: "The present certificate is not to be regarded as an absolute guarantee of the origin of the goods, which remain liable to seizure, if they should prove on examination, by competent British authorities, to be of enemy origin."

### NOVA SCOTIA AND WOMAN SUFFRAGE

To the Editor of The Halifax Chronicle:  
Sir:—It gives me great pleasure to pass on, through the medium of The Morning Chronicle, the following high praise of the Legislature of Nova Scotia. It was conveyed to me yesterday in a letter received from Mrs. Isabel R. Ericson Brown, secretary pro tem of the National Equal Franchise Union.

Mrs. Brown is the daughter of Dr. James Frederick McCurdy, the distinguished Orientalist and author, who for the past thirty years has occupied the chair of Oriental languages and literature in the University of Toronto. I send on the first four paragraphs of the letter.

MARY R. CHESLEY,  
Supt. Franchise Dept.  
Nova Scotia W. C. T. U.

Lunenburg, April 5, 1917.  
My Dear Mrs. Chesley:—  
The National Equal Franchise Union sends its warmest congratulations to the women of Nova Scotia, upon the recent unanimous passage of the second reading of a bill conferring upon them the full provincial franchise. We are also delighted that a bill providing for the admission of women as barristers and solicitors was adopted on its second reading. The newspaper despatches indicate that the final passage of both these bills is assured, as "their supporters are the leaders of thought throughout the province."

When the news came, on the morning of the 22nd, I called the International Woman Suffrage Alliance, on behalf of the N. E. F. U.

1916 was a banner year for woman suffrage, but 1917 will unquestionably surpass it. Already presidential suffrage has been conferred in Ohio, North Dakota and Indiana, and primary suffrage in Arkansas, while the legislatures of New York, Maine and South Dakota have all granted referenda on the question. In Ontario the women are considered to be enfranchised, although the bill has not yet received its third reading. The government has promised to put it through, and the opposition supports it. Already women are being invited to all political meetings, and usually to speak upon the platform as well, while there is a distinct desire evident upon the part of the legislators to find out what kind of measures the women will favor.

To Nova Scotia, however, above all other countries and states, whose women have in recent years received the franchise, unquestionably belongs the place of honor. The women of Nova Scotia are the result of years of strenuous effort on the part of comparatively few women, always aided, of course, by some generous and right-minded men. In Nova Scotia there was no such arduous struggle. We have always understood that there is a wide-spread sentiment in favor of the reform, and we know what splendid work your franchise department has done in educating people to

think clearly on this point, but the idea that your legislators have actually passed the bill conferring citizenship upon women as a matter of justice, without condemning suffragists to long years of labor and self-sacrifice before granting the reform, gives them a unique position among present day reformers. Nova Scotia has set an example to the world.

### WANT EMPLOYERS TO FREE MEN FOR WORK ON FARMS

Boston, April 12.—The state committee on public safety will ask manufacturers to release as many of their men as possible for limited periods to work on farms, to facilitate the engagement of the new labor for the raising of

large crops this year. Under the proposed plan the men would receive their regular rate of wages while employed on such work, the funds to be provided by the committee through its local sub-committee. The manufacturers also will be asked to have large plots of land near their establishments cultivated.

## Keep Chickens

The cost of meat is the heavy item in the food bill.

Poultry and Eggs will help take the place of meat.

The food that goes to the garbage pail from the average table will provide one-third the feed for a flock of 8 to 10 hens.

Poultry will thrive where vegetables will not grow. The outlay is small. A few minutes a day is all the time required.

A small flock in your back yard will go far to keep you supplied with eggs, broilers and roasters.

How to go about it

BUY eggs for hatching or day-old chicks; borrow or buy a broody hen or an artificial brooder. A broody hen will take care of the hen and chicks. Feed the chicks bread crumbs soaked in milk and squeezed dry. Feed five times a day, alternating with prepared chick feed, only as much as they will eat up clean. Remember that a hungry chick is a healthy chick.

CAUTION: Chicks must not be fed until at least 48 hours old, and then only sparingly.

If you can, start now with eggs or chicks; if not, arrange at once with the local poultry association for pullets in the fall.
