NO SPEED LIMIT FOR CUBAN TAXIS

Havana, Cuba, claims the distinction of having solved the problem of cheap transportation more satisfactorily than any other city.

Operating within a territory whose radius is little greater than a mile, 8,000 Ford automobiles carry one or two persons between any two points in the circle for twenty cents. Under no speed limitations, the drivers are left to their own fate, rushing back and forth through the streets, by their feet and hands become so highly developed that they can swerve out of one another's way more adeptly than can be imagined.

Besides, Cuban upholsterers have transformed the Ford. Mahogany replaces the metal of the tonneau, whipcord for the body upholstery, fancy carpet for the floor, and many colored leathers for the seats. In a single car may be seen five or six different shades of leather.
