GEOLOGISTS TO SEE ALL CANADA

Many Excursions For International Congress

WILL VISIT ST. JOHN

Conventions Will be Held in Toronto But Delegates Will Journey From Atlantic to Pacific

Through the medium of the thirty-day excursions arranged to be run in connection with the convention of the International Geological Congress, one of which will visit St. John during the latter part of this month, the delegates to this convention who will come from practically all the civilized parts of the globe, will see nearly all sections of Canada. The congress will meet in Toronto from August 7 to August 14, and twelve excursions will take place before the meetings, while ten will come during the sessions, and nine after.

Some idea of the cosmopolitan nature of the gathering may be had from knowledge of the fact that thirty-six countries were represented at the last congress which was held in Sweden in 1910, with 625 members attending.

This is the first time Canada has been honored by the congress, and only once has it met in the United States, that being in 1891.

The excursions will be devoted to the study of mineral deposits and geological conditions and the study of the flora and fauna of the sections visited.

The object of the congress itself is the advancement of knowledge concerning the earth, both in the fields of pure geological science and in its application to the arts and industries through the association and co-operation of the leading geologists and engineers of all nations. The members consist principally of professors and teachers in the leading colleges and universities of the world; officers of government geological surveys and geological and mining engineers in private practice.

Canada is sure to benefit in a marked fashion from the gathering of eminent men who will spread to all parts of the world the information gathered concerning this country's resources and possibilities. These men are the advisers of capital, the writers of text books and authoritative articles, and the instructors in universities and schools and their influence will be felt in many directions.

The first excursion starts from Montreal on Sunday, July 13, and the party will spend nineteen days in Quebec and the maritime provinces, returning to Ottawa on August 1. Other pre-congress excursions are into the Haliburton-Barre district, leaving Montreal on July 14, and lasting seven days; the Sudbury-Cochran district, leaving Montreal on July 23 and lasting ten days; to Niagara and Iroquois Beach, leaving Toronto on August 4 and returning on August 6; to the asbestos deposits of Quebec, lasting four days and leaving Montreal on August 2; to the Morin area, Quebec, leaving Montreal on August 4; to the Montserrat hills, Quebec, on August 8 and 9; to see the mineral deposits of the St. Lawrence valley, leaving Montreal on August 10 and returning on August 12; to the Adirondack region, leaving Montreal on August 14 and lasting three days; and a trip into Western Ontario for three days, leaving Toronto on August 4.

Excursions during the meeting include visits to Niagara Falls, the Don Valley and Scarborough Heights; Hamilton, Credit River, Morrisburg, north of Toronto, Muskoka, Streetsville, the clay deposits, Toronto, Orillia and Madoc.

After the congress is over, a transcontinental trip has been arranged over the C. P. R., C. N. R., and National Transcontinental lines, visiting 29 cities, with side trips to Victoria and Rosland, B. C.

Other trips are across Lakes Erie and Huron; into the New Ontario districts, to Yukon and Melanina and to Prince Rupert and Skeena River, B. C.

SIR IAN AT HALIFAX

Halifax, July 10.—The Halifax garrison was inspected by General Sir Ian Hamilton, inspector general of the overseas forces, and Col. Sam Hughes, minister of militia, in the armory tonight and made an exceedingly creditable showing. About 1,600 men were on parade comprising three units of the permanent forces.

Sir Ian Hamilton said that it gave him great pleasure to see such a large and smart turnout on such a disagreeable night. He had the opportunity during the day of seeing some of them doing practical work, firing guns, etc., and he understood that as many as possible of them were going into camp to further equip themselves. They were not engaged in play, but in real work, and though some might think that playing baseball was of more importance he believed that soldiering was of greater service to the country.

CUBAN MURDER PLOT

Havana, July 10.—The Cuban secret police report the discovery of a conspiracy among the adherents of Governor Asbert, to assassinate Col. Aurelio Hevia, secretary of the interior, whom they accuse of attempting to disrupt their party by ordering the late General Armando Riva, chief of the Cuban National police, to raid the Asbert club on Monday night. This action apparently precipitated the tragedy on the Prado in which General Riva was mortally wounded. No arrests have been made, but the suspects are closely watched, and Col. Hevia is strongly guarded.

PILES
Do not suffer another day with this painful, distressing, or protracted ailment. Dr. Chase's Ointment will relieve you at once and is certain to cure you. It is sold by all druggists, or Edmanston, Bates & Co. (Limited), Toronto. Sample how free if you mail this paper and enclose 10c stamp to pay postage.

Your Vacation Outfit is Not Complete Unless You Have an M. R. A. Bathing Suit

SEE OUR STYLES FOR MEN

Much of the real pleasure of sea bathing is lost unless you have the proper bathing clothes. Having these you don't care much if the boys do hide your other clothes, and if you have, they won't.

Here are a few of the different lines we carry. Before buying elsewhere see these suits:
Swimming Tights, in cotton, having navy and white stripe, 15c. to 25c.
One Piece Suits, in navy cotton, with and without sleeves. Boys' sizes, 45c. to 55c. Men's sizes, 60c. to 85c. a suit.
One Piece Suits, made from fine navy cashmere. Boys' \$1.40, Men's \$1.65 and \$1.75.

Two Piece Suits, in navy cotton with white trimmings. Boys' sizes, selling at 45c. to 80c. Men's at 85c. to \$1.25 a suit.

Two Piece Suits, in fine navy cashmere with white or red trimmings. Suits for boys, \$1.60 to \$1.90. For men, suits from \$1.60 to \$2.25.

Berry's Life Guards, these are safe guards for the amateur. Wear these and bathe without fear of fatalities or accident, 75c.

NEXT BIG GATHERING OF ENDEAVORS MAY BE IN CANADA

Los Angeles, July 10.—Canada was the next International Christian Endeavor Biennial Convention. Winnipeg and Toronto have sent strong delegations to capture the prize. Delegates from the Manitoba capital distributed today 4,000 buttons inscribed: "Meet me in Winnipeg in 1908."

Other cities active in the fight are Chicago, St. Louis, and Niagara Falls.

At tonight's session, Rev. Francis E. Clark, president of the united society, appealed for special efforts for future sessions beginning February 2, 1914, which date marks the thirty-third birthday anniversary of the endeavor movement. He suggested the setting aside of a week or revival to mark the beginning of the epoch in their progress of the organization. William Shaw, general secretary of the society, reviewed the society's progress.

DENTISTS' CONVENTION

Moncton, July 10.—Maritime dentists today were engaged the greater part of the time with clinics. This afternoon the visitors and their lady friends were entertained at the Moncton Golf Club links, where a match at golf for ladies was won by Mrs. William Wilkes of St. Stephen, who was presented with a silver cup donated by maritime dental travellers. This afternoon at a meeting of the New Brunswick Dental Society, officers were elected as follows: President, Dr. A. R. Currie, Woodstock; vice-president, Dr. W. P. Bonnell, St. John; secretary-treasurer, Dr. F. A. Goddard, St. John.

It was decided that the society will meet at St. John next year.

Papers this afternoon and evening were read by Dr. H. G. Dunbar, of New Glasgow; Dr. A. E. Webster, Toronto; Dr. Woodbury, Halifax, and there were clinics given during the day by Dr. H. B. Nace, St. John; Dr. G. K. Thompson, St. John; Dr. F. S. Sawaya, St. John; Dr. W. F. Bonnell, St. John; Dr. C. A. Murray, Moncton; Dr. A. E. Webster, Toronto; Dr. Wallace Scobie, Toronto; Dr. E. R. K. Hart, Sackville; Dr. S. G. Ritchie, Halifax.

Tomorrow the visitors will be banqueted on the grounds of W. F. Humphrey, M. P. P.

JOLLY FUNMAKER AT OPERA HOUSE NEXT WEEK

Minerva Courtney, who heads the "Little Shaver" Company, playing in the St. John Opera House next week, is noted for her genial disposition, her company having considerable difficulty at times in keeping their faces straight while she is on the stage. Some of the critics refer to her as "Merry Sunshine." In the breezy western musical comedy, "The Little Shaver," the role of Patsy, the barber gives her plenty of scope for funmaking, and as she is surrounded by the clever company, enjoyment is the last word on the programme. The engagement begins with Monday night's performance, matinees following every afternoon for the balance of the week.

Sam Langford's Father.

Dieby, July 10.—Word has reached here of the death of Robert Langford, father of Sam Langford, the well-known prize fighter, who died at his home at Weymouth Falls last Friday, July 4. He is survived by a widow, four sons, two daughters, and a large number of relatives. His son Samuel is at present in Australia.

HIGH OFFICIALS RESPONSIBLE FOR STAMFORD WRECK

Washington, July 10.—Engineer Doherty's inexperience in handling high speed passenger trains was the principal cause of the New York, New Haven & Hartford wreck at Stamford (Conn.), on June 12, in which six passengers were killed and twenty were injured.

The Interstate Commerce Commission's report of its investigation of the accident, made public today, so holds, and adds the responsibility for placing an "inexperienced and unskilled" engineer in charge of a high speed passenger train rests with the operating officers of the railroad.

The engine brake tests seem to indicate they were good, the train brakes not as efficient as safety demanded in such a fast train, but the loose and distant signals at Stamford were held to be too close together. Doherty's inexperience and lack of instruction, the commission holds, were responsible for his failure to apply the brakes in time to stop the train before the danger signal set against him.

Every Counter on Our Main Floor Has "Summer Sale" Bargains for Friday Night and Saturday Morning
