# Amatite Roofing!

You'll Never Need a Paint Brush

When you lay Amatite on the roof you're through with it You don't have to paint it every year to keep it from leaking. It has a real mineral surface which does not reed painting. Most of the old-fashioned, 'smooth surfaced' or Rubber Roofing, which requires painting, costs more than Amatite and you have all the extra cost of paint. It looks tasy now to give your roof an occasional coating in the fueure. But do you renlize that in 1913 you must paint it, and in 1915 you must paint it, and in 1917 you must paint it, and in 1919—that far-away year—you must still be painting that confounded old Rubber Roof. Why, a new Amatite Roof will cost less than the paint alone. Send to us for free samples and booklet explaining all about it. Ask your deal- radius of five miles were interested, er for Amatite Roofing.

The Facts

A cable was shipped to Gaultois. It was just two miles long. It was purchased from the Direct Cable Company, and guaranteed by Capt. De Carteret, of the cable ship, Minia, as the best bargain known for many years. Its condition was excellent, and it was pronounced by competent authorities as admirably suited for the Colony's purpose. The cost of cable is \$750 a mile.
