It's true to God who's true to man;
whatever wrong is done

To the humblest and the weakest, health
the all-healing sun,

That wrong is done to us, and they
are slaves most base.

Whose love of right is for themselves
and not for all their race."

Thousands of voters throughout the
province were disenchanted in the recent
election owing to changes since the
voters' lists were compiled over two years
ago in constituencies outside of cities
where registration changed. The net
result may not have been materially af-
fected, but the fact is in itself sufficient
for a change which will assure every
citizen the right to vote if he makes ap-
plication to be placed on the voter's list
within two weeks of election day. Rights
should be secured regardless of cost, and
under the present system they are not.

PRESIDENTIAL ELECTION.

We are not at all surprised at the
result in the overwhelming vote cast for
Hoover. He has many characteristics
which make him personally very popular
and at his back he has the full power of
the plutocracy. Besides that, he was
supported unanimously by his own party.

On the other hand, Parker was a com-
paratively unknown man, forced on his
party by the power of Wall street. Con-
sequently, the rank and file of the Demo-
crats were anything but enthusiastic; if
they were not actually hostile. No one
could read the appalls of Bryan to his
followers to support Parker without the
feeling that there were signs of revolt.

The Democratic party has had an un-
fortunate history. It was closely identi-
fied with the Southern rebellion. After
that was over it would have been much
better if a new party had been formed.

Especially has that become more neces-
sary, as the Republican party has fallen
more and more under the power of the
plutocracy. The nomination of Bryan
was in a measure the culmination of a
feeling of the people against the gigan-
tic extortions of the trusts, combines and
other forces of financial power. Now it
is the time that there is likely to be a new
alignment. Wall street has failed in its
effort to place a plutocratic Democrat in
the Presidential chair. Evidently many
who called themselves Democrats have
balked. Their votes have been scattered.
The only way for these scattered forces
to unite against the money power is to
form a new party on some great issue
which will unite the friends of true re-
form.

Most men can make money if they in-
vote all their energies to doing so, but
who was ever made a man by money?

♦ ♦ ♦

Seeing that Mr. Borden hasn't a seat,
it would be a generous act for Mr. Galt
to give him his. He never would be
missed.

♦ ♦ ♦

If Ald. Ward should run for the Board
of Control, will it be as a Liberal or a
Labor man, and if the latter, where is the
transformation to take place?

♦ ♦ ♦

Major Umphlett did not find public
ownership for Toronto and private owner-
ship of the Grand Trunk Pacific work-
well as boosters for his parliamentary
catamaran. The reason is that one is
sound and the other has all kinds of
leaks in it.

♦ ♦ ♦

Till we have the initiative and refer-
endum, it will be impossible for the pop-
ular to voice their opinions at the polls.
Many candidates were in favor of im-
perialism and militarism as well as pub-
lic ownership, while it is safe to say most
who voted for the last-named principle
were opposed to the former ideas.

♦ ♦ ♦

The Government is going to give \$100,-
000 to aid in establishing a clinical hos-
pital in connection with the School of
Medicine, where young persons are taught
how to saw off limbs and make out death
certificates. We wonder if it would grant
an equal sum to establish an institution
in which to teach working people their
rights and how to obtain them.

♦ ♦ ♦

The Dominion Government spent \$328,-
000 in beautifying Ottawa during the
last four years, and Ottawa's citizens
were so pleased therewith as to return two
Government supporters with over a thou-
sand majority each, whereas last election
it split even and had previously gone
Conservative. Mr. Ross might take a
pointer from this and work the oracle in
Toronto.

♦ ♦ ♦

There are rumors of police reform
floating about, but don't be alarmed in
regard to the matter, for the police force
will never be "reformed" while it is
under a board constituted as the present
one is. Yet the Government in Queen's
Park won't let Toronto run her own
business by changing the constitution of
the board, so all you may expect is
changes in the management of the police,
but "reform"—well, not for some time
to come.

♦ ♦ ♦

Capt. H. F. Wyatt, travelling commis-
sioner of the Canadian Navy League,
has returned from his jaunt and reports
strongly in favor of Canada going into
the war vessel business. The nucleus of
a standing army has been firmly grafted
onto this country, but it is to be hoped
that foul jadism will stop short of es-
tablishing a toy navy for the glorification
of a few quavie officers, and one that
would be for years to come of no more
consequence in actual warfare than the
newsprint is to a man of war.

♦ ♦ ♦

Labor men of Canada are generally in-
clined to think that they are further ad-
vanced in union and political principles
than their fellows in Great Britain, but
the election of Thomas Richardson,
the Labor candidate for West Monmouth
over Sir John Cockburn last Friday by a
majority of 4,635 rather goes to con-
tradic that.

In my opinion, it will be well for
all who have been affected in this way
to know that the evil done can be largely
counteracted by assuming a buoyant,
hopeful state of mind. Keep cleanly
inside as well as out, attending to the
hours kept, and taking of brisk exercise
and plenty of fresh air.

But don't have fear—it fattens disease.

The fear-producing nostrums would
do the tenth of what their advertising
claims for them, it would be of less con-
sequence, but such is not often the case.

The point we wish to make plain is
that fear is productive of injurious ef-
fects on any person in whom mind and
body are healthy.
