

# Trades and Labor Councils

## OTTAWA.

Mr. J. A. P. Hayden was elected president of the Ottawa Allied Trades and Labor Association at the semi-annual meeting of officers on Friday night. Delegates Freeman Rowe and W. Robinson also were elected to the office. On the first ballot Delegate Hayden received 15 votes, Delegate Rowe 11, and Delegate Robinson 11. On the second ballot Delegate Hayden received 33 votes and Delegate Rowe 27.

The only other balloting was on the selection of the executive council and the municipal committee, the officers of vice-president, secretary, treasurer, recording secretary, sergeant-at-arms, trustees, and organizing committee being elected by acclamation.

Ottawa's Allied Trades and Labor Association officers for 1921 follow: President, J. A. P. Hayden; vice-president, A. A. Aubrey; corresponding secretary, W. Lodge; treasurer, D. McCann; recording secretary, R. Plant; executive committee, M. K. Kavanagh, B. Beaudet, R. W. McKee and C. W. Lewis; organizing committee, Mrs. A. J. Johnson, J. A. P. Hayden, C. Levesque, J. Cameron, E. Piant, F. Davis; municipal committee, D. McCann, H. Cain and R. Polvin; trustees, J. J. Simeon, T. Cuthbert and J. E. Keady; auditors, W. Jennings, J. Robinson and C. Messick.

For the first time in its history the association placed a female delegate on its board of officers, and the innovation was at the suggestion of President Hayden, who stated that the female workers had acquired such strength that he thought it in the interests of the association that they should have representation.

In retiring from the president's chair, which he has occupied for two terms, Mr. Frank Hayden expressed his regret at having to leave the council board, where he had gained much experience which had proved beneficial to him in making the position of International Organizer for the Leatherworkers' Union. During his travels in other cities, the impression had been gained by him that nowhere could there be found a more constructive and moderate body of men than those who comprised the Ottawa Central Labor body, which he thought ranked amongst the best in the Dominion.

The new president, J. A. P. Hayden, upon taking the chair, made a very enthusiastic and said that he hoped all the delegates would co-operate with him in making the Allied Trades and Labor Association a constructive legislative body for organized labor. He stated it was up to the delegates to show they were true members of the International Trades Movement, and to realize that they could make the council either a constructive or a destructive body.

He concurred with Secretary Lodge in expressing hearty appreciation of the work which had been accomplished by the retiring president on behalf of the association and the International Trades Movement, and led in extending a hearty vote of thanks to Alexander Lafortune.

The association went on record as being strongly opposed to the City Council granting any permit for the re-building of the Sachs Bros. junk factory, recently destroyed by fire, causing the death of one of the city firemen. It was pointed out by one of the delegates that a door-to-door canvass of the district in which this factory was located had shown that there were 118 children there.

Advocacy of trade with Russia as a solution of the unemployment situation was embodied in a resolution which was passed by the Toronto Trades and Labor Council at the Labor Temple last Thursday night.

The resolution was introduced on behalf of the Machinists' Union, who had previously passed this resolution. After heated criticism of the Dominion Department of Labor in its attitude toward the shipyards dispute in Toronto, a resolution which had been introduced by the executive committee and adopted by the resignation of Hon. Gideon Robertson, was carried as follows:

"Having regard to the importance of the fight being waged by the striking trades unions and returned soldiers at the yards of the Dominion Shipbuilding Company,

## MONTREAL, TORONTO AND CHICAGO GRAND TRUNK RAILWAY.

The double track route of the Grand Trunk between Montreal, Toronto, and Chicago affords the maximum of travel comfort. The "International Limited" leaves Montreal daily at 10:00 a.m., arrives Toronto at 4:40 p.m. (with direct connection for Hamilton), London 9:03 p.m., Detroit 11:35 p.m. and reaches Chicago at 8:10 the following morning. For those who desire to begin their journey at night, equally attractive service is provided, leaving Montreal train No. 17 at 11:00 p.m. Toronto, Hamilton, London, Detroit and Chicago. The equipment on these trains is unequalled and includes on the "International Limited" observation library, sleeping car, compartment-drawing room sleeping car, parlor car and dining car (breakfast served before reaching Chicago) and on the night train No. 17 from Montreal, club-compartment-drawing room sleeping car and standard sleeping car. The Grand Trunk's dining car service is an outstanding feature. For full particulars, reservations, etc. apply Canadian National-Grand Trunk City Ticket Offices, 230 St. James street, Montreal.

Those who are neither troubled without money nor troubled about it have the mind most free for the activity of originating the work-day education to take a forward step and help mankind to find ideas.—Professor Petrie.

# Why do People Wake up only Half Rested

ALL day long you are drawing on nervous force stored up during sleep. Then you go to bed, and Nature begins storing up fresh energy for tomorrow.

When you wake up only half-rested, you haven't had the right kind of sleep.

If you have any trouble in sleeping soundly—probably your sleeping equipment is at fault.

Wooden beds are apt to creak. Ordinary metal beds often rattle slightly—just enough to set your sleeping nerves on edge.

Or perhaps your bedspring sags or humps—keeps your muscles tense instead of relaxed.

It may be your mattress is lumpy or uneven, or your pillow does not conform to your head and neck.

The Simmons Metal Bed is noiseless. Just as the sleep-inducing Spring is a

Simmons "Waldorf," of specially tempered spring coils. Fine Springs that fit the contour of the body and support the spine in a straight line, insuring perfect circulation and restoring the energy used up in the fatigue of the day.

Simmons Felt Mattresses are the result of twenty-five years' study of equipment for sound, natural sleep. Made of pure, new cotton in clean, sun-lit factories. Used in thousands of fastidious Canadian homes.

And Simmons Pillows, which rest the head and neck exactly as they need to be rested.

Simmons Limited is specializing in Twin Beds. One sleeper does not disturb the other or communicate colds and other infections.

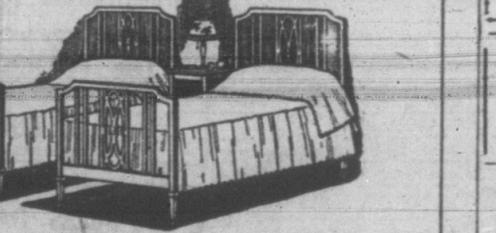

Simmons Metal Beds, Brass Beds, Springs, Day Beds and Children's Cribs are the most popular sleeping equipment in Canada today—in the stores of leading merchants right here in town—at prices little if any higher than the ordinary.

Sleep is a big subject! Write us for the booklet, "What Leading Medical Journals and Health Magazines Say about Separate Beds and Sound Sleep." Free of Charge.
