Tamura. On Saturday morning Kate, daughter of the late W. Walker, of Huddersfield. Eng., and sister-in-law of J. D. Byrne, night of Carl August Lundberg, an in- of this city, and Joseph Robert Reardon. first officer of the C.P.R. steamship Athenian, were united in marriage by the Rev. Father McGuckin at the Church what may be termed a cose of almost of Our Lady of the Holy Rosary. Mr. ingly destructive and are playing havoc suicide which occurred at St. Mary's Byrne gave the bride away; she was attended by Miss Farron, maid of honor, Springer creek is a regular rendezvous though the would-be suicide's attempts and little Miss Bernadette McFeely, for the Bruin family. Sunday evening at self-destruction were frustrated, they train-bearer, Walter Walsh attending as

The city will entertain delegates of the Hampton. The bears had got at the out- A few days ago a Chinaman named Ah National Council of Women at lunch in Wing was accidently run over by a the Y.W.C.A. Home upon their arrival and left their mark, tearing the tent shreds and demolshing the cooking tram, and he was conveyed to the host on Thursday, and will place carriages at their disposal for a drive round the to be progressing favorably, but on park in the evening. Mr. Buntzen, of Saturday night, when all was quiet, he the British Columbia Electric Railway, evidently determined to put an end to has promised to place a special car at Miles Barrett has arrived here to as-sume the position of foreman of the his sufferings. While his attendant their disposal to convey the visitors to

from his foot, possibly with the idea of The finance committee will recommend the council to accept the offer of the Britquently secured some cord and, fastening ish Columbia Electric Railway Company to increase the percentage of the earnings transferred to the city in consideration of the city consolidating the leases of all

ate in the year 1918. Dr. Montizambert, director of Dominion quarantine stations, arrived in Vancouver on Tuesday to inspect local quarantine arrangements and to organize similar matters in the Yukon district, if the Cape Nome smallpox scare should prove serious. He is provided with vachave received a reply to the invitation cine lymph and wil make all necessary arrangements for isolation of suspected

cases, quarantine, etc., if ocascion arises. J. C. Tache, Dominion government engineers in charge of the work of improving the navigation channel of the Yukon water-ways, arrived in the city on Tuesday, accompanied by his wife and family. Mr. Tache leaves for the North shortly to superintend the blasting out of rocks and other work to aid the navigation of the White Horse

Ranids During the month of July 111 cases came up for trial in the city police court, the total being a decrease of nearly 50 as compared with the record

for July, 1899. The Canadian Pacific Railway Company is just now busily engaged on the mountain section between Donald and Palliser, a distance of 30 miles, relaying the steel rails. It is not on account of any defect in the present rails that the change is being made. The rails that are being taken up are almost as good as new, but the Canadian Pacific Railway Company has so increased the size of its motive power, that it was necessary to relay this section of the road, with the new standard steel rail, adopted by the company, which is very

heavy. Twenty-two men were let out at Revelstoke yesterday and 30 in Vancouver, mostly from the machine, blacksmith and car shops of the C. P. R. The reason for the dismissals of the men is said to be owing to the partial failure of the wheat crop in Manitoba.

J. M. McLeod, post office inspector, has been presented by the post office clerks with a gold locket, suitably inscribed, as a mark of their esteem and their appreciation of Mr. McLeod's efforts in securing for them the provisional salary allowance from Ottawa.

The members of the Board of Works met at the residence of Mr. G. R. Maxwell, M. P., on Tuesday evening to discuss the False Creek and Coal Harbor question. The result of the conference was that Mr. Maxwell enlightened the committee on a number of important matters with which the Dominion government and the city have to deal, esresolution of the House of Commons reof the tidal flats, east of Westminster on the public works, is in the city. His avenue bridge on False Creek, and west on the public works, is in the city. His of the bridge over Coal Harbor. Mr. special mission here is to ascertain the Maxwell stated that he had already got the question of deeding any rights which the government may have in the property tract for the erection of the new post- to the city well under way, and that in office in this city. Everything is prepardue time the city would be in a position
