Without a Peer-Works Miracles.

Dr. Agnew's Cure for the Heart is without a peer. This great remedy relieves instantly the most aggravated and distressing forms of heart disease. It is the surest and quickest acting formula for heart trouble known to medical science, and thousands of times has the hand of the grim destroyer been stayed by its use. If there is palpitation, shortness of breath, pain in left side, smothering sensations—don't delay, or you may be counted in the long list of those who have gone over to the great majority, because the best remedy in the world today was not promptly used.

Reid was appointed special police constable for the parish of Hopewell. It may be interesting to the public to know that this gentleman and Daniel W. But the better element of society will certainly be opposed to such freaks of small politics.

The judges, who were J. D. Cudlip of Marysville, H. F. McLeod and Lieut. MONCTON, Jan. 18.—There is considerable speculation here as to who controls the patronage of the liberal government since it was taken away from the member for this county. In the dismissals of about a year ago two Albert county men, Frank Jonah and William Duffy, were included, but through the influence of the M. P. for the county, were reinstated. Last month they were dismissed again. Miss Sarah Lank, who lately took very sick in Eastport, is now well, and returned yesterday.

Wm. Gilligan of Harbor de Lute has monun they were dishinssed again. Hon. Mr. Emmerson, who might be supposed to have something to do with potronage matters, says he had nothing to do with the second dismissal of these men, and as Dr. Lewis secured their reinstatement it is scarcely likely he recommended their dismissal after the lapse of less than a year. It is pretty well understood that Dr. Lewis had no more to do with the discreditable business than Mr. Emmerson, and it is intimated that the patronage of the county is now controlled by a Monicton man.

Blair White, who formerly acted as agent for the Singer Sewing Machine Co. at Shediac, has been committed for trial on the charge of forging the name of a man marmed Downey of Buctouche to notes amounting to \$45, the price of a machine. Downey re-

pudiates the signature.

People at Shediac and Point du
Chene are still talking about the death of Owen Hamfill, whose dead body was found in an old ear used as a coal shed at the Point on Sunday evening, Nov. 28th. It seems very unlikely that deceased could have been where found during all of Sunday without being seem, and the majority of the people seem to be of the optimion that he came to his death from foul play. A man named Becirett, who claimed to be a local government detective, was at the Point a short time ago, but it is not generally known with what result, if any. The family of deceased appear to be opposed to anything in the napeople of meddlesomeness, though they stated at the inquest that the last seen of deceased about his home was on Sunday morning, and the body was not found until night. Blood marks have been found in a car of which deceased had a key, and to which he sometimes resorted, though this car was not the one in which the body was found.

The criminal cases during the last year cost the county over nine hundred dollars, and five representatives were sent to the Dorchester penitentiary. A motion to reduce the councillors' pay from two dollars and fifty cents per day to one dollar and fifty cents was defeated. Geo. V. McInerhey secretary; K. B. Forbes, treasurer and W. D. ST. ANDREWS, N. B., Jan. 18 .- The annual session of the Charlotte county runicipal council was opened at 11 o'-clock today in the county count house, County Secretary Grimmer, in the ab-sence of the warden, presiding. After the roll call, a quorum being present, it was decided to proceed to the election of a warden. Councillor Stevenson of St. Patrick wanted the election deferred until the arrival of the councillors from St. Stephen and adjacent parishes. A councillor in a jocular vein remarked he understood the St. Stephen councillors were detained by the freezing in of the steamer, so they might have to wait until the ice broke up in the spring. Another councillior in a soutto valice saild as the St. Stephen people did not see fit to consult the other parishes in the election of a candidate for the house of assembly, there was no reason why they should wait for the arrival of the up

river councillors to elect a warden.

David Johnston, councillor for the
parish of St. Croix, was then nominated and elected by acclamation. The ed the councillors for the honor con-ferred by his unanimous election, which was as unexpected as it was un-solicited. He would perform the du-ties of the office to the best of his ability, knowing he could depend upon the aid of the councillors. Councillor Dyer of St. Patrick, in congratulatting the warden on his election, said his speech reminded him of a story he heard of an Irishman of sporting tactics, the owner of a horse that had lost several races, which at last developed unexpected speed, and in a race succeeded in crossing the line be-fore the wire fell, exclaimed, "Begorra my horse was always last before, and now at last he is first." The council than adjourned to meet

again at 2 o'clock. The council at 2 o'clock resumed the session, the warden in the chair, who struck committees as follows: Finance-The council, J. Maxwell. chairman.

DORCHESTER, Jan. 18.—Those who have been following with interest the case of Winters v. Peters in the circuit court were somewhat surprised when at eleven o'clock this morning Mr. Chandler announced that he had no further evidence to offer in support of the defendant's contention. Despite the fact that less time was required for the taking of evidence than anticipated, this case will be before the court the greater part of tomorrow. With the exception of one hour's recess at moon, Mr. Chandler spoke continuously from 11.30 until 5 o'clock this afternoon. The length of his address will convey some idea as to the importance of the question in dispute. Shortly after five o'clock Mr. Powell began to present to the jury the facts of the case from the plaintiff's standpoint, but as court adjourned at six o'clock he was unable to get far. He will resume his argument at the reopening at ten o'clock tomorrow.

The annual meeting of the Dor-chester branch of the British and Foreign Bible society was held in the Presbyterian church last evening at 8 o'clock. Mr. Justice Hanington, president of the local branch, presided, and J. A. Gray acted as secretary. In the absence of the treasurer P. C. Palmer, the president gave a brief statement of the finances for the last year, by which it appears that about seventy-five dollars was collected and remitted to the parent society. This is fully up to the record of former years. T. M. Mackelvie, the agent of —Albert S. three o'clock today the jury in Winters v. Peters, after four hours' deliberation, returned a verdict for the plaintiff for seventy dollars for dam-age done their building by water from defendant's land. There is today no ack of excitement over a new series point of this suit, which has been brought to light, and which, if further steps are taken, will place one citizen of Dorchester, perhaps more, in a position which none need covet As is perhaps known, the plaintiffs and defendants in this suit, however friendly they may have been at one so far as positives were concerned. The feeling, therefore, throughout this suit has been to a greater or less extent on party lines and somewhat bit-ter. Although this was noticed, it is safe to say that there were few, if any, who expected that it would go as far as is now alleged, and which now points towards a criminal suit. It was nothing less than an attempt to bribe the jury. Some one, whose name is not yet given to the public, but who is said to be a Dorchester man of some standing, and who evidently has great feelings of symapthy towards the defendant, is reported to have approached the jurors with neatly written bank cheques for tempting
