rifles and free ammunition, and will be required to fire a certain number of rounds a year. In case of mobilization these men will take, their places in the ranks beside the trained men. They will form the "flesh and blood' which are required to give life and

body and strength to the "skeleton" force above described. TRAINING IS IMPORTANT.

In his desire not to hamper and

harrass the busy citizen in time of peace, Lord Dundonald shows how clearly he understands the Canadian character. When war is on we can do our share of fighting, but in the "piping times of peace" we don't want to be bothered with drill and military red tape. Of course that part of the force which enlists for war service will be factory or at the warhouse, to make the oncoming Japanese. The battleup this difference of two cents.
