Rojestvensky Creating International Difficulties.

England is Trying to Smooth Matters, and France Will Now Try to Preserve Neutrality After the Damage Has Been Done

HONG KONG, May 9.—The German steamer Neumilch arrived here from Colombo, March 23, and reported having sighted forty-five vessels of which twenty were warships, the vicinity of Kamranh Bay.

ANNAM, May 9.—The coasting steamer, which has also reached this port, saw a Japanese cruiser off Amoy, Straits of Formosa.

LONDON, May 9.—The correspondent at Paris of the Times telegraphs: "It is rumored in Russian circles here that the Japanese flagship Mikasa was lost in the Straits of Korea a week ago."

ST. PETERSBURG, May 9.—1.37 p. m.—The Japanese threats against France are not taken very seriously here. The Russian statesmen are anxious to maintain that Admiral Rojestvensky has not overstepped the limits of neutrality. In view of the excited state of the Japanese over the possibility of the fruits of their previous land and sea victories being swept away, Japanese protests are considered quite natural, but her military attitude towards a chivalrous country like France is regarded as a blunder.

ST. PETERSBURG, May 9.—1.37 p. m.—The Japanese threats against France are not taken very seriously here. The Russian statesmen are anxious to maintain that Admiral Rojestvensky has not overstepped the limits of neutrality. In view of the excited state of the Japanese over the possibility of the fruits of their previous land and sea victories being swept away, Japanese protests are considered quite natural, but her military attitude towards a chivalrous country like France is regarded as a blunder.

Russian squadron subsequently was reported to be one Kos Bay, a few miles north of Kamranh Bay. Admiral De Jaquier, commanding the French station, was sent there to reconnoitre. He found Admiral Rojestvensky's squadron there, though inside French territorial waters. Thereupon the governor of French Indo-China, who had received instructions to see that French neutrality was duly respected, sent the French resident to Nha-Trang, the nearest port to that place, with directions to ask the Russian admiral to leave. The admiral promised to do so May 2.

As regards the reports that the Russian squadron received valuable assistance from the French authorities from Kamranh Bay, I am informed that the Russian statesmen are anxious to maintain that Admiral Rojestvensky has not overstepped the limits of neutrality. In view of the excited state of the Japanese over the possibility of the fruits of their previous land and sea victories being swept away, Japanese protests are considered quite natural, but her military attitude towards a chivalrous country like France is regarded as a blunder.

A GREAT SPEECH.

Favorable Criticism on Dr. Stockton's Effort.

Toronto Mail and Empire Calls It One of the Best Ever Heard in the House.

The Toronto Mail and Empire says editorially:

In the long debate preceding the vote on the second reading of the autonomy bill the numerous speakers on the opposition side acquitted themselves in a manner deserving of the warmest praise.

Dr. Stockton's speech was one of the best ever heard in the House. It was a masterpiece of logic and eloquence, and it was well received by the House.

RECENT DEATHS.

HARCOURT, Mrs. E.—Mrs. Macintosh, sister of Mrs. E. B. Buckfield of Harcourt, died last week in Victoria, B. C.

JOHN LISSON. JEFFRIES, May 8.—John Lisson, son of Lisonville died suddenly on Thursday, the 4th inst. The deceased, who was about 68 years of age, was taken ill on Tuesday, April 29th, but his condition was not considered dangerous until Tuesday, from which time no hopes were entertained for his recovery.

CHAS. P. WHEATON. SACKVILLE, May 8.—The death of Chas. P. Wheaton occurred yesterday at 7.30 a. m., after a lingering illness of consumption. Deceased was forty-eight years of age. He is survived by a widow and one daughter, also father, two sisters and four brothers. One brother and sister, Frank and Bessie, live with their father, Daniel Wheaton, Louisa in the village of this town, west, Chester and Alfred in Montreal. The funeral will be held tomorrow at 2.30; interment at Upper Sackville cemetery.

MRS. CATHERINE DOHERTY. The death of Mrs. Catherine Doherty, widow of Charles Doherty, Esq., of St. John, took place at Montreal last night. Mrs. Doherty spent the greater part of her life here, where her husband was a well known lawyer. She was a sister of the late Messrs. Sait, leading merchants and manufacturers in Montreal, and a few years ago removed to that city. Mrs. Doherty had no children.

MRS. JOHANNA O'NEILL. On Monday the death took place in Boston of Mrs. Johanna O'Neill, formerly of this city, the widow of James O'Neill. The remains will be brought to St. John by the Eastern Steamship Co. and the funeral will take place from the residence of her son, Joseph O'Neill, 122 Bristow street.

JOHN BARTON. ST. ANDREWS, N. B., May 9.—John Barton, one of the oldest business men of the town, died this morning, aged 74 years. An Irishman by birth, he spent the early years of his life in St. John, where he learned the baking trade with Thomas Rankine. He established a like business at St. Andrews and prospered. He was also in the general grocery business here. He is survived by a widow, five daughters and two sons.

MRS. BLAIR BOTSFOED. DORCHESTER, N. B., May 9.—Mrs. Botsfoed, widow of Blair Botsfoed, died at the residence of Mrs. G. W. Chas. at one o'clock this morning. Her death was caused by paralysis. She was seventy-nine years of age and leaves four daughters—Mrs. Nickerson and Mrs. Atkinson, Nalson, B. C.; Mrs. Edward, Salt Lake City, and Mrs. Dickson of Moncton; and two sons, Dr. LeBaron Botsfoed, New York, and Murray Botsfoed, Royal Bank, Halifax. The funeral will take place here at two o'clock tomorrow afternoon.

GEORGE H. WHITE. Word has been received of the death in California of George H. White, formerly of this city, and Restigouche Co., N. B. He died on May 1st. He was 73 years old.

ST. JOHN RIVER.

Congress May Appoint a Special Commission

WASHINGTON, May 9.—Secretary Taft today sent for Mr. O'Beirne, the British chargé d'affaires, and requested him to ask the British government that no immediate action be taken in the case of the St. John river, while the Washington government is contemplating the request of Secretary Taft today by the department of justice.

There is a large dam in the St. John and the case involves a question of equitable distribution of the water for power purposes. The Canadian authorities have been asked to suspend the operation of the dam until the St. John river, while the Washington government has taken the position the river should not be intended to be included. There has been considerable anxiety on the scope of the deep water commission included an investigation of the St. John river, while the Washington government has taken the position the river should not be intended to be included.

In his speech the minister of justice had hazarded some very audacious statements about the constitutions of the provinces and as to the status of separate schools in Alberta and Saskatchewan. These were swept away by the unparalyzing logic of the member for St. John. His masterly handling of the question made the minister irritable. Mr. Stockton established five points against which Fitzpatrick asserted, Sifton castigated and Fielding emotionally will be vain. First, there was no warrant in the law of constitution, inserting educational restrictions. Second, the Territories Act of 1875 had no application to a provincial state.

Another branch of the bank is to open at North Head, Grand Manan, on Monday next.

BANK OF NEW BRUNSWICK BRANCHES.

The Bank of New Brunswick will open a branch at Fairville in the near future. A property has been purchased opposite Ready's brewery and other operations of the bank are being carried on. Another branch of the bank is to open at North Head, Grand Manan, on Monday next.

BOY DROWNED AT WOODSTOCK.

(Special to the Sun.) WOODSTOCK, N. B., May 8.—A young boy named Levi Devoe was drowned at Upper Woodstock this afternoon. He was out on the river on a raft and somehow fell in the water. His father was lately employed on the dam. The body has not yet been recovered.

DRIVING OUTLOOK IS ENCOURAGING.

Water in St. John River is Rising Rapidly, and Lumbermen Have Hopes of Saving Logs.

FREDERICTON, May 8.—It has been raining quite heavily here today, and in consequence the river has risen something like a foot. New logs are running into the booms. The marks of Randolph & Baker and other operators of the Tobique have been seen. Mr. Gunter of Eolastown, who is in the city, says that the Richards will get their whole drive, consisting of between five and six millions, into the booms. He did not think, however, from the reports he had heard, that the drives in the Little West West Miramichi would come out. It was said that some lumber of the Ritchie concern and of the Larch company would hang. The outlook for the upper St. John drives is becoming more encouraging, and it is beginning to look as if there was a chance for at least a part of the lumber getting out. The recent rain seems to have extended to the upper section of the province, and as a result there has been a substantial rise of water.

TEST THE KIDNEYS.

Allow the urine to stand in a glass vessel for twenty-four hours, and if at the end of that it is clouded or has left a sediment in the bottom of the vessel you may be sure that your kidneys are diseased. As a means of invigorating the action of the kidneys and making them strong and healthy, there is no preparation so prompt and none so thorough as Dr. Chase's Kidney-Liver Pills.

DR. CHASE'S OINTMENT.

To prove to you that Dr. Chase's Ointment is a certain and every form of itching, including the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Buy it as we did, see what it does. Then you will use it always, as we do, and bless the millions of others who will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

Piles

To prove to you that Dr. Chase's Ointment is a certain and every form of itching, including the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Buy it as we did, see what it does. We Paid \$100,000 For Liquezone, Yet We Give You a 50c. Bottle Free.

We paid \$100,000 for the American rights to Liquezone, the highest price ever paid for similar rights on any scientific discovery. We did this after testing the drug for two years, through physicians and hospitals, in this country and others. We cured all kinds of germ diseases with it—thousands of the most difficult cases obtainable. We proved that in germ troubles it always accomplishes what medicine cannot do. Now we ask you to try it—try it at our expense. Buy it as we did, see what it does. Then you will use it always, as we do, and bless the millions of others who will use it, not only to get well, but to keep well. And it will save nearly all of your sickness.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

Kills Inside Germs. Liquezone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the subject of scientific and chemical research. The result is a liquid that does what oxygen does. It is a nerve food and blood purifier, the most beneficial in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we destroy every germ in a bottle of \$1.00 for a disease germ that it cannot kill. The reason is that germs are vegetable, and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
