

For the Collegian

"It is better to have a loud suit than a noisy companion."

There's a whole lot of college yell to our suits for young men this season. They can be a little noisy and yet be in good taste and good style. The conservative is in the discard for the time being. Come in and listen to ours.

DIED.

VRADENBURGH—August 21st, at Belyea's Cove, Queens county, N. B. Henry A. Vradenburgh, aged ninety-four years. Three sons, three daughters, twenty-five grandchildren, twenty-nine great-grandchildren and one great-great-grandchild survive.

MRS. DOOLEY'S
ADVICE TO
WORKING GIRLS

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound. Before I was married, when I came down with my first child, I was so weak and nervous that I could not get on my feet. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work from morning until night and it does not bother me. I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound."

Mrs. H. Dooley, 1136 25th Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. It has overcome such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

HAS ENTERED
INTO PARTNERSHIP

W. H. Harrison, Formerly of the Firm of Powell & Harrison, is Now With the Law Firm of Barnhill and Sanford — Has Had Brilliant Career.

It was announced yesterday that W. H. Harrison, of the law firm of Powell & Harrison, had entered into partnership with the firm of Barnhill, Ewing & Sanford, and that the name of the new firm would be Barnhill, Sanford & Harrison.

Mr. Harrison was lieutenant-colonel in command of the 2nd Divisional Ammunition Column. He took this unit overseas and remained in command of it all through the war, bringing it back to St. John some months ago. While in France Colonel Harrison made an outstanding name for himself and won the D. S. O.

Before enlisting Colonel Harrison was the junior member of the firm of Powell & Harrison. He is one of the foremost young lawyers of the city and also holds the position of court reporter for the Supreme Court of New Brunswick. He attended the St. John High School and later the University of New Brunswick. After graduating from the institution with the degree of B. A., he took up the study of law at Harvard University and there obtained the degree of LL.B. He returned to this city and practised here for some time by himself. Later entering into partnership with H. A. Powell, K. C. The vacancy in the firm of Barnhill, Ewing & Sanford, caused by the recent death of the late Mr. Ewing, will be ably filled by Mr. Harrison, and his many friends in and about the city will wish him all success.

NEW METHOD OF DEALING WITH
ALIEN PROBLEM IN U. S. BILL

Aliens Landing at American Ports Must Have Time Limit
Passports Which Will Probably Break up the Great Inflow of Foreigners.

Washington, Aug. 28.—A new method of dealing with the incoming alien problem is embodied in a bill being prepared by the House Immigration Committee. It is regarded as the most drastic measure of the kind ever presented to Congress.

Adoption of the bill would mean, its framers say, literal fulfillment of the so-called "gentlemen's agreement" between the United States and Japan with respect to immigration and would keep out Japanese coolies.

Under the Root-Tokihara agreement, Japan is obligated to send no coolies to this country, but it charged the records disclose that they arrive by the thousands, with passports as aerchants, students and the like. Once here it is alleged, they remain, send for "picture brides," raise families and their children become citizens of the United States by right of birth.

Representative Albert Johnson, of Hoquiam, Wash., chairman of the House Immigration Committee, in charge of the preparation of the bill says the requirements that aliens landing at American ports must have passports with a time limit will break up the great inflow of foreigners. The bill provides that aliens coming within exemption clauses of the present law must obtain passports from their own governments, issued by consular agents of the United States, and limited to time.

But the bill does not stop there. Aliens, who under present laws are eligible to citizenship, would be permitted to come to the United States without passports providing they state in writing their belief that they intend to reside here and become citizens. They must agree to register once a year, failure to do so being a cause for deportation. Failure to take out first papers at the end of two years' residence, also is cause for deportation.

After talking out papers, aliens must remain here five years for final citizenship, with a time allowance off for knowledge of the elements of the American plan of government and proficiency in the English language. If an alien does not require citizenship in eight years he is sent home.

The committee hopes to provide a plan by which citizens of contiguous territory, Canada and Mexico, may visit the United States on cards issued annually.

Chairman Johnson is trying to have Congress send a special committee comprising eastern and middle west members to the Pacific coast to study the Japanese situation. "We want the East to study it," he said.

"Immigrants now come to the United States freely and are required to pass mental and physical tests," Chairman Johnson said, explaining his bill. "Many classes, such as lawyers, teachers, students, merchants and actors are exempted from these tests. These are the class that it is proposed to have come with limited passports. That is to say, they are to come as visitors, and not as prospective citizens. If one comes as a prospective citizen he must so state, and agree in writing to place himself under probation, reporting at stated intervals. That is all there is to it. Visitors are welcome. We have room for desirable immigrants, but must have a guarantee as to their continued desirability and their willingness to acquire not only American citizenship but all that the word 'Americanism' implies."

Members of the committee say it is not likely a bill suspending immigration for any stated period could pass Congress now. A year ago it could have passed, they add. There is a demand, according to members, for a provision in the new bill for deportation of aliens who withdraw their first papers in order to avoid service with the armed forces of the United States.

UNABLE TO LAND FISH.

The schooner Margaret L. put into Boston Wednesday afternoon with over 3,000 pounds of fresh mackerel which she netted off Chatham. As the vessel was manned by non-union men, the skipper was unable to land his fish, and upon learning this fact he left the fish pier and started down the harbor for an unknown destination. With mackerel at 18 to 22 cents a pound a boycott such as this will do nothing towards settling the high cost of living.

THE POLICE COURT.

William E. Miller was charged with assaulting John Bentley. The defendant said the plaintiff was a liar and he was remanded.

Arthur Bremner was charged with not giving a satisfactory account of himself and also with having liquor in his possession. He was remanded.

Philip Bushan, who was charged with being drunk, was again before the magistrate, and the case was allowed to stand.

It is a true blood purifier—Blood food—made from Nature's healing herbs—and has given new health and happiness to thousands of women during the 50 years and more it has been before the public.

Two Hundred City Children
Made Happy Yesterday at
Closing of Allison Memorial
Playground—Exhibition
of Work Done by Pupils.

"Somewhere there are green fields and sunny skies. Somewhere the bluebird is bringing happiness for you." This was the song which was sung yesterday afternoon by a group of girls between the ages of ten and twelve at the closing of the Allison Playground. To the listeners it struck a pathetic note, for they were city children who were singing far away from the green fields, and yet they were finding happiness amidst the clanging of the trains and behind the wires of the little space which is, except the street, all the playground they know.

The visitor to the Allison grounds yesterday was well repaid for the walk down, for it was a delight to see the well-arranged methods of supervised playing and to admire the clever work done by the children under the direction of Miss Emma Heffer, the supervisor, and Miss Elma Higgins.

her assistant. There were on exhibit two pieces of work made by the pupils, one article for sale, the other to be the property of the child itself. Rag baskets of pretty shapes, raffa, doodie books and sides of bags, dolls' clothes of every kind most neatly sewn, and knitted and crocheted dolls' hats and sweaters, not omitting the fashionable flat stitch variety, all showing the careful labor of little fingers. One doll, completely dressed, had a knitted sweater and crocheted cap and booties, and was proudly displayed by one of the teachers as the work of a girl of ten.

Two children were pointed out who had never missed one day, coming to the grounds as soon as they opened and enjoying all the privileges. Yesterday nearly two hundred children were present, and a happy, jolly tide to the doors of the grounds. Judiciously cheering when C. H. Lingley announced that Walter Allison had provided ice-cream for all.

After playing games, swinging on the swings, sliding on the slides and building in the sand-piles, the children lined up and were treated to ice-cream and cakes. It was interesting to watch their pleased expression as they emerged from the shelter, so busily licking the ice-cream that the "Thank you" to the ladies who gave the cakes could hardly be heard.

One little tot brought a smaller child for his ice-cream who was too shy to come alone, and when offered a cake said: "No thank you; I had mine"—an example of honesty and restraint seldom equalled by grown-ups. The boys, after thoroughly appreciating their treat, perched up on a huge pile of shells and, quite unprompted, gave enthusiastic cheers as Miss Allison drove away. The tea table was spread on the veranda and centered with a beautiful bunch of daisies.

A number of mothers and friends came yesterday afternoon, and it is a gratification to the teachers and those who labor among the children to feel that a personal interest is taken in this splendid form of service—the giving to little ones a safe place to play.

Prizes for general proficiency, at-

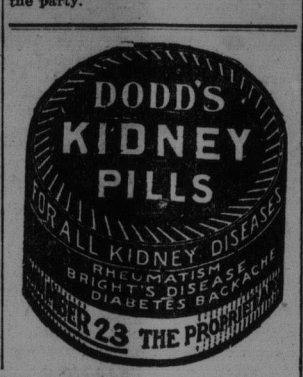

tendance and helpfulness were given to the following older girls: Janet Fraser and Irene Powers, first prizes; Madeline Dunlavy and Bernadine Daley, second prizes.

Among those who were present yesterday afternoon were Miss Frances Allison, Miss Annie Scammell, Mrs. Jas. Doody, Mrs. W. G. Good, Mrs. George Dishart, Miss Gallivan, Miss Berwick, Miss Shea, John McIntyre.

Mrs. Frank L. Potts sent a donation of cake, and Mrs. Thos. Harris supplied chocolates for the children. Messrs. Morton and Singer helped the ice-cream. Mrs. James Doody and C. H. Lingley are the members of the Playground committee for the Allison Playground.

HAD PLEASANT OUTING.

The children of the primary department of the German-street Baptist Sunday school had a very pleasant outing on the grounds of L. W. Simms, Lancaster, yesterday afternoon. Shortly after two o'clock about forty-five of the kiddies left in autos for Mr. Simms' home, arriving there the afternoon was spent in games, etc., and a treat of ice cream and cake provided, the party returning to the city about six o'clock. Miss Vaughan, superintendent of the primary department, and Mrs. H. G. Marr were in charge of the party.

OVER sixty-one years' experience is behind the McCormick Biscuits; yet if they could be improved they would be.

Their high degree of nutrition is attained by the selection of the finest materials.

They are made in a sunlight factory where brightness penetrates to every corner.

They are properly baked for easy digestion. No wonder there is such a demand for
