

## Big Ocean Liners Limping Into Port After Severe Storm

Vanguard of Forty Vessels,  
Caught in Blizzard, Crept  
Into New York.

New York, Jan. 30.—The vanguard of forty vessels, among them sixteen passenger ships, which have been battling the gales on the Atlantic since Sunday, crept into New York today.

The Fort Milton, of the Parnassus line, with 377 passengers aboard, docked after one of the stormiest voyages of her history, according to Captain A. B. Francis.

The Clyde line's Connaught reached port three days overdue. She carried thirty passengers, who reported that the storm disabled the ship's steering gear for a time, and flooded passenger cabins.

As a result of the storm three vessels were delayed in their progress.

Swedish Steamer  
Thyra In Tow of  
S.S. Rosalind

Trying to Make Halifax With  
Steamer Disabled Off Cape  
Race Sunday.

Halifax, N. S., Jan. 30.—The Red Cross liner, Rosalind, has the Swedish steamer Thyra, reported on Sunday disabled off Cape Race, in tow and is trying to make Halifax with the tugboat, according to a wireless message received here tonight. Another steamer, the Masters Cross was reported as proceeding to the scene to help the Rosalind with her tow.

The Thyra was on a voyage from Norfolk to Helsingborg, with a cargo of phosphate. According to the message from the Rosalind she had sustained no damage except the loss of her rudder. A message received from New York today said she was badly damaged and that the crew were suffering much from the storm.

## Graham Acting Minister of Railways

Hon. W. C. Kennedy Inspecting  
Canadian National and  
Grand Trunk Railways.

Ottawa, Jan. 30.—During the absence from Ottawa of Hon. W. C. Kennedy, Hon. G. P. Gahan, Minister of Militia and Defence, is acting Minister of Railways and Canals. Interest is added to Mr. Gahan's appointment in that he was himself Minister of Railways in the government of Sir Wilfrid Laurier.

Mr. Kennedy has left for a tour of inspection of the Canadian National and Grand Trunk railways between Quebec and Winnipeg.

## Montreal Theatre Roofs Built With View To Safety

So Constructed as to Make  
Danger of Collapse from  
Snow Very Remote.

Montreal, Jan. 30.—In connection with Saturday's disaster at the Knickerbocker Theatre in Washington, Victor Caruso, superintendent of the Civic Building department, made the statement here today that Montreal theatre roofs are built with a view to perfect safety under a heavy load of ice and snow. "Through precautions were, he said, a premier consideration in all Canadian cities where climatic conditions rendered such necessary."

## Others Relieved— Why Not You?

Cathart Does Harm—Get Rid of It.  
Cathart of the bow or throat, which becomes chronic weakens the delicate lung tissues, deranges the digestive organs, and may lead to consumption. It impairs the taste, smell and hearing, and affects the voice. It is a constitutional disease and requires a constitutional remedy.

Take Hood's Scurvy Pills, which by purifying the blood removes the cause of the disease and gives permanent relief. This alternative and tonic medicine has proved entirely satisfactory to thousands of families in three generations.

If there is biliousness or constipation, take Hood's Pills; they are purely vegetable, gentle, thorough.

## Died

BENT—At his residence, 101 Leinster street, January 30th, 1922, Gilbert O. Bent, eldest son of the late Gilbert Bent.

Funeral at 2.30 p. m., Wednesday, February 1st, 1922. Private.

KILLED BY BLOOD POISON  
Used an old razor for shaving his face. Resulted because he used a razor which had been used by a patient of Putnam's Poisonous Corn Remover which for fifty years has been removing corns and warts without pain. (See failure if you use Putnam's Poisonous Corn Remover.)

## Captain James Bales, Port Warden At Montreal, Dead

Was Formerly Captain of  
Steamers of the Elder-  
 Dempster Line.

Montreal, Jan. 30.—The death occurred Sunday at the Montreal General Hospital, of Captain James Bales, port warden of Montreal, after an illness of one week from pneumonia. Captain Bales was taken ill the previous day, and on the following day was removed to the hospital from his home, 74, St. Urbain street.

Captain Bales, who was in his 58th year, was born in Liverpool, England, and spent thirty years of his life at sea, serving his apprenticeship on various sailing vessels, and later as Captain of the Elder-Dempster line.

In 1900, he was appointed deputy port warden, and on death of Captain A. Reid, during the war, was chosen as his successor. Captain Bales, who had been a resident of Montreal for 22 years, was twice married. He is survived by his widow, two sons and two young daughters.

## Canadian Girl Guides' Gift To Princess Mary

Beautifully Modelled Repro-  
duction of "Crest" Will Be  
Their Wedding Present.

Toronto, Jan. 30.—The wedding remembrance for H. R. H. Princess Mary from the Girl Guides of Canada, is a beautifully modelled reproduction of the Canadian Girl Guide Crest. The work is being done by local jewelers, and will be ready to be presented to the princess on the day of her wedding, which will be on view a few days before being sent forward. Each guide in Canada was asked to contribute one cent toward this souvenir.

## Sir James Craig Speaks Words of Wisdom To People

Declares Slip or Error in  
Statesmanship Can Never  
Be Recovered in Future.

Belfast, Jan. 30.—Sir James Craig, the Ulster Premier, speaking today at a luncheon given by the Lord Mayor, said that the Ulster Government was making good progress in getting on its feet, and the promises of success were brighter than some time ago.

"By all there is an absorbing desire for peace," he continued, "and peace is bound to settle and open our land. Owing to the country's formation we are the head of Ireland, but as the head of the community—and I say this in no offensive terms to any other section—it places upon us great responsibility that the head should show grave wisdom. A slip or an error in statesmanship today can never be recovered in the future."

## Government Steamer Burns And Sinks In Halifax Harbor

Massive Wooden Sheds En-  
dangered Before Burning  
Vessel Was Towed Out To  
Breakwater.

Halifax, N. S., Jan. 30.—Blazing like a bonfire, the Canadian Government steamer W. H. Lee, a craft of 110 tons, employed in the lighthouse and buoy service, was towed out to sea from her berth at the South End terminal where in spite of four streams of water playing on her she was endangering the massive wooden sheds.

After considerable difficulty, the towboat Westport, Captain Weston, got a wire hawser on her and towed her to Point Pleasant breakwater where she was left to burn out and sink. As she had a large quantity of oil and coal aboard, and was burning furiously from stem to stern when towed out into the stream, she furnished a rather thrilling spectacle, illuminating the whole city.

Her crew of twenty men got off safely. The Lee was a trawler patrol during the war.

## Gov't Prepared To Consider Means of Aiding Russia

Ottawa, Jan. 30.—(Canadian Press)—The Government is prepared to consider means of cooperating with voluntary agencies, should they succeed in effecting some responsible relief organization of which the Government could approve, for extending relief to famine-stricken Russia, says a statement issued by the Prime Minister's office tonight.

A national organization, similar to the "Save the Children" fund in Great Britain, is suggested as a means of coordinating Russian famine relief efforts in Canada. "The Canadian Government," says the statement, "does not feel that it would be justified in attempting to meet Russian famine relief by an appropriation of public monies, unaccompanied by contribution from private sources and organized voluntary efforts on the part of Canadian people."

## HEALTH MESSAGE TO THE WORLD

Take "Fruit-a-tives" And  
Make Yourself Well

"Fruit-a-tives," the marvelous medicine made from fruit juices and tonic is the most beneficial medicinal agent that has ever been given to mankind.

Just as orange, apple, figs and prunes are nature's own medicine, so "Fruit-a-tives"—made from these fruit juices—just concentrated, is the most beneficial medicinal agent that has ever been given to mankind.

To be well, take "Fruit-a-tives." It is a tonic, a stimulant, a blood purifier, a laxative, a remedy for indigestion, constipation, nervousness and bad complexion—in the world.

## Sir George Perley Arrives in New York Aboard Carmania

Proceeds to Ottawa Today to  
Hand in Resignation as  
High Commissioner.

New York, Jan. 30.—(Canadian Press)—Sir George Perley, Canadian High Commissioner in London, and Lady Perley were passengers on the Carmania, which arrived here today from Southampton.

Sir George leaves on Tuesday night for Ottawa where, he said, he would tender his resignation as High Commissioner, a position he has held since the resignation of Lord Strathcona seven and a half years ago. Sir George said he had no idea as to who would be his successor. He had promised Lady Perley a year's vacation, he said.

Asked about conditions in England, he said things were fairly well. Every country was making a struggle, but it was sure, though it would take a long time, things would come out all right. Regarding the Washington Conference, he said everyone was pleased that England and the United States pulled so well together. This was also a great source of gratification to Canada.

Sir George paid a compliment to the press. During his long stay in England he had always been treated as a friend by newspaper men. There were perilous times during the war, but frankness with reporters had never been followed, in his experience, by a betrayal of confidence.

## Long Standing Feud Over Shantung Near Settlement

Mediatory Proposal of Presi-  
dent Harding Formed Basis  
for Get-Together.

Washington, Jan. 30.—Japan and China virtually settled their long-standing feud over Shantung today while the plenipotentiaries of the five great naval powers coming into a final agreement on the treaty by which they are to limit their sea-power in capital ships.

The mediatory proposal, supported by President Harding, won the final basis on which the Japanese and Chinese agreed in principle, after a seven-hour session of the Shantung negotiations, and although some details of the agreement remain to be worked out, a final settlement is expected by tomorrow night.

The naval treaty definitely was completed at a meeting of the naval committee of fifteen and a plenary session of the Arms Conference was called for Wednesday to announce the covenant to the world.

## Wife Proved Star Witness For Riopel At Murder Trial

Testifies That Husband Never  
Went Out of House Night  
Mrs. Clermont Was Mur-  
dered.

St. Scholastique, Que., Jan. 30.—(Canadian Press)—The star witness at the resumption here this morning of the trial of Orlan Riopel, charged with the murder of Mrs. Clermont, was the wife of the accused, Leonie Riopel.

She testified that at the time of the alleged murder, her husband was in bed with her and did not go out until the following morning, very early, when called to help extinguish the burning Clermont farm house.

Mrs. Riopel stated that her husband had been killing cattle on November 25, and the night of the following week, had not changed the clothes which he had worn while doing so. She added that her son, Lucien, was subjected to frequent nonchance beatings and that the scar found by the detective had been worn by this son and never by her husband.

## Dr. Clarence Webster Lectures On Wolfe

Members of Canadian Clubs  
Delighted With Lecture on  
the Conqueror of Quebec.

The members of the Women's and Men's Canadian Clubs numbering upwards of a hundred and twenty persons who attended the lecture delivered by Dr. Clarence Webster, of Quebec, last night, in the German street institute, carried away with a knowledge of one of the greatest figures in the history of our nation, that could only have been surpassed by actual acquaintance.

The Women's Canadian Club, under whose auspices the lecture was delivered, are to be congratulated on securing a lecturer with so intimate a knowledge of the subject, and who is a most pleasant and eloquent delivery.

The distinguished lecturer was introduced to the audience by the president of the Women's Canadian Club, Mrs. W. Edmond Raymond, as a native son who having made good in the United States, as a professor at Chicago University, had returned to live in Canada.

Dr. Webster in his introductory remarks stated he had not come back to his native land to settle, but rather as one who had learned something of education and national duties. He was astounded to see the condition of affairs, and to learn that Canada was more influenced by the national life of the United States than of Great Britain.

The only salvation from this condition was the schools of the country where the children should be taught a proper appreciation of the history of their native land, so that they, in the present generation, might be brought to look upon it as something more than a place where potatoes and lumber could be produced and sold.

Dr. Webster in his different system of teaching history in the schools by appealing more to the imagination and sentiment of the child.

It seemed ridiculous, he said, but the fact remained, that possessed as we are of annuals of great and heroic deeds, there is neither a decent history of Canada, nor Brunswickville, nor the schools today.

The professor urged the placing of historical pictures in the schools, in France and England. The Canadian school results could be attained by an appeal to the eye alone, and with this in view the nation of France had founded the Lycee in which are portrayed all the great events in the nation's history.

Something on a very small scale, he said, he had succeeded in introducing into the schools of Montreal, and since through the assistance of friends, by presenting the famous historical paintings.

Dr. Webster then took up the subject of the evening. He stated that from early boyhood days the figure of Wolfe had always appeared to him as a hero and an ideal. He had made a subject of special study, and had amassed a number of copies of prints and paintings of Wolfe, and these he intended to present.

In doing so he asked those present to ponder on the words of Joseph Howe, Nova Scotia's great statesman: "A wise nation preserves the graves of its illustrious dead, and perpetuates a love of country by a fitting reverence for the great deeds of the past."

The slides which followed testified to the very large collection of prints Dr. Webster possesses of all that relate to Wolfe and his times. In presenting them he gave a brief sketch of Wolfe's life.

Slides were then shown of the village of Westerham, the manor house, the rectory where Wolfe was born during a visit his mother was paying there; the village church, Quebec House, the Wolfe home, now used as a repository of Wolfe relics.

The doctor said the house had been offered to the Canadian Government, refused, as were a number of other relics of Wolfe, many of which were then bought up by wealthy Americans who, the doctor said, were keen on annexing all that pertained to the conqueror of Quebec.

Slides followed of Wolfe's mother and father, of Wolfe's first fiancée, a very pretty girl, with whom he was forced by his mother to break off a engagement, her dowry not being a desired element; also of Miss Louder, sister of the Earl of London, the second young lady on whom he visited his affections.

The paintings of Wolfe included those done by Gainsborough, Benjamin West, Sir Joshua Reynolds, and a number of lesser artists, as well as sketches made by Harvey Smith, Wolfe's aide-de-camp, from whom many of the artists secured the inspiration for their work.

The paintings by the different artists were widely at variance, some depicted Wolfe as a handsome young man, while others secured exactly the opposite result. In addition to Wolfe's aide-de-camp, from whom many of the artists secured the inspiration for their work.

At its conclusion a vote of thanks was passed by several agencies of the city, and seconded by Miss Grace Leavitt, H. A. Powell and W. E. Fisher voiced their appreciation on behalf of the Men's Canadian Club.

## LIMBERS UP YOUR SORE STIFF JOINTS

WEATHER exposure and hard work bring pain and ache to muscles and joints. Have a bottle of Sloan's Liniment handy and apply it. For aches and pains, it is the best remedy you will find. It is a liniment of pure oil, and it is the best remedy you will find.

Also relieves rheumatism, sciatica, neuralgia, sprains and strains. For every year's pain, it is the best remedy you will find. It is a liniment of pure oil, and it is the best remedy you will find.

## C.N.R. Yard Office Totally Destroyed

Fire Caught from Stove Early  
This Morning—Books and  
Records Were Saved.

An alarm was rung in from box 223 at about 2.30 this morning for a fire which caught in the C. N. R. Yard Office, Island Yard, from a stove used in the heating of the building.

After strenuous efforts all hope of saving the building was abandoned, and the structure was abandoned, and records, all of which were saved. The lights in the round house were put out of commission as a result of the blast. The building was totally destroyed.

## Investigate Cause of Knickerbocker Theatre Disaster

District Columbia Govern-  
ment Will Undertake Ex-  
haustive Inquiries to Place  
Responsibility.

Washington, Jan. 30.—Investigation of the cause of the Knickerbocker theatre disaster, which caused the death of more than a hundred persons, was begun today by several agencies of the District of Columbia Government, with the probability that Senate and House also might undertake exhaustive inquiries. District of Columbia Commissioners declared they would go into every phase of the tragedy which occurred Saturday night.

The roof, weighted with snow, fell on an audience of several hundred, not only for the purpose of fixing the blame, but of also guarding against possible recurrence of such calamities. Colonel Charles Keller, Engineer Commissioner, after making a personal survey of the wreckage, declared he believed the cause was caused by a defect in material at some point of the roof's support.

Plans of roof, Colonel Keller insisted, indicate that the capacity for weight was greatly in excess of any requirement in a climate like Washington. Convinced that all bodies had been removed from the debris, the search for dead was halted today by officials in charge of rescue work which had gone on continuously for forty-eight hours. The last body was removed.

## DODD'S KIDNEY PILLS

FROM THE WRECKAGE late last night, Inspector Hester ordered the walls of the theatre raised at once as a safety precaution. Unfounded reports that the walls had collapsed, killing men in the rescue party, were spread broadcast, today, causing much excitement.

Careful re-check of the dead tickets tonight showed that the theatre had been full. Reports that three additional persons had died, were unfounded. A dozen persons in hospital, however, were reported in a serious condition.

Had taste consists in buying costly things that look cheap. Good taste consists in buying cheap things that look expensive.

Charles Aldrich, John Nelson, Fred Dugg, G. Sprout, James Barnes, Devine, Ken Clifford.

Prevent Falling Hair  
With Cuticura Shampoo  
The first thing to do in restoring dry, thin and falling hair is to get rid of dandruff, itching and irritation of the scalp. Rub Cuticura Ointment into the scalp several times a day. Wash with Cuticura Soap and hot water. Keep the scalp moist and healthy.

Senior  
Charles Aldrich, John Nelson, Fred Dugg, G. Sprout, James Barnes, Devine, Ken Clifford.

## "Sport Lover" Upholds Covey

St. John, N. B., Jan. 30, 1922.  
Sporting Editor Standard.

Dear Sir,—A great deal of discussion is taking place at the present time in the Maritime Provinces in regard to the question of dandruff and amateur sport, and what is likely to happen if the present state of affairs is allowed to continue unchecked.

There seems to be two separate and distinct elements amongst the sportsmen in these parts, one of which is evidently out to smash the present organization and nearly all that stands for it. In my limited experience in sport matters in this section two things have forced themselves upon my attention, two things that have directly upon the situation as it stands today. One of these is the almost total lack of unity which is displayed at nearly all the gatherings of sportsmen to discuss the affairs of sport. This seems to be so, not only in the Maritime Provinces, but in all various leagues and even in individual clubs where trouble arises and team or individual interests are advanced and upheld at the expense of the common good of the whole.

I have noticed this spirit on many occasions. It was displayed at the last annual meeting of the M. P. B. A. U. of C. in Lunenburg, and it is displayed at many league meetings on financial pretenses. This is a rank state of affairs and until it is remedied, unless men get the better of their egotism and the common good of real brotherhood in sport, it is not likely we shall accomplish very much.

The other point I wished to mention was the careless indifference displayed in reference to the signing of the amateur form. It is clearly stated in the constitution of the M. P. B. A. U. of C. that every sportsman who has his record clear and no axes to grind. If we wish to uphold the old traditions of British sport, let us see to it that the present situation will be in the clearest way sport down here by the sea so matter at what cost. It is idle to say that the situation is hopeless, that practically every athlete of any ability is content
