READ THIS NEWSPAPER CLIPPING if you are at all interested in the subject of HEATING. It indisputably proves that the

## **KELSEY WARM AIR GENERATOR**

is a modern heating system that will give excellent results under the most exacting conditions.

The Balaclava Street School, in which are the four Kelsey Generators that give such unbounded satisfaction to the Public School Trustees of St. Thomas, Ont.

What the Kelsey has done for others it will do for you—not only make your building comfortably warm in all parts, but provide for thorough ventilation as well. In any building from a small residence to a large public building, the Kelsey Warm Air Generator is the right heating system.

**CONTRACT SECURED**

The James Smart Mfg. Co., Limited, Brockville, Ont., have secured the contract for heating and ventilating the Wellington Street School, St. Thomas, Ont., with four No. 30 Kelsey Warm Air Generators. This is the result of the good work accomplished in heating and ventilating the Balaclava Street School, four No. 30 Kelseys having been installed therein during the season of 1909.

The following letter was received from the secretary some few months ago:

The Jas. Smart Mfg. Co., Limited, Brockville, Ont.  
Dear Sirs,—By direction of the Finance Committee of the Board of Education, I have pleasure in enclosing you herewith check for \$ ..... being payable in full of account for four No. 30 Kelsey Generators, installed in the Balaclava Street School.  
I may say in this connection the furnaces have given good satisfaction, comfortably warming this large twelve-room school in all parts, and what we consider perhaps quite as important is that the system of ventilation appears to be thorough and complete.

I am, gentlemen, Yours sincerely,  
(Sd.) H. W. TALLMAN, Sec.-Treas. St. Thomas Board of Education

May we send you our Descriptive Booklet? Write us to-day for a copy.
