

Gold-Silver-Copper Ores of British Columbia.—There are six copper smelters in British Columbia, in addition to the smelter at Northport, Wash., U.S.A., treating these complex ores.

The ores of the Rossland camp, of which gold is the chief constituent value, are smelted in the Trail copper furnace of the Consolidated Mining and Smelting Company, and at the Northport smelter. The low grade copper ores of the Boundary district are smelted locally at Grand Forks, Greenwood, and Boundary Falls, some also going to Trail.

On the coast the ores of this class are smelted at Ladysmith and Crofton, but a considerable tonnage is also shipped to United States smelters for treatment, while the local smelters are receiving some foreign ores. The Crofton smelter, which has not been in operation during the past three years, is owned by the Britannia Copper Syndicate, Limited. The Boundary Falls smelter was out of commission throughout 1909 and 1910.

The aggregate production of these smelters in 1908, 1909, and 1910, including the foreign ores treated, was as follows:—
