

Cough with dropsy is unfavorable.

## RADWAY'S READY RELIEF A CURE FOR NEURALGIA.

DR. RADWAY :

*Dear Sir* :—I can say to you I have been trying your Ready Relief for neuralgia ; it has proved the best remedy I have ever tried. I have been afflicted for eleven years with neuralgia ; your Ready Relief is the greatest remedy I have ever tried.

MARGARET PATTEN.

CUMBERLAND CITY, Ky., Aug. 23, 1872.

ANSWER in a case of an imprudent young man who had written under an assumed name for advice. The letter explains itself. R. & Co.

33 WARREN ST., NEW YORK, Jan. 18, 1877.

*Sir* :—We have received yours of the 6th inst. The forked stream, the mucopurulent discharge, with other symptoms you enumerate, not contraindicated by the twelve days of incubation, all point to an ordinary case of gonorrhœa.

The best advice we can give you is to follow strictly what we prescribe under the head of "Venereal Gonorrhœa" in our Resolvent directions. We advise hot water applications to the parts, if there be scalding micturition, as *not* as can be borne. A drink of flax-seed tea, say to a pint of the tea a teaspoonful of saltpetre, several times per day.

Live on low diet—farinaceous; avoid meats and stimulants; take as much rest, especially in a recumbent posture, as possible, always remembering that the quicker you get well, the less the liability to bad after-troubles.

## Radway's Remedies and Asthma.

DR. RADWAY—*Dear Sir* : I have been subject to severe attacks of Asthma for three or four years. I have also been troubled badly with Catarrh several years longer. I am thirty years of age. I have consulted many physicians and taken many different kinds of patent medicines for both of the above-named diseases, receiving little or no benefit until I commenced taking your Remedies.

Several physicians whom I called in when suffering from the terrible attack of Asthma have told me that there was no help, and that the disease would soon wear me out; but I still live, though quite feeble. About a year ago I commenced using your Remedies, and never have failed of breaking up an attack of Asthma when I have had the Resolvent to take in the beginning.

Whenever I feel an attack of Asthma coming on I commence taking the Resolvent in doses of two or three teaspoonfuls every few hours, or as often as the oppression of breathing returns. It usually gives immediate relief, but it will be several days before the Asthma entirely leaves me. I will then be free from it for several days, when it will return again.

The Catarrh and Catarrhal cough bother me more or less all the time; sniffing the Resolvent into the head, or using it with a Catarrhal Syringe gives some relief.

I am unable to do any labor at my occupation, farming nearly all the time.

I write to ascertain if you think there is any probability of my recovering entirely by taking your medicines.

Yours very truly,

A. O. B.

September 23, 1877.

## ANSWER.

33 WARREN STREET, NEW YORK, October 2, 1877.

SIR: In reply to your letter of the 23d ultimo, we would say that our Resolvent has cured so many cases of Asthma that we have great hopes you will ultimately receive permanent, as you say you have received temporary relief, and always relief of a paroxysm by taking it.

Respectfully,

RADWAY & CO.

Too much drink creates acid.

Nervous fluid is generated from the brain, as electricity from a battery.

A convulsion occasioned by a purging potion is dangerous.
