Confidence of the people. Everlastingly sticking to our square-deal principles has brought to this Store the confidence of the people. The confidence that every dollar spent here will bring the maximum amount of value, confidence in getting the money back if anything isn't satisfactory.

Our Purchasing System is based on the thorough experience of a well trained staff of buyers. A large portion of our goods are manufactured in our own factories—the largest in the country selling their entire output direct to the consumers and avoiding all middlemen's profits. Whatever we buy is bought for cash; that's why we get the lowest quotations, and you in turn get the benefits of it.

Every day we are getting larger, growing stronger, adding to our organization, enlarging, adding to and bettering our manufacturing facilities and buying powers, doing more for our Customers, **lowering costs and bettering qualities**, until to-day, we offer in this, our very latest Big Catalogue, the highest qualities, the most moderate prices, and in every way the best service we've ever been able to offer.

If you have not already received a copy of this large Catalogue, do not fail to write for it to-day. Sent **FREE**

Prepare for the Time

when present strength will fail. Shakespeare knew his world. He knew that advanced years showing in a man lessen his effectiveness. While you are young you should think of the days to come. It may be comparatively easy to earn money now. It won't be so easy then.

A small part of your savings put aside and invested in one of our "Reserve Dividend Policies" will make your old age a time of comfort and safety instead of a time of uncertainty. Write for details to

The "Bissell"

Disc Harrow

Triumphs by Comparison

If we could get you to test the "Bissell" on the same field with "the harrow you may be thinking of buying" we know you would quickly decide on the "Bissell."

You would notice that the scraper knives and cleaner keep the plates entirely free of all sods and trash—that the "Bissell" runs easiest and has no neck weight—that the horses on the "Bissell" are comparatively fresh when

those dragging the other are fagged—that the "Bissell" does double the execution in the same time.

Really no Disc Harrow can stand comparison with the "Bissell" Disc Harrow, yet isn't it strange they should cost so nearly alike?

Free Booklet on request. Write Dept w or ask your local dealer.
