

# Cheap Enough For A Barn— Fine Enough For A Cathedral

“The Roof That’s Good”

For any permanent structure, whatever its cost or use, the modern metal shingle is the ONLY roofing worth any man's consideration. For it, and it alone, has every good quality a roof should have, and it, and it alone of all roofings, lacks every bad quality. But there are degrees of goodness in metal shingles. You must choose wisely. You will not go wrong if you roof with

Preston Shingles are made from heavy and imperishable metal, thickly and smoothly galvanized with a coating that contains 98 per cent. of pure zinc. Thus they easily pass the rigid bending and acid tests of the British Government. That insures them against rust, and their buyer against roof-troubles. No other metal shingle is made so well, and none will last longer. Ask us what this test is. Preston Safe-Lock Shingles make a roof that is absolutely proof against fire—a roof that the wind cannot rack a little bit—a roof that moisture cannot get

through at all. For these are the shingles, and these alone, which positively LOCK ON EVERY EDGE with a grip that is so strong and tight it almost makes nailing needless. Next to the galvanizing—which is the most vital thing about a metal shingle—the lock is a point you should most carefully look into before you invest. Let us send you a “Preston Junior”—a little shingle imitating closely the construction of OUR REGULAR OUTPUT. Study it, and you will admire the patented Safe-Lock that only we can use. Ask for it.

**Fire Defying**

**Never Leaks**

## This Is The Roof That Meets Every Need

Preston Safe-Lock Shingles are easily laid. No special skill or unusual tools are necessary. Fewer nails are needed than other metal shingles demand—the safe-lock cannot spring nor the shingles warp or twist. Every nailhead is covered. Therefore these roofs never leak—because rust simply cannot get at the nails. Preston Safe-Lock Shingles are sold with the warranty that—if properly put on, according to simple directions—LIGHTNING CANNOT HARM THE ROOF WITHIN TEN YEARS. These roofs are easily good for fifty years' reliable roof-service. Thus they are the cheapest good roofs money

can buy. Wood shingles actually cost—in cost-per-year—many times our price. “Ready” roofings are a wretched make-shift, and their cost per year is downright extravagant. Don't waste your money on a roof that can't last. You should send for, and read, before you roof anew, a truth-telling FREE book that many have read to their profit and satisfaction. It tells about EVERY kind of roofing. It goes into the subject fully and in plain words. You would be willing to pay for it after you've read it—but you are welcome to it for nothing. To-day would be a good day to write and ask for it. Use a postcard if you wish. Address—
