

The Motor Car vs. The Horse

The Motor delivery car will make three distance trips to a horse's one. Long trips can be made with an auto car, it never tires—a horse must stop to rest. Deliveries are quick and prompt—a horse cannot be chased continually. The auto car needs no food when not in use—a horse must be fed continually. The heat of a summer will not affect a motor car—a horse fatigues very quickly in the heat. Prompt and efficient service given by a Menard Commercial Car increases trade and builds up business.
