WILL SIMCOE GO OVER THE TOP?

Three Divisions Have Won Flags—Corporation Wood on Sale Next Week

(From our own Correspondent) Simcoe, Nov. 14.—Port Dover and Woodhouse have won the third flag in Norfolk. Two other winners appear to be out for additional honors. The total last night was \$855.86 from 1722 subscribers. The detailed statement up to Wednesday night is subjoined.

Obj.	Sub.	P.C.	
Townsend and Waterford	225,000	126,100	56.25
Simcoe	275,000	197,200	71.72
Woodhouse and Port	150,000	140,050	94.37
Windham and Middleton	100,000	74,800	74.80
Delhi	120,000	132,950	110.70
Charlotteville	75,000	34,750	46.33
Pt. Rowan and E. Walsingham	95,000	109,150	114.91
Houghton	20,000	9,150	45.75
N. Walsingham	40,000	14,700	36.75

Setting the Price of Wood

The fuel committee will probably meet this evening to determine the price at which the town can furnish wood at cost. This is no small task, for not more than half of the trees have been felled, and a considerable portion of the larger stand will be reserved for lumber. Taking this into account, the committee have taken the wood timber of a measured area. The cost of felling, hauling, burning, splitting and piling this has been tabulated and the cost of delivery estimated. The number of cords in the lot is now known, and with this data a price can be set, allowing for general expenditures, printing, bank interest and cost price of the wood. The whole lot is cut as near to a 16-inch length as is possible in sawing by the buzz-saw method.

The prospective purchaser should plan to buy a long cord at least, as

To Subscribers in Arrears

Paper Controller Orders Cutting Off of Unpaid Subscriptions!

Mr. R. A. Phragle, K. C., the Paper Controller of Canada, has issued an order, effective January 1, 1919, which says:

"2. Discontinue sending paper within three months after date of expiration of subscription, unless the subscription is renewed and paid for."

There are many other restrictions imposed, but this one is the most important. Therefore, between now and the end of the year the Courier's subscription list must be overhauled and put on a paid-in-advance basis, in order to comply with a governmental order.

Accounts have already been sent out to those in arrears, but subscribers do not need to wait for a "dun" to spur them to action. The date on the label affixed to the paper sent to mail subscribers tells the story. City subscribers can learn how their subscription stands by referring to their last receipt.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspapers until ordered stopped, and this practice frequently means a failure to collect anything for subscriptions in arrears, in which case there is a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on.

The manufacture of paper consumes labor, wood, coal, chemicals and transportation facilities, and every ton of paper saved means just so much labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations the Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months.

Send in your subscription at once. Do not delay, the collectors call regularly on city subscribers. Keep your account up-to-date.

the cost of delivery is trebled by ordering small lots. All orders must be accompanied by cash. This is impossible under the present status.

Shall We Have Our Hospital?

There is a decided undercurrent about town in favor of the establishment in the near future of a small hospital. It is not thought that a small hospital would suffice. Norfolk's needs at the present time, but its operation in temporary quarters would quite probably be an impediment to the securing of sufficient endowment to guarantee the maintenance of a real hospital after funds for the building have been secured.

For three years the writer has endeavored to keep the "Hospital" question before the public. The effort has not been in vain. The work of the emergency hospital has done much to foster the movement. Local leaders of public opinion in town and men of means throughout the county invariably speak favorably of the project. The general expression favors municipal financing throughout the county, preferably through the county council, supplemented by private subscription for endowment.

But any scheme that will provide the hospital—the reverse of the above if considered better—will do Norfolk needs a hospital. The need is daily more apparent.

Flag Missing

The S.O.E. flag loaned to the G.W.V.A. for decoration on Monday, was taken from the Armchairs on Monday. It is a large "Jack" and too well known and too easily recognized to be of use to the present holder. Besides the veterans hold themselves liable for its return or reimbursement therefor.

Odd Ends of News.

Lt. Harold McCall is in Ottawa. Geo. Green is expected at noon today and preparations are under way for his reception.

There was not a large attendance at the G.W.V.A. meeting last night. The Board of Health shut down last month was partly accountable. Next week the boys will be in their new quarters.

The approaches to the new McKnight bridge in Windham have been completed.

Part of the new steel superstructure was unloaded at Windham Centre and hauled to the site where it was found that the wrong bridge had been shipped.

Corporation wood will be for sale next week. About sixty cords is now ready for delivery.

Teamsters report that part of the road leading to the wood-lot is getting out of condition. It may be necessary to cease hauling till the frost sets in or until a right of way is secured across the railway.

HUNTING MISHAP.

Ottawa, Nov. 14.—E. G. White, local representative of the Dupont Powder Company, is in hospital here suffering from a shattered left arm. He was shot while hunting in the Mattawa district by an unknown hunter. Mr. White was one of Canada's best known trap shooters.

MAYOR GIVEN CONTROL OF CITY'S COAL AFFAIRS

In Full Charge of Purchase and Delivery—Fred Unger Re-engaged as City Overseer; Fireworks Flew When Ald. Hurley Called the Mayor "Bolshevik"

The city council last night set up Fred Unger superintendent of streets and sewers at a salary of \$2000 per annum, and placed full control of the coal situation in the hands of Mayor MacBride. These two items of business consumed the great majority of the four hours and thirty minutes during which the council sat in session. The star attraction of the evening was Ald. Hurley's calling Mayor MacBride a Bolshevik, and retracting later when ordered to do so by the council. Ald. Hurley also took objection to the coal situation being placed in the hands of the Mayor, and was only silenced when His Worship threatened to have him ejected from the room. There were some of the aldermen who looked as though they "have been darned pleased to be ejected long before the session was over. These late hours being held to tell on some of them they're too young and too innocent to stand the pace.

Board of Works

The board of works reported:

1. That the sum of \$13,023.01 be paid D. O. Johnson, contractor for local improvement work at Lansdowne Park in accordance with estimate No. 2 attached thereto of the City Engineer.
2. That the contract to supply and erect a stable mains and interior wiring for 40 H.P. motor to electric board, furnishing permit and certificate to be awarded the Webster Electric Company for the sum of \$195.
3. That tenders for much of this sort of thing, protested Ald. Hurley. He declared that there had been too much blundering during the present year. The wood business was an example.
- "That has nothing to do with the subject under discussion," interrupted the Mayor.

Ald. Simpson ordered Ald. Hurley to confine himself to the subject.

"The fact is over yet," continued Ald. Hurley. "It has only started. There is going to be something more doing to-night."

The by-law passed its second reading, and Mayor MacBride directed the Clerk to obtain a volume of Bourneau, the authority on parliamentary debate.

"Ald. Hurley has stated that the fun is just beginning," he continued. "We shall see what the ruling is on this subject. Such a filibustering game cannot succeed. Ald. Hurley has offered only to withdraw his statement if the Council order him to. I can produce authority to have Ald. Hurley removed from the meeting, and further, I can prosecute him for his accusation that I am a Bolshevik. I intend to take advantage of that authority."

"Mr. Mayor, you can't make any such statements," declared Ald. Chalcraft.

"I am going to take the authority," flashed back His Worship.

"We are not here to be browbeaten by anyone," continued Ald. Chalcraft.

Ald. Hurley retracts.

"I am following British precedent," reiterated the Mayor. "I demand that Ald. Hurley retract."

Ald. Hill declared that Ald. Hurley had already done so.

"He has not," insisted the Mayor appealing to the Council to stand if they supported his demand. All rose but Ald. Hurley and Chalcraft.

"Ald. Chalcraft retains his seat," observed His Worship. "I want that recorded."

"Out of respect to the Council and to the man occupying the chair, I respectfully withdraw my statement," observed Ald. Hurley.

"That is satisfactory," commended the Mayor.

The by-law carried.

Coal Situation.

Ald. Clement, seconded by Ald. Harp, moved:

"That all matters pertaining to coal deliveries and purchase be administered by the Mayor, and that he be authorized to carry out the regulations of the order-in-Council governing the same."

"This is introduced at my own request," explained the Mayor.

"Ald. Hurley demanded to know why this motion was introduced. There had been a lot of difficulty in the past over such affairs."

"A few weeks ago," the Mayor wanted to be made foreman of the wood yard at \$2,500 per annum," Ald. Hurley continued. "What happened when he first interfered in the wood business. He called everything up there. Now he wants to take charge of the coal situation. That is not the business of the Mayor of Brantford; it is beneath his dignity."

The Mayor asked the Fuel Committee if he had made any such proposal as Ald. Hurley had charged.

"Not a direct proposal," replied Ald. Clement.

"The Fuel Committee made the proposal," declared the Mayor. "Ald. Hurley has jumped to conclusions."

"You are misrepresenting me," protested Ald. Hurley.

"Take your seat!" ordered His Worship. "I ask you, gentlemen, did any such proposal emanate from me?"

Ald. Hill, Burrows and Clement replied in the negative.

"I did not say you made the proposal," explained Ald. Hurley. "I said such a proposal was made, and that you supported it. Is that not right, gentlemen?"

THE HIVER SPREE. Passing through the city of Berlin.

"If you interrupt again I shall have you ejected from the chamber," thundered His Worship. He went on to explain that when affairs at the wood yard had been in bad shape, he had been asked to take control, and expressed willingness to do so. He further explained that there was no salary attached to the authority he was now receiving.

"The motion is prompted by the fuel controller," he declared. "He is tired of dealing with half a dozen people, and wants action."

Ald. Chalcraft wished to know if it were true that seven cars of soft coal accepted by the Mayor on condition that a certain quantity of hard coal be also sent, and that the hard coal had not yet arrived.

"If you want to pass that resolution, I will accept the responsibility and will solve Brantford's fuel problem," declared the Mayor. "If not, I wash my hands of the whole affair. If any aldermen wish to undertake the task, without any salary, they are welcome to do so. But it was agreed last February that I should handle the coal situation. I have never interfered with the wood committee as Ald. Hurley has charged."

Ald. Burrows, who is now in charge of the distribution of coal, declared himself glad to hand the undertaking over to the Mayor.

Ald. Hurley called for the yeas and nays on the motion, and voted nay. Ald. Chalcraft did likewise.

FRESH FIGHTING.

By Courier Leased Wire
Copenhagen, Nov. 13.—Fresh fighting broke out in Berlin on Monday, according to messages received here from the German capital. Loyal officers opened fire on the royal stables and attacked the revolutionaries with machine guns on the Unter Den Linden. Several persons were killed.

AN APPEAL.

By Courier Leased Wire.
Ottawa, Nov. 13.—Hon. T. A. Crerar, Minister of Agriculture, today issued an urgent appeal to the agriculturists of Canada to give their full support to the Victory War Loan. The minister points to the immensity of the work yet to be done and the need for money to purchase foodstuffs to save millions of people in Europe from starvation.

To buy Victory Bonds is to hold what you have—with good interest.

Make Your Own Shampoo

Recent research on the part of hair specialists reveals the fact that many dandruff and scalp diseases are caused and rendered incurable by the indiscriminate use of shampoo preparations.

Chemical analysis proves that most liquid preparations for shampooing contain an excess of alkali (a harmful irritant) which acts its way into the pores of the scalp, and the roots of the hair, disorganizing it to fall out.

The correct method and caution is to make your own liquid. Buy a carton of Vitar of any drug store. Dissolve one of the small packets into half glass of water. Measure out one will have an abundance of pure, non-irritating liquid that will relieve itching of the scalp, falling hair and dandruff. This improves the natural color of the hair. Vitar being concentrated forer shampoos, and will keep forever.
