RESENTS QUESTIONS

C.P.R. Live Stock Agent Gives
Short Answer to Stock
Association

Ottawa, Feb. 7.—At the National Live Stock association meeting today the C.P.R. methods of transporting live stock came in for severe handling. When sharply questioned about delays or the refusal of the delivery of cars, H. C. McMullen, C. P. R. live stock agent replied, "My office is in Calgary and I will be there to receive complaints." This was resented strongly and it was agreed that the railway commission should be petitioned to have legislation enacted so that the men out in the western country could get their rights. The American railway system was bitterly accused of monopolizing Canadian cars.

I wish that I might talk with all sick ones about the actual cause of Stomach, Heart and Kidney ailments. To explain in person, how weak stomach nerves leads to stomach weakness, I am sure would interest all. And it is the same with weak heart or kidneys. This is why my prescription—Dr. Shoop's Restorative—so promptly reaches ailments of the stomach, heart and kidneys. It is wrong to drug the stomach or stimulate the Heart or Kidneys. These weak inside nerves simply need more strength. My restorative is the only prescription made expressly for these nerves. Next to seeing you personally, will be to mail you free my new book entitled, "What To Do." I will also send samples of my Restorative as well. Write for the book today. It will surely interest you. Address Dr. Shoop, Box 8, Racine, Wis. Regina Pharmacy Stores.

PROVINCIAL NEWS

Prince Albert Council has granted \$3,500 to the board of trade of that city for a publicity campaign.

The Hanley Herald has been disposed of by the owner, C. H. Leathley to H. R. Finlay.

Settlers in the Quill Lake district have earned near \$100 of wolf bounty during the last fall.

The Asquith Empire, edited and managed by Chas. A. Young made its appearance on February 5th.

The contractors have quit operations on the Regina-Bulyea branch of the C.P.R. owing to the severe weather.

That there is money in hogs cannot be doubted for S. Swartz of Tregarva recently sold eight at Lumsden realizing \$114. The hogs were eight months' old.

The Battleford council appointed a delegation consisting of Mayor Prince and Councillor Noel to visit Regina to ascertain the most advantageous method of disposing of debentures and of legalising the same.

The C.P.R. are constructing a new channel for the outlet from the lake to the Qu'Appelle river at the past end of the completed grade near McKillop's Landing. The length of the new channel will be about 800 yards, and will be west of the present channel. A more direct line of railway will skirt the west side of the stream and will avoid crossing the stream at several points as was at first expected could not be prevented if a direct course was followed. Navigation will not be interfered with between the lake and Craven—Lumsden News-Record.

A special despatch from Estevan on Feb. 9th, says that on Tuesday last John Walker was arrested by Sergt. Greenlay, charged with the administration of drugs for an unlawful purpose to Lizzie Wilson, a woman with whom he had been living for some time. Magistrate Brinkworth committed Walker for trial on this charge, but on Thursday evening the woman died, and so the accused was held here pending the coroner's inquest, which took place Thursday. The jury found that the deceased died from unnatural causes, by having been administered with drugs by some unknown person, and neglect and cruelty by John Walker. On this finding it is therefore likely that accused will be again charged with a more serious offence.

A movement is on foot among several of the local improvement districts to ask the government to put a tax of ten dollars per quarter section on all unimproved lands in the province. The contention is that the settler who improves his own land is also increasing the value of the unimproved land adjoining his, and for this the speculator reaps the benefit, yet pays nothing. By placing a tax on such land an inducement is offered to the owner to improve the land and will tend to increase the number of settlers, that is what we want in the west.—Stoughton Times.

Before Squire Carss on Friday last there were ten convictions for violation of the fish laws on last Mountain Lake. Inspector Silverthorn paid a visit to the lake recently and found a number of nets in the water on Sunday. He brought the violators before the justice who fined them sums varying from \$5 to \$10 and costs. Eight of them had their nets confiscated. Two were fined for fishing with nets without a license. They had their nets also confiscated. Among the parties charged was one Indian. Others will be requested to appear before the J.P. in a few days. Nearly all the violations were at the southern end of the lake—Lumsden News-Record.

General regret is felt up and down the line among C.N.R. men over the death, which occurred last Thursday night of J. P. Dryden, agent at Prince Albert. Mr. Dryden's death came suddenly from pleurisy, few being aware that he was ill. The deceased official has been with the C.N.R. for a number of years, much of which time was spent at Prince Albert, where he has had charge of the office and terminals of the line from the east. When the company took over the Regina-Prince Albert branch he was given charge of the northern end of that also. Mr. Dryden leaves a widow and family.

The Milestone Farmers' Mutual Telephone Co. No. 3 Ltd., have recently been organized and will build about thirty miles of telephone from Milestone to the southwest. This line will carry 40 phones, one for each of the 40 stockholders that comprise the company. Two wires will be used the greater distance of the line and poles will carry cross arms, braced and carrying four standard fingers to accommodate as many wires, should necessity demand it. This line will connect at Milestone with the lines that have been built, by means of a switchboard of 100 keys, which will be installed in the telephone exchange today. Rev. E. A. Henry of Regina preached the sermon. The church is one of the finest in the west. It cost \$45,000 to build, and the pipe organ cost \$5,000. The basement is fitted up with parlors, library and Sunday School rooms. The stained glass windows were presented by ex-Mayor William Cowan. The church is a tribute to the pastor, Rev. Colin G. Young.

INDEPENDENT FARMERS

The meeting called for the organization of a branch of the Farmers' Independent political party was only fairly attended on Wednesday afternoon, partly owing to the heavy roads delaying Organizer Noble, of Orbow, and the fact that the court was in session in the hall in which the meeting was intended to be held. The meeting was finally opened in the Hayward restaurant building, and by this time several of the farmers had gone home and others were not aware of the place of meeting. Organizer Noble spoke for some time, stating the purpose of the meeting and scoring the present political parties from a farmer's point of view. Organization followed with thirteen members being enrolled with the following officers: President, Wm. Sedgwick, vice pres., A. Long, secretary, E. H. Hayward. Another meeting is to be held in the near future of which due notice has been given.

While we are heartily in sympathy with any movement in the interests of the farming community, yet we doubt whether the above organization will accomplish what it has set out to accomplish. We also believe that time is inopportune as many of the farmers of the constituency are already pledged to support the nominees of either the Carley or Estevan conventions.

The history of independent political movements in other provinces have as yet not proved results which warrant the abolition of party lines or party government. The farmers' interests are the interests of the country as a whole and a summary of both provincial and Dominion legislation during the last ten years will show that legislation in the interests of the farmer has occupied no small place in parliament.

There is never a question as to the absolute purity and healthfulness of food raised with

DR. PRICE'S
CREAM
BAKING POWDER

A pure, cream of tartar powder
Its fame is world wide
No alum; no phosphate of lime

The poisonous nature of alum is so well known that the sale of condiments and whiskey containing it is prohibited by law.

In buying baking powder examine the label and take only a brand shown to be made with cream of tartar.

MINERS UNITE

Bienfait, Sask., Feb. 8.—Representatives of the United Mine Workers of America are here in the interests of the Miners' Union, recently organized by the employees of four of the largest coal mining companies. Naturally the companies object to the advent of the union, but the men are determined that it should go ahead, and have sent for President Sherman to bring the matter to a climax. A great number of miners have been laid off or discharged, and some of the mines have shut down, ostensibly for want of orders, but the opinion is somewhat prevalent that it is a means of getting rid of union men. A coal famine is not a pleasant thing to contemplate at this season of the year, and it is sincerely hoped that matters may be speedily arranged and the works resume operations.

Prince Albert, Feb. 9.—The new Presbyterian church was dedicated today. Rev. E. A. Henry of Regina preached the sermon. The church is one of the finest in the west. It cost \$45,000 to build, and the pipe organ cost \$5,000. The basement is fitted up with parlors, library and Sunday School rooms. The stained glass windows were presented by ex-Mayor William Cowan. The church is a tribute to the pastor, Rev. Colin G. Young.

RECIPE FOR RHEUMATISM

Directions To Prepare Simple, Yet Remarkable Home Mixture.

There is so much Rheumatism here in our neighborhood that the following advice by an eminent authority, who writes for readers of a large eastern daily paper, will be highly appreciated by those who suffer. Get from any good pharmacy one half ounce Fluid Extract of Dandelion, one ounce Compound Kergon, three ounces of Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime, also drink plenty of good water. It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys, so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman who feels that their kidneys are not healthy and active, or who suffer from any urinary trouble whatever, should not hesitate to make up this mixture as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

C. P. R. CHANGES

Drinkwater Resigns Secretaryship—Supt. Brownlee Goes to Cranbrook.

Montreal, Feb. 10.—At a monthly meeting of the C.P.R. directors held today the resignation of Charles Drinkwater as secretary was approved. Walter R. Baker was appointed to the secretaryship, the change to be effective on March 1st. Mr. Baker is also to be assistant to the president. An official circular issued states that having been asked to be relieved of some of his duties Mr. Drinkwater will relinquish the secretaryship, retaining the position of senior assistant to the president.

with office at Montreal. He will, under the president, have charge of all matters in connection with the Dominion, Quebec and Ontario parliaments, also business of the company connected with the board of railway commissioners, and such duties as the president may assign.

Winnipeg, Feb. 10.—The following changes have been given out from the office of the assistant general manager, G. J. Barry, C.P.R. Superintendent, G. Ericson, Cranbrook, transferred to the company's forestry department; Supt. J. G. Taylor, Fort William goes to Moose Jaw; G. E. Graham, Souris, goes to Fort William, and Allan Purvis, formerly chief clerk to F. F. Buehard of the Pacific division becomes superintendent at Souris.

Pense Old Timers

About eighty of the old timers of the district sat down to a sumptuous repast in the dining room of the Carlton hotel last Wednesday night, the occasion being the annual dinner of the Old-Timers. The dinner was to have been held the week previous but was postponed owing to the death of one of the old timers in the person of J. H. Hinds.

G. Spring-Rice presided and a splendid program of speeches, songs and recitations was taken up after justice had been done to the splendid meal.

Among the speakers were the president and Messrs. F. Tate, A. McVillie, J. R. Symons and H. Koyce.

Altogether a very enjoyable evening was spent until after one o'clock when the meeting broke up.

PROGRESSIVE PRINCE ALBERT

Prince Albert, Feb. 9.—Building operations promise to be lively this spring. The Imperial bank proposes starting work on their new block opposite the city hall, as soon as excavation can be started. The bank's present quarters are much too small and something has to be done. The new \$30,000 high school building and the St. Alban's school for girls, to cost \$20,000 will be built this year. Work on the C.N.R. rail and traffic bridge is proceeding very favorably. Both abutments are completed and the eight piers are well under way. The bridge when completed will give access to the rich Selkirk country across the North Saskatchewan and will lap the main line at Battleford.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness. The heart is a muscle, and like all muscles it is made of tiny little nerve fibers that really is all at risk. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart runs stumbling, falters, and the stomach and kidneys also have their nerve controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative is done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, debilitating, suffering heart distress. Dr. Shoop's Restorative—this weak and wandering nerve center, is built up, strengthened, it offers real, genuine heart help. If you would have strong heart, strong position, strengthen those nerves—re-establish them as a healthy nerve.
