A TALK ON PURITY

Park believes in purity in everything in purity of living, in purity of politics, and above all in purity in drugs.

SAYS CRASH IS COMING

Continued from Page One.

of this, since the extreme penalty imposed on one corporation, with a limited number of shareholders, has caused a loss of confidence, reflected in a falling stock market; a tightening of money, and a fear of the future. The newspapers are full of this slump, and reflect the feeling of unrest. They ascribe it to but one thing.

"What will be the effect when similar action is taken against corporations with myriads of stockholders scattered throughout the country, the investors, the widows, the orphans? There can be but one answer. The present situation will be intensified many fold. It does not require an expert to reason this out. The most superficial thinker can do it.

"I will go further and say to-day, that because of the administration with its reports every five minutes of new actions and of heavy fines, the country is already beginning to drift toward the rocks of financial depression.

"Confidence is gone, and confidence is the basis of all prosperity. With confidence established there can be no stopping of the wheels of progress. Without it all is at a standstill.

The investor, great and small, locks up his money and refuses to venture forth.

"I do not need your stock market report, your editorials, your predictions and forebodings to prove to myself the truth of my words. I have another way of knowing absolutely—a way which has never failed me in the long years of my business career. That is the way I am judging the financial situation—from the attitude of the financial world toward myself. Let me illustrate.

"There was a time not long ago before the present runaway, hit or miss, impulsive agitation began, that I would be called up on the telephone, say by Kuhn, Loeb & Co., and asked if I wanted to come in a syndicate, and a certain allotment of shares would be given to me, but I was also told that I would have to make immediate answer. If my reply was that I needed several days for consideration, the telephone receiver would be hung up in all likelihood. When I called several days later, I said I would go in the syndicate. I would be curtly informed that I had lost my opportunity; that the syndicate had been completed.

"What is the situation now? I am called and asked to participate in many syndicates, but in none of them is the time for decision fixed on the instant. Instead of the former attitude, I know they are content to wait my decision, and I know there is no danger that I will be too late.

"I can judge in another way. Requests are coming to me to-day for money from quarters it was least expected would be asking for money some time ago. To-day I am offered the unprecedented interest of 7 per cent. for \$1,000,000, or \$2,000,000, or \$3,000,000.

"The security was beyond all criticism. That would be impossible in this country if there was confidence enough to unlock the money vault of the country.

A NEW INDUSTRY

For the past few days a deputation of outside capital, representing a Western Company, has been looking over the city and presenting their proposition to the Board of Trade. They are willing to establish a factory here, and the Board of Trade, being in favor, it is necessary for the Council to sanction same.

Their factory and plant will cost \$40,000. They will have a paid-up capital of \$30,000, employ 70 people the year round, and will pay wages amounting to \$18,000 yearly outside the office help.

They ask a loan of \$20,000 for twenty years at five per cent. interest, to be returned in five equal annual payments. They ask for a flat rate on water, and will give personal bonds for the first five payments. About three-fourths of the employees will be females, and also a number of ladies at their homes will be employed with work from the factory.

The Board of Trade are much in favor and will do their best to get the Council to endorse the same.
