Tailor Talk...

Easter marks the permanent change from winter clothing to those of spring; from old styles to those which are now. All that an expérienced tailor, as good cutter and an honest dealer can do for spring outfits I can do for you in material, make and price of a new suit. Fancy vests are popular—that is, the kind I make are popular.

St. Patrick's Society.

The regular meeting of the St. Patrick's Society was held last night to close up their affairs before the summer vacation. The concert committee's report was received showing that a clear profit of over \$50 had been made. No announcement had been made as to what disposition would be made of this money, and it was thought that it would be in keeping with the object of the society and the spirit in which St. Patrick's Day is held to devote the proceeds to charity and it was accordingly decided to devote the sum of \$50 to be equally divided between St. Joseph's Hospital and the General Hospital. They will no doubt appreciate "devin" of the Herald for accusing; r even initing that that bright, intelligent and common sense looking lad was the author of the criticism on the "Chimes of Normandy," persons who assisted in decorating the stage. which appeared in that paper.
