

HASZARD'S GAZETTE.

Saturday, July 7, 1855.

This paper has one thing at least to recommend it to the readers attention, it is the first newspaper printed in Prince Edward Island by means of steam, and forms a epoch in its history. It is one among many other proofs that the infancy of the country is past, and that a vigorous healthy manhood is commencing. The use of steam is a criterion in the present day, by which to measure the progress of improvement. Wherever there is a call for it, when the necessities of a country have become so urgent that its manual industry is not sufficient to supply the demands made upon its powers and energies, and recourse must be had to this mighty agent to perform in a superior manner and in less time the work that had been previously executed by the human hand, it is a proof that capital has not only increased, but is still increasing and will continue to do so so long as steam is required to do the work of man. In our case the erection of a steam engine to work the power press is evidence of an increase in knowledge, of a demand for intellectual capital, for information without which all other capital is in a measure useless, for though gold and silver may abound in greater quantities than Australia and California has afforded, unless they are made subservient to and are under the control of knowledge and science the nation, state, or country is after all but a glittering barbarism. We are proud to bear testimony to the fact, that useful learning and knowledge is greatly on the increase, and we trust that but a very few years will be suffered to elapse before the inhabitants of this Island will be distinguished for having their minds equally as cultivated as their soil, and we hope to be aiding and assisting by means of our now powerful press, towards a consummation so desirable.

Having thus successfully accomplished the completion of our establishment by the adoption of steam as a motive power, we shall be the better able to devote more of our time and attention (which has in some measure been diverted by the necessity of attending to the erection of the engine) to the improvement and embellishment of our paper, and rendering it more attractive by a selection of the best literary food we can procure, both original and selected. We would at the same time remind our friends who may be in need of our services, that from our increased facilities we are able to execute all kinds of printing in the best manner and at the cheapest rates. We have already printed works for publishers in New York, Nova Scotia and New Brunswick, and would be better able successfully to compete with the presses in those places, had an enlightened Legislature remitted the duties on the materials. We trust, however, that this exposure of the unequal manner in which we lie in common with those who have been striving to establish domestic manufactures have been treated, will compel the Government from a sense of justice, to put us on a level, at least, with foreign competitors. We have from this cause been obliged to refuse many applications for employment, but we trust that next year no such obstacles will exist to prevent the extending our establishment and availing ourselves of the labours of an increased number of hands.

TO THE EDITOR OF HASZARD'S GAZETTE. Sir; Please give insertion to the following few remarks in your useful paper.

There are some people who are given to believe that they have something great in something new. A few days ago I was somewhat amused and not a little surprised at the perusal of Mr. Stark's Report of the District Schools of the Island. For many years I have had some opportunities of knowing the condition of both Schools and Teachers around me, and have often been at the examination of the School in my neighbourhood, (New Glasgow,) and always observed it to be in a healthy and thriving condition, to the satisfaction of all concerned. The present report of this School especially is culpably incorrect, both in regard to the number of scholars studying, their respective branches, as well as the general bearing of all the children. Supposing, that a trifling misunderstanding should exist between the Visitor and the Teacher, is it candid that his School should be erroneously reported on that account. Teachers whose services have been appreciated for some years in intelligent communities and whose labours were commended by his predecessor, are sufficient evidences to prove this man's Report in too many instances quite reversed. You are aware Mr. Editor, that Mr. Stark receives the amount of £200 Salary as a Visitor of Schools, and the sum of £100 more as a Lecturer on Agriculture. I have heard him lecture on this subject, but in such style as a school boy could read out of Professor Johnson's Lectures on Agricultural Chemistry, without ever explaining it to the level of the people's capacity to understand. The recommendation of Professor Stowe of Glasgow's

system of School training by Mr. Stark, to the scattered inhabitants of this Island, shews evidently, that he is incompetent to discharge satisfactorily the important duties intrusted to him, as he is unpopular.

I remain dear Sir, Yours &c., A FARMER.

30th June, 1855.

IRISH SOCIETY PLEASURE TRIP AND PICNIC.—On Monday last, according to previous announcement, the Members of the "Benevolent Irish Society," with their guests,—numbering in all about 200,—enjoyed a Pleasure Trip, in the Steamer Rosbud, Capt. Matheson. About 9 a.m., the boat, gaily attired, amid enthusiastic cheers from those congregated to witness their departure from Queen's Wharf, and accompanied by Instrumental Music, left our harbor, and proceeded to the appointed place, Orwell. The weather was remarkably fine, with a light breeze, which added much to the hilarity of those on board; and everything promised for the excursionists, "a good time." After a run of about 2 1/2 hours, the boat reached her destination, and proceeded to discharge her living and happy freight. Here the Managing Committee found that any labor cut out for themselves at Orwell, had been anticipated, by the praiseworthy consideration of Mr. John Douse, who had not only thrown open his residence for the accommodation of the party, but had caused an ample Tent to be erected, by people in his employ, for their further amusement. We may here add, that Mr. Douse's generous and unexpected conduct, was highly eulogized and appreciated. After a few hours, spent in various sports, as the different tastes inclined, the party re-embarked, by means of boats—the low tide preventing the approach of the Steamer to the wharf—and, in spite of the strong head wind, came nobly out of the Bay, returning to Port about half-past 7 p.m.—amid general congratulations on the result of the excursion. The whole affair was of the most agreeable character, and reflects much credit on those who undertook and carried out the arrangements. The efficient and untiring efforts of Mr. S. W. Mitchell, are well worthy of commendation; as the success of the affair is considered mainly attributed to him. We hope that many other such Trips may be enjoyed in the course of the present season, and all with the same happy results.—Adv.

At a very large and respectable meeting of the Electors of Ward No. 2, held this evening at the Temperance Hall, James McCraith, Esq., in the Chair, it was moved by Neil Rankin, Esq., and seconded by Mr. Arthur O'Neill, that Robert Hutchinson, Esq., be nominated a candidate for the Chief Magistracy at the ensuing Civic Elections, which was carried unanimously. Neil Rankin, Esq., was proposed by Mr. A. McCausland and seconded by Mr. Joseph Weeks; J. C. McDonald, Esq., was proposed by Mr. W. McKay and seconded by Mr. Charles McKenna, as candidates for the Common Council, both of which propositions were carried unanimously. On motion that Mr. Neil Rankin do take the Chair, a vote of thanks was given to Mr. McCraith, for his impartial conduct. The meeting then adjourned.—Com.

Married,

At Bedouque, at the residence of Mr. John Bear, her brother-in-law, on Tuesday evening the 26th inst., by the Rev. Wesley C. Beale, Mr. William C. Sinclair, of Guysborough, N. S., to Mary Louisa, third daughter of Mr. Neil McCausland, of Brackley Point, P. E. I.

At St. Eleanors, on Friday 29th ult., by the Rev. Mr. Albrighton, Wm. E. Dawson, Esq., Merchant, to Anne F. Compton, only daughter of the late Wm. S. Compton, Esq., Merchant.

On the 5th inst., by the Rev. Charles J. Burnett, at the residence of the bride, Mr. John M'Laughlan, to Margaret Gilligan, both of Charlottetown.

Died,

At Tignish, on Tuesday, the 26th ult. of consumption, Mr. Charles Donahoe, aged 35 years. The deceased was a native of Gosport, England, and emigrated to Miramichi in 1826, and from thence to this Island, about five years since.

Passengers,

In the Packet John, from Pictou—Messrs. George Lowden, Cameron, McDonald, Tremain, McLennan. Launched from the shipyard of William Bell, at Cascoque, for G. M. Ryder & Co., a very superior built brigantine, called the "Lydia," of 136 tons, N. M., and 186 tons, O.M., which for superiority of model and workmanship reflects great credit on the builder.

PLEASURE TRIP.

THE STEAMER ROSEBUD, will leave Charlottetown for Baie de Verte on Saturday next, the 14th instant, at 9 a. m., and return on Monday. Tickets for the Trip 10s each, can be obtained at the Subscriber's Store. Children half price.

GILMAN'S HAIR DYE

The best article ever used, as hundreds can testify in this city and surrounding country. Read! GILMAN'S LIQUID HAIR DYE instantaneously changes the hair to a brilliant jet Black or glossy Brown, which is permanent—does not stain or in any way injure the skin. No article ever yet invented which can compare with it. We would advise all who have grey hairs to buy it, for it never fails.—Boston Post. Z. D. GILMAN, Chemist, Washington City, Inventor and sole Proprietor. For sale by Druggists, Hair-dressers, and Dealers in Fancy Articles, throughout the United States. W. R. WATSON, General Agent for P. E. Island. Jan 6, 6mo.
