Mr Delgaty introduced the subject of Arithmetic in Public Schools.

He strongly advocated the principle teaching instead of rules. Too much attention is frequently paid to rules and not enough to principles, He held that arithmetic should be taught in the morning and from black-board not from the book.

The discussion became general,

Sentiment with me ple causes allegiance to Great sentiment hinders many from fee annexation to the States, and the belief in Canada's independe centiment would lessen the non-watertakers if this scheme was 1 in. (Hear, hear.) The mayor ha that in the past fifteen years he no fire that would necessitat the mains with harbor-water; making that statement the fire Summer Hotel and that adjoint Summer Hotel and that adjoini strong's factory, where the w fortunately veered in both came the water supply was exhaust surely been overlooked. An water other cases that could be by some present, which did not his mind. Then, again, to m test which was called for by Seo of the contract where four stream have to be pumped from inch and of the contract where rour stream have to be pumped from inch and ter nozzles for a long period, be works were taken off the combands, would necessitate the fapipes with harbor water, no mains would be polluted before the property of the company of the company

mains would be polluted before to as used for domestic purposes, also laid down that a he put of water should be must be first month, which if out would require the purcharbor water through the pipe. It had been stated by so those who opposed the running intake pipe to the harbor were those who opposed the running intake pipe to the harbor were those who opposed the running intake pipe to the harbor were protection, but that was see. We want a full supply arposes, but we want a pure see rposes, but we want a pure at the purposes first.
