### The Two Best.

**The "MIC-MAC" Hockey Sticks.**

Made of selected second-growth birch. For forwards, defence and goal. Natural grain of wood running with curve of blade. Here are some of its good points. 1st—Stiffness and lightness. 2nd—Will not fray at bottom of blade. 3rd—Keeps its correct shape. 4th—Correct in pattern and weight. 5th—Every stick carefully inspected before leaving factory. Ask for the "MIC-MAC" sticks and don't accept imitations.

**The "REX" Hockey Sticks.**

Our latest pattern, made of straight selected second-growth yellow birch. For expert players—forwards, defence and goal. The features which recommend it are—1st—Longitudinal serrations on handle, ensuring firm grip and preventing stick slipping from players hand. 2nd—Double grooved blade, the lower one also being serrated. This enables the puck to be accurately shot for goal and strengthens the stick at its weakest point. Ask for the "REX" stick.
