SOME DAINY ONES. SOME INTENDED FOR USEFULNESS.

These first-class, carefully made Blouses will hold their shape
and give you a fashionable touch.

MARSHALL BROTHERS.

Snapshots Around the World.

(By the Man in the Moon.)

During the first three months of 1910 one hundred and eighteen aliens have been forbidden to land in England.

Three cases of smallpox were recently reported in Toronto, the victims, it is said, being natives of Newfoundland.

Orville Wright recently took his father, Bishop Milton Wright for an airship flight. The old gentleman is hale and hearty at 82 years.

An English doctor has made the startling announcement that appendicitis is caused by preservatives in food disguising the presence of decomposition.

Coffee made of burnt turpentine, milk colored with coal tar, and pepper, which was ground olive stones, were three of the exhibits at a faked food exhibition held in London recently.

Mary Courtney, of Floresville, Wilson County, Texas, is said to be 119 years old, and is still active enough to count on another five or even ten years. The next oldest in the State is Juan Vargas, who has lived 115 years, and there are nine others who are close to the century mark.

Capt. Bernier, the Canadian explorer, is said to have been awarded a land grant of 960 acres in Baffin Land. We wonder if the intrepid explorer intends to spend the remaining years of his life in that out of the way region?

The Halifax Acadian Recorder says: "It is of interest to note that a man has just been released from a New Jersey Insane Asylum who was committed ten years ago because he was trying to construct a heavier-than-air flying machine. His positiveness that it could be done was considered proof positive that he was crazy."

Gotch Easily Wins.

Chicago, June 1.—Frank Gotch of Humboldt, Iowa, to-night successfully defended his title as wrestling champion of the world by easily defeating Stanislaus Zbyszko the Polish champion in straight falls at the Coliseum. Gotch outclassed his bulky opponent in every department of the game, after winning the first fall in the phenomenal time of six and one quarter seconds. It was only a question of how long the Pole could hold out against the brilliant and varied attacks of his skilled rival. The immense crowd had hardly realized that the great match had started before referee Dick Fleming slapped Gotch on the back and declared him the victor of the first fall. The hold which sent the Pole down was a bar arm and half Nelson. After the men slook hands, Gotch had stepped back a bit and then a fierce flying tackle and before the Pole realised what was happening, his shoulders were pinned to the mat. Warned by his sudden downfall, Zbyszko was more careful and it took Gotch 27 minutes and 38 seconds to win the match with a bar arm and wrist lock.

At mid time was Gotch in any danger and when the Pole would secure any advantage, Gotch would forestall his opponent at every turn and it was worse than hopeless for the Pole to assume the aggressive. The result indicated that Gotch was out of condition when he lost the handicap match to Zbyszko at Buffalo. In that encounter Gotch engaged to throw the Pole twice within the hour, but failed to get even one fall.

A WEDDING.

This evening the wedding of Miss Mary Clare Hurley, youngest daughter of Mrs. Thomas Lannigan, of the Admiral House, King's Beach, to Capt. H. W. Winsor, takes place. Capt. Winsor has been master of a ship sailing out of Philadelphia for a number of years. The ceremony will be performed at St. Andrew's altar, R. C. Cathedral, by Rt. Rev. Mons. Roche. Both are well known and popular and are receiving many congratulations.

FOUR PRISONERS.—There were four prisoners at the lock up for drunkenness last night.

LARACYS have just received direct from the manufacturers per "Dreuning Maud," from Antwerp, Tumblers, Glasses, Decanters, Goblets and Fancy Glassware. Selling at our usual low prices at LARACYS 345 and 347 Water Street, opposite Post Office, may 14.11

Man's Narrow Escape.

Stephen Kirby, of Job Bros. premises, who looks after the elevator and the electrical machinery and to set the fans in motion to give air to the fish driers, narrowly escaped being killed yesterday afternoon. These are at the top of the building. He was up oiling the fans and machinery and accidentally turned on the current, when the revolving fans caught his clothing and he was mixed up in the machinery. How he escaped being killed is a mystery. Mr. Thomas Wallace and Mr. Williams had just come up on the lift when the machinery started and heard the smothered cry from the man. Wallace ran in and jumping to the switch stopped the current and thereby the fans and saved the man's life. His clothing was twisted about his person, torn into shreds in places, and part of his body was thrust in between the fans. The man was considerably bruised about the body and cut about the hands and is to-day confined to his home.

New C. C. C. Company.

The Committee of the C. C. C. have been considering the formation of a Promotion Company and last night definitely determined to do so. The object is to get the very best lads of the Corps into it and it will be open to all classes without distinction rich and poor alike. The boy who can pick up the required marks is eligible for membership. Each boy to join this distinction must put in 90 per cent of drill. There is also a 75 per cent medal which such boys can win and a 65 per cent stripe and these all count in his form in successive years. The Committee hope to establish the Company within the next month. Good conduct, attention to drill, etc., will merit for each one this promotion and such a department will no doubt make for the better efficiency of the whole Corps. It will also intend to increase the members in it. A change of uniform is also to be brought into effect. A jersey will replace the present tunic of the Corps but this latter will be retained by the members of the Promotion Company. The C.C.C. is now in a most satisfactory condition a fact which reflects credit on the energetic gentlemen who compose the Committee.

Coastal Boats.

REID FELD. CO.

The Argyle left Placentia at 7 p.m. yesterday for the west.
The Bruce left Port aux Basques at 10.45 p.m. yesterday.
The Clyde left Botwood at 5.15 p.m. yesterday, going south and Change Islands at 10.30 a.m.
The Dundee left Musgrave at 2.30 p.m. yesterday.
The Ethie left Hearts Content at 2 p.m. yesterday.
The Glencoe arrived at Placentia at 6.45 a.m. to-day.
The Home arrived at Bonne Bay at 6.10 p.m. yesterday.

BANSHEE SAILED.—The Banshee sailed this morning for Oporto, taking 3,500 qtls. of fish for Monroe & Co.

Nutritive Hypophosphites.

When a person feels "blue," "all tired out," "doesn't feel the doing anything," cannot concentrate his mind on his work—feels weak mentally and physically—doubts his powers—complains of "poor" appetite and sleeplessness—suffers from headaches—then his nervous system is run-down and demands a good up-building tonic. Nervous exhaustion is a modern disease, caused by too close attention to business, overwork, worry, devotion to trying family cares overstudied, etc.

Nutritive Hypophosphites forms the best nerve and brain food known, and have restored thousands of sufferers to health. Large bottle, \$1.00.

Mr. St. Hill's Plucky Act.

Mr. Bonnel St. Hill, of Crosbie & Co's office, performed a gallant deed last night and by his pluck preserved the life of a man named Michael Ryan, of Londonderry, Ireland, the second steward of the Susu, who came out here in the ship. The man who with another had been imbibing pretty freely came down on Crosbie's wharf about 10 o'clock last night, and in boarding the Susu

FELL BETWEEN THE SHIP AND THE WHARF.

Mr. St. Hill, Hon. J. C. Crosbie and others were on the pier, and as the shores were boarded across and no means of giving him aid, it looked as if the man would drown. Several men lent their aid to keep the ship off from the pier so that the man would not be crushed, and Mr. Crosbie thrust a stick down to him which he failed to grasp. Mr. St. Hill seeing the extreme danger the man was in

JUMPED OVERBOARD AFTER HIM.

The man grasped him tightly and it looked as if both would drown until Mr. St. Hill had to hit him repeatedly and thereby loosed the hold he had on his (St. Hill's) neck. A rope was then thrown from the wharf, and Mr.

St. Hill keeping the man afloat with one arm tried to take a turn of it round his body. After some time he was enabled to do this, and those on the wharf hauled both men to safety. Both men were brought on board the Susu and were exhausted from their struggles, drenched and chilled. A change of clothing was given them and Mr. St. Hill was driven home by

Backache Suffering

A wonderful medicine is this man's description of DR. CHASE'S KIDNEY-LIVER PILLS.

Mr. Fred. Gummer, Lillies, Ont., writes: "I can honestly say that Dr. Chase's Kidney-Liver Pills are a wonderful medicine. For six weeks last fall I could scarcely walk around for pains in the back and legs, and was almost completely unfit for work. Though I tried several medicines I got no better. I saw Dr. Chase's Kidney-Liver Pills advertised and bought five boxes. After I had used three boxes, I was greatly improved and by the time I had them all taken felt as well as I ever did. I would advise anyone suffering from kidney disease to use Dr. Chase's Kidney-Liver Pills. We have also used Dr. Chase's Syrup of Linseed and Turpentine for bad colds and sore throat and would not be without these medicines for anything."

Capt. Barbour. Head Const. Shepard and Const. Lawlor were apprised of the affair, and saw Ryan placed in his berth and well attended to. The man had a bad cut over the eye, and in falling must have struck either the wharf or the ship. Mr. St. Hill's pluck and daring is to be commended for he had not acted so promptly the life of the other man must have been forfeited.

Council Should Act.

For the past four weeks the pump ever the well which supplies the people of the Battery Road with water, has been broken and the people are put to great trouble and inconvenience. They must go up to the head of Temperance Street for a supply of water for household purposes, and immediate repairs should be effected. As it is at present there is no outlet to the well and thus the water is always more or less polluted. This is a matter which also needs rectification. Over 400 families depend on this well for a water supply.

At 10 o'clock last night Officers Tobin and Fagan found a man who was very much under the influence of liquor, and who fell repeatedly going down Bowring's Cove. When questioned he said he was going on board a craft, and had he not been noticed he must have fallen overboard. The officers to obviate this brought him to the station.
