**New Church Dedicated.**

HIS GRACE THE ARCHBISHOP PERFORMS DEDICATION SERVICE AT ST. FRANCIS' PARISH, OUTER COVE.

On Sunday morning, October 30th, His Grace the Archbishop accompanied by Rt. Rev. Mr. MacDermott, V.G., B.A., visited Outer Cove for the purpose of dedicating the new church of St. Francis, and administering the Sacrament of Confirmation. Elaborate preparations had been made to greet the distinguished visitor. Several beautiful arches (seven in all) had been erected along the route through Logy Bay, Outer Cove and Middle Cove. Each arch was prettily adorned with bunting, whilst the Church grounds displayed flags galore, careering merrily before the gale. Shortly after 10.30 the echoes of musketry came along from the outlying post announcing the advent of the Archbishop. These were repeated as he passed under each arch until as he came beneath the magnificent triple arch leading to the Church, the air was filled with salvoes which, with the lusty cheers of hundreds, made the boisterous elements pale into insignificance. To add to the splendour of the occasion as His Grace entered the Church the Acushla Macree band burst into song, and rendered the Pope's March in robust yet melodious strains which completely carried away the very large congregation, and brought forth flattering encomiums from the distinguished prelate.

Assisted by Rt. Rev. Mr. MacDermott, V.G., and Father O'Callaghan, His Grace first performed the ceremony of Dedication, after which he presided at Mass, which was celebrated by the pastor, Fr. O'Callaghan. Mass over, the Archbishop ascended the pulpit and delivered a strikingly beautiful discourse. His diction was elegant and chaste as with a wealth of detail, he referred to the beauty and finish of the Church, and congratulated people and pastor upon the very evident spirit of co-operation that existed between them. He referred in glowing terms to the splendid generosity of the people, to their grand spirit of faith, and to their noble self-sacrifice, adding that their beautiful Church was one of which the Archdiocese had good reason to be proud. The Archbishop's oration was listened to by all with rapt attention. Immediately following His Grace's discourse the Sacrament of Confirmation was administered to some eighty candidates, at the conclusion of which the Archbishop addressed those confirmed, and again in beautiful and simple language explained the meaning of the Sacrament they had just received, as well as the Church's solicitude for her children manifested through her Sacraments.

A few words of thanks and appreciation from the Pastor, on behalf of the people and himself to His Grace for his kindness in coming among them on such a boisterous and depressing day, and for the kindly and appreciative way that he had spoken of and to them, brought the day's function to a close.

At departure, as had been on arrival, His Grace, after having met the people individually, was cheered to the echo, and rode after rifle rent the air with their thunder, and it is safe to say that nowhere will His Grace and the genial Monsignor MacDermott receive a more sincere and wholehearted welcome than that of the parish of St. Francis. Though the function took place during very inclement weather—a gale raging with a driving rain—the sacred edifice was crowded. Many distinguished visitors from St. John's braved the elements; and had favourable weather prevailed many others would have been present. A very substantial sum was generously given at the offertory collection, and this being augmented by generous contributions from many

who were unable to be present. To all the grateful thanks of people and pastor are tendered. To the Acushla Macree band, too, many thanks are due. Each member of that band, as usual, was most courteous and obliging, and in their various renditions excelled themselves.

It may be added that C. J. McCarthy of St. John's designed the Church, W. J. Ryan installed the heating system, George Conway plastered it, John Duffy decorated and painted the interior—altars, pulpit, altar rail, pews, confessional, etc., Messrs. Howlett & Armstrong built the altars, pews, altar rail, pulpit, etc., Mr. Dan Carroll designed the High Altar, while the men of the Parish gave the logs from their groves, sawed them with the Parish saw-mill, erected the Church, made brick, built the chimneys, made rails, built the electric line from Outer Cove to Bally Haley, and by their generosity completed the Church as it stands free of debt. The Red Nid. Co. through the courteous and obliging J. W. Morris, wired the Church and placed the fittings. The three altars, pulpit, altar rail, statuary, including stations of the Cross, are gifts to the Parish from without and within.—Good luck to all.

**Casino Patrons Delighted With "Jim's Girl."**

The Gladys Klark Players scored a decided hit in their presentation of "Jim's Girl" at the Casino last evening. The play is one of the nature that pleases all classes and ages. It concerns the homecoming of Jim Bedford from the Great War. Jim returns to his New England home after leaving his heart in France, but a very pleasant surprise awaits him when he discovers that his little sweetheart of France has stowed away on the same boat that he arrived home on. This, however, causes a few complications but everything comes out all right in

**COLIN CAMPBELL, Limited, Distributors of Lantic Sugar.****How fine cooks make cream soups to-day**

After eating a rich cream soup somewhere, do you sigh and say to yourself "if I could only afford to use real cream, I could serve soup like that, too!"

The chances are that the soup you would like to duplicate was not made with cream at all. For many fine cooks have learned a culinary secret that makes of cream soups a banquet dish at every day cost.

The secret is—make them with Libby's Evaporated Milk. For twenty years Libby has worked to give a finer and richer milk to consumers. Their plans were far-reaching. First they sought out the finest pasture lands in America. There they encouraged the breeding of splendid milk herds and the use of all the appliances and practices of scientific dairying. And there they established their milk condenseries so equipped as to assure absolute purity and cleanliness.

At those condenseries the whole milk from the fine herds, with the cream left in, is canned for you. Half the moisture is taken from it by evaporation. Nothing is added to it. So you have in this milk just the rich, pure product of the finest cows, but with twice the food value, twice the butter fat, of ordinary milk.

This milk makes cream soups so smooth, so rich, so mellow that they taste like the soups made by extravagant cooks.

Used in coffee, this milk gives a creamy richness at half the cost of cream.

Try it in your favorite recipe where cream or milk is called for.

Your grocer has it or can get it for you.

the end, Miss Gladys Klark gave a remarkable impersonation of Yvonne, the little French girl and Le Roy H. Bailey appears as Jim Bedford. Fred Carmel had the audience in roars of laughter with his original comedy and humorous sayings. He proved himself a comedian of no mean ability. Two other characters which also were the cause of much humour were Messrs. Louis Lytton and Harry Ford who appeared as two "vets" of the civil war. The story, acting and settings were all that could be desired. The play is well worth seeing and should not be missed to-night by those who did not see it last evening. The selections by the C.L.B. Orchestra were delightfully rendered. The above play will be repeated to-night and at the matinee to-morrow. To-morrow night's play is "Mother Carey's Chickens." In this play a new and very young character will appear, in the person of Baby (Billy) Ford.
