FOR COUGHS BRONCHITIS MIXTURE AT ALL DRUGGISTS

Sold in St. John's by M. Connors, Kavanagh's Drug Store, T. McMurdo & Co., Ltd., Peter O'Mara E. J. Sanson, Bay Roberts; D. G. Fraser.

At the Majestic.

The admirers of Elaine Hammerstein will find her at the Majestic today, where she is presenting "Remorseless Love." Miss Hammerstein does not come this time in ball dresses and evening gowns, but swings across the stage as a self-reliant and vigorous girl of the mountains who teaches school, and rebels against the outrageous dictates of feudal hatreds and retaliations.

It is this rebellion against the feud custom that leads the story and its heroine into a cumulation of incidents that end in one of the cleverest "surprise finishes" the screen has ever carried. There is absolutely no way to suspect who committed the crime that lands the hero in the clutches of the law. The outcome hinges on the climactic events in a courtroom where Miss Welch finds his life at stake with the girl he loves about to make disclosures that cannot help but blast her reputation.

Sturdy men act like human beings as they progress with their deter-

mination to collect "an eye for an eye"—and all the time Miss Hammerstein, as the frail but resolute school teacher, defies the arrogance of community hatred with success crowning her efforts and true love winning out above all.

Look for the Mark!

The Norwegian "Fisherman Mark" of quality and goodness that is on every bottle of

Scott's Emulsion

assures you health-building, vitamin-bearing cod-liver oil in its purest form, pleasant to take, readily assimilated and transformed into strength.

The "Fisherman Mark" should be on every bottle of emulsion you buy.

Scott & Bowne, Bloomfield, N. J.

Newfoundlanders Abroad.

(H. F. SHORTS.)

In a recent issue of the Telegram I gave some particulars of the early life of Captain Richard Gosse in Newfoundland when prosecuting the cod-fishery at Labrador and the seal-fishery during the Spring, which received a warm appreciation from his old friends at Spaniard's Bay, and elsewhere, who well remember the great gales mentioned, and their early experiences. Capt. Gosse, who is now a millionaire, having made his fortune in the fishing industry, is now in British Columbia, expects to visit Newfoundland again in the not far distant future, and I bespeak for him a hearty welcome from all.

The past year has been exceedingly successful in packing salmon in British Columbia. They have put out of hand nearly twice the quantity they did during the year 1921, and prospects are bright for the future, with fairly good prices, and a world-wide demand for their product. The Fraser River, which flows into the Pacific, quite near the city of Vancouver, is said to be the greatest salmon river in the world. Not alone were salmon exceedingly plentiful there, but the river was the headquarters for the celebrated breed called "Sockeye" Salmon, which commands twice the value of other breeds that frequent the Pacific coast rivers. When the Grand Trunk Railway Company were laying their line down the side of the river about ten years ago, they had to blast the side of a hill to enable them to lay their rails. During this blasting they started an avalanche of rock that practically closed this river for salmon and which prevented them from reaching their usual spawning grounds. The salmon have never been so productive in the river since, and the Dominion authorities appointed a Royal Commission last year to make special enquiries on this subject.

FROM THE HISTORIC TOWN.

The Chairman of this Royal Commission is William Duff, Member of Parliament for Lunenburg, Nova Scotia, son of the late William Duff, Esq., merchant, and one time member of our House of Assembly, for Carbonear, and brother of Robert and John Duff, the enterprising business men of the above town, who succeeded their father in the old and well-known firm of Duff & Belmer. About twenty years ago Mr. Duff left his native town of Carbonear to seek his fortune, like so many of his countrymen, and settled down in Nova Scotia, and from all reports he has been very successful. He has made a name for himself as the spokesman on all fishery matters at Ottawa, and it is well known that every person expects that he will be appointed Minister of Marine and Fisheries at an early date in Ottawa. Mr. Duff's report on the Royal Commission given to the Canadian Government was that all of the common fishing operations should be suspended on the Fraser River for five years. This has created a storm of indignation, from not alone the salmon packers, but the many fishermen employed, and the subsidiary interests that are connected with this great industry in British Columbia.

DUFF VERSUS GOSSE.

During the month of December numerous meetings were held in Vancouver, and protests have been made, numerous signed, but instead of sending a large delegation to present these protests at Ottawa, they decided to leave all in the hands of one man, whom they considered best qualified to handle this weighty affair, for it must be known that the salmon industry on the Fraser River represents invested capital of Twenty Millions of Dollars. Mr. Robert C. Gosse, the eldest son of our old friend, Capt. Richard Gosse, was the man selected. It is a recognition of his ability and his thorough knowledge of the industry, and no greater compliment could be given any person than this appointment by the representatives of the principal industry of British Columbia. Mr. Robert Gosse was born in Spaniard's Bay in 1880, so that he is only forty-two years of age, but he is certainly proving himself a "chip off the old block," and we wish him every success in his present mission to Ottawa to fight these politicians on their own ground.

RUSE CONTRE RUSE.

Now comes the curious coincidence of two "Newfoundlanders Abroad," one whose birthplace was in Carbonear, as spokesman for the Canadian Government, endeavoring to make laws that will protect this fishing industry for future generations, and opposed to him is another Newfoundland, born in Spaniard's Bay, who is the spokesman for the vast financial investments and the employment of so many others. It is recognized by all that if the Fraser River is closed for the salmon fishing purposes for five years that it will put all the canneries, established on that river, out of business. They could not survive such a long period of inaction, with the cost of maintenance, and depreciation of their property which would make such demands on the capital of the companies. It is said that it was Mr. Robert Gosse's initiative, with several alternative proposals, that he believes will meet the

views of the Royal Commission to preserve this valuable run of fish from entire extinction, and at the same time give the canneries the opportunity to preserve their invested rights from what they call at the present moment, confiscation. It is indeed a battle royal between two of our out-there Newfoundlanders, and will show the stuff of which both are made.

Municipal Council.

WEEKLY MEETING.

The weekly meeting of the Municipal Council was held yesterday afternoon. Mayor Cook presided. Councillors Martin, Outerbridge, Collier, Ryan, Vinnicombe and Dowden were present.

After minutes of previous meeting were confirmed the following business was transacted.

A communication was read from the Deputy Colonial Secretary acknowledging receipt of Council's cheque for \$80.00 in favor of his Excellency the Governor in payment of rental account Bannerman Park for the year 1922.

Supt. Morris of the St. John's Light and Power Company in reply to Council's notification for removal of snow thrown up by the Street Sweeper along the car route, stated the work of levelling the snow to a uniform depth as required by the act was undertaken yesterday (Wednesday) morning.

This brought up again the question of the removal of snow from Water Street sidewalks, and it was pointed out that although notice had been served on the occupiers together with attention being called to same in the daily papers some residents still persisted in throwing the snow into the street. Orders were given the inspectors to ascertain the names of the persons violating the regulations so that legal proceedings may be taken.

Mr. John Deer, King's Bridge Rd. wrote re the unsanitary condition of that thoroughfare and asked that steps be taken to remedy the cause of complaint. The Sanitary Supervisor is to make enquiries into the matter.

Inspector General Hutchings called attention to the low pressure at the several hydrants on Harvey Road, which he understood was through some manipulation of the water for the purpose of increasing the pressure on the higher levels. This matter was referred to the City Engineer for investigation.

Councillor Ryan as per notice given at a previous meeting moved the following resolution with regard to the tax imposed on Theatrical, Moving Picture Shows, etc., viz:—

"BE IT RESOLVED by the St. John's Municipal Council in regular session convened this 4th day of January A.D. 1923, that the rate of taxation to be paid by such persons or companies shall be in the case of 'local persons or companies' be two per cent of the gross amount received at such performances, exhibition or 'amusement.'"

The resolution passed unanimously. As already referred to in previous Municipal proceedings the control and maintenance of Bowring Park came under the Council's jurisdiction on the first of the present month. The Mayor in commenting on the generosity of the donors, Bowring Bros. Ltd., stated the matter of ways and means for the upkeep of the Park was now one for the Council's consideration, and that provision would have to be made from the City's finances so that its present high standard of efficiency might be maintained. This will be provided for in the estimates of Council for the present year. The Mayor also stated he was of the opinion a Park Committee to consist of three members of the Council and three other citizens, one of the latter to be of the firm of Bowring Bros., Ltd., should be appointed to supervise and manage the affairs of the Park.

The Council was in accord with the suggestions of the Mayor, and it was decided to go fully into the matter at a special meeting.

Reports of City Engineer, Health Officer, etc., were tabled. Accounts presented were ordered paid after which the meeting adjourned.

Cleaning and pressing still attended to in the same reliable way by Hickey & Spurrell The Tailor, Water Street. Phone 574 and have your clothes attended to for the holiday season.—dec16, eod, it

Dwarfs With Mighty Muscles.

In Bolivia, on the high Andean Plateau, live a race of dwarfs with the chests of giants. These men are Bolivian Indians, and living as they do at a height of 12,000 to 14,000 feet above sea level, they have developed immense lung power to enable them to breathe properly in the rarefied air of these regions. But though so small they are enormously strong. Mr. A. V. L. Guise, in "Six Years in Bolivia," describes how he employed some hundreds of them to transport 500 tons of machinery over the passes of the Andes. He was amazed at their endurance. At extreme altitudes, where the slightest exertion brought on severe palpitation to ordinary lowlanders, these little men tramped along rough mountain trails for hours on end, carrying loads of one hundred pounds and more without apparent fatigue, or even discomfort.

Coming along Monday and Thursday to Dancing Class at S. U. F. Hall every Monday and Thursday. MAX COLTON. Jan. 10

The aim of the Marine Disasters Fund is to support children whose fathers have been lost at sea. For the Andes. He was amazed at their endurance. At extreme altitudes, where the slightest exertion brought on severe palpitation to ordinary lowlanders, these little men tramped along rough mountain trails for hours on end, carrying loads of one hundred pounds and more without apparent fatigue, or even discomfort.

5 ROSES and VERBENA Flours.

The first shipment for a few years of the above popular brands has just been received.

Crews Leave for Home.

SERIOUS OUTLOOK FOR HERRING FISHERY.

Yesterday afternoon the Deputy Minister of Customs received a message from the Sub-Collector at Woods' Island, Bay of Islands, stating that the crews of the seven vessels which got caught in the ice in the Bay had given up all hopes of getting them free before spring, and had left for their homes. Two of the vessels are at Middle Arm and the other five are

at Wood's Island. Some of the crews are loaded with many thousands of barrels of the season's catch, while the others are partly loaded. The vessels will not reach market before spring, and the loss to the people will be very great. The Canadian icebreaker Stanley, which was dispatched to Bay of Islands the latter part of December, failed to free the vessels returned to North Sydney on Jan. 1st.

A good dinner deserves a cigarette, a bad dinner deserves a bad dinner. Let your choice be CUB.

SLAUGHTER SALE

OF
Patent Medicines, Toilet Articles, Face Powders, Talcums, Creams, etc.

STAFFORD'S

DUCKWORTH STREET
(near Knowling's East End Branch).

Sale Commences to-morrow, January 4th.

Here is a list of some of the articles we offer at greatly reduced prices.

Colgate's Tooth Paste Price 32c. per pkg.
Colgate's Talcums (all odours). Price . . . 27c. per pkg.
Colgate's Cashmere Bouquet Soap, large \$1.00 per box.
Nyl's Face Cream. Price 28c. per pkg.
Evans' Throat Pastilles. Price 27c. per box.
Gin Pills. Price 40c. per box.
Ferrozone. Price 35c. per box.
