NO UNANIMOUS FEELING TO FAVOR BRIDGE PROJECT

The Chelsea Company's Proposal Considered, But Was Laid Over Till Today.

The County Council at its session yesterday afternoon was not prepared to comply with the request of the Chelsea Land Company in the matter of bridging the Thames at Adelaide street. More opposition arose to the proposed assistance of the company than was expected, and after a lengthy discussion the matter was laid over until today.

The council met shortly after 2 o'clock, Warden Grigg presiding, and after the reading of the minutes, reports were read from several committees and one communication also received.

The township of Metcalfe petitioned the county to pass a bylaw prohibiting pack peddlers in the county. The communication was filed.

RECEIVED REPORTS.

The educational committee made its first report of the session. Its recommendations were to print the reports of public school inspectors in the minutes, to accept the resignation of Mr. Henry Walker as trustee of Wardsville High School, and that the communication re grant to St. Marys Collegiate Institute be referred to a special committee. The report was adopted.

The first report of the jail committee was presented. The committee had inspected the jail and court house and found them well kept and clean. There were eighteen prisoners in the jail. Tenders for coal had been received as follows: Mann & Son, grate, egg and nut, $7; soft, $6. Chantler Bros., grate, egg and nut, $6 70; soft, $6 50. Heaman & Son, grate, egg and nut, $6 75; soft, $6 50. Webster, grate, egg, nut and soft, $6 75. It recommended the acceptance of Chantler Bros.' tender. Certain repairs were recommended to the jail and court house and also some minor changes.

The house of refuge committee, in their first report, stated that an inspection had been made of the institution, and that the general condition of the farm, stock and outbuildings was found satisfactory, but that the interior of the house and immediate surroundings could be kept in a more cleanly condition. The number of inmates was 87. Accounts for the year amounting to $1,455 03 had been ordered paid in April, and others amounting to $789 10 fon June 4. The tender of H. & C. Colerick for painting the house of refuge for $135 was recommended to be accepted. The only other tender was that of W. R. Thompson for $275. The committee also recommended that the interior of the main building be kalsomined and painted.

The engineer had been instructed to prepare specifications for a new roof on the main building to consist of British Columbia shingles, but no tenders had been received, and it was decided to slate the roof. The balance of the report was adopted, with this amendment, by resolution. The tender of W. J. Scott, to slate the roof for $800 was accepted.

It was moved by Councilor Elson, seconded by William L. Corbett, that as the report of the house of refuge committee in the January session of 1903 showed the allowance to Elizabeth Jones to be $80 per year, instead of $75, as intended, the treasurer be thereby instructed to continue the allowance at $75 per year, the same as allowed in 1902. The resolution was carried.

The clerk was instructed to notify the Southwestern Traction Company, that the solicitor's opinion was adverse to the county leasing any of the courthouse grounds for a railway station.

On motion of Councilors Elson and Jackson, the request of the Township of Nissouri re Thorndale bridge was referred to the board with instructions to report as to whether the Thorndale bridge can be considered a bridge in lieu of a townline bridge.

This was the outcome of the discussion of the previous day, the motions mentioned in yesterday's Advertiser as being introduced the day before, one to refuse the request consideration and the other to grant $2,000, being lost in favor of the above resolution.

THE CHELSEA BRIDGE PROJECT.

The board of road directors recommended that, in the matter of the request of the Chelsea Land Company, re a bridge at Adelaide street, the suggested bylaw be adopted providing it is approved by the county solicitor; also that this council contribute 25 per cent of cost price towards the erection of the proposed bridge.

To discuss this report the council went into committee of the whole, Councilor Corbett taking the chair.

There were no objections to the clause recommending the passage of a bylaw, but when it came to a consideration of assisting in the building of a bridge to the extent of 25 per cent, Councilor Bradley at once made a motion to strike out the clause. Councilor Piper spoke in favor of the clause and the former then defined his objections. It seemed peculiar to him that the committee should recommend a grant to a bridge which proposed to land on a rich company's farm, while Westminster had good bridge accommodation. Councilor Cousins pointed out that Westminster Township had agreed to open up a road to the bridge. The warden found objection to the clause not specifying "to the satisfaction of the county engineer." Councilor Roebottom stated that the recommendation was not unanimous with the committee, only they preferred to have the clause defeated in open council.

Councilor Gray pointed out that what was a benefit to the city was a benefit to the county, and these industries were of great value. To refuse to encourage them in this way seemed to him like standing in the way of progress. As soon as a private bridge became a public thoroughfare the county would share in the responsibility and he advocated the county's having control of the bridge.

Councilor McLeod opposed the grant on the ground that it would be impossible to close the Vauxnall bridge. He recognized the benefit the enterprise would be to the county, but held that the townships of London and Westminster should bear the public financial burdens. The present proposal only meant putting money into the landowners' pockets.

Councilor Elson had the bylaw read and then gave his opinion that the county would be glad to encourage the company and to see the city built up, but at present things were too uncertain. He then moved an amendment to the effect that the council felt there would be strong objection to closing the Vauxhall bridge and that at the present they could do no more than grant permission to bridge the river.

Councilor Neely felt that the situation was an embarassing one, in that they should like to assist the scheme, but had no guarantee the town would develop as pictured. Councilor Gray suggested that the report be laid on the table until today and that the solicitor be seen in the meantime.

This suggestion was acted upon, but before doing so the warden invited Mr. Stuart and Col. Gartshore to speak. The former corrected the idea that there was no guarantee. He said that the company had a paid-up capital of $25,000, and that if this were not enough, Col. Gartshore would be willing to put up any deposit. He also referred to the opening up of the road by Westminster township and their own intention that the highway should be perfect.

Col. Gartshore addressed the council briefly. While he admitted at once that the company's objects were mercenary, he explained their system of selling the property which meant a large sum of money being required to carry on the scheme for several years. At the same time he confined himself to strictly business reasons why the county should assist in the construction of the bridge, his arguments being clear and forcible. The report was then disposed of as mentioned above.

The council adjourned until 9 o'clock this morning.

His Holiness Unwell.

Venice, June 6.—The Gazette De Veniza, asserts that the Pope is suffering from intestinal inflammation, that he eats practically nothing and that his strength is diminishing. The paper adds: "Though there is no immediate danger, there will be room for apprehension unless an improvement is soon manifested."

AN EARLY DEBATE OF THE REPORT

Little Other Business Left for the House to Discuss.

SUPPLEMENTARY ESTIMATES

And Railway Subsidies Alone Remain to Be Considered—Third Reading of Bills.

[Special to The Advertiser.]

Toronto, June 5.—Today's session of the Legislature was a brief and uneventful one. It was evidently the calm before the storm of vituperation, invective, rant and bombast which will burst from the disappointed and disgruntled Opposition as soon as the Gamey commissioners' report is placed before them for discussion. There is little business of moment for the House to consider now save the railway resolutions and the supplementary estimates, and it is probable that by Tuesday the Opposition will be deep in the maelstrom of their own verbosity.

Adam Beck, M.P.P., continues to serve his constitutents' interests by remaining away from the House.

Mr. W. H. Taylor's bill respecting the Southwestern Traction Company passed the committee of the House without discussion.

Replying to Mr. Preston (Durham) the commissioner of crown lands said in the House that Samuel Johnston had been employed near Webbwood by the Government during two seasons, and he received $744 in all for his work.

THIRD READINGS.

Third readings were given to these bills:

Respecting the town of East Toronto—Mr. Richardson.

Respecting the township of Machar—Mr. Carr.

To confirm bylaw No. 713 of the township of Bertie—Mr. Gross.

To amend the Land Titles Act—Mr. Gibson.

LOAN COMPANIES.

Mr. Downey did not press for a return of copies of agreements issued by loan companies in the provinces, because of the promise of the Attorney-General that he was going to introduce a bill on Monday which he hoped would meet with the member for South Wellington's approval.

The following private bills passed the committee stage:

To confirm a certain bylaw and agreement of the Town of Niagara Falls.—Mr. Cross.

Respecting the Petrolea Rapid Railway Company.—Mr. Hanna.

Respecting the Toronto and Mimico Electric Railway and Light Company, Limited.—Mr. St. John.

Respecting the Guelph Railway Company, and to change the name of the company to that of "The Guelph Radial Railway Company."—Mr. Downey.

On motion of Mr. Stratton the House ratified orders-in-council placing the following institutions in schedule "A" of the charity aid act: The Royal Alexandra Hospital, Fergus; the Ross Memorial Hospital, Lindsay; the Cottage Hospital, Renfrew; the Loyal True Blue Orphanage, Picton. The House also approved of a grant of $4,000 to the House of Refuge, Lanark County, and $4,000 to the House of Refuge, Ontario County.

Two Government bills, Mr. Davis' municipal amendment act, of 1903, and Mr. Harcourt's to amend the separate schools act, were read a second time.

Mr. Whitney inquired of the Premier if the addresses by the counsel in the Gamey-Stratton case would be printed.

Mr. Ross replied that although it would mean considerable expense if there was to be a prolonged discussion over the commissioners' report, it would probably be necessary.

The House adjourned at 4 o'clock.

Erie to Move Offices.

Chicago, June 6. — Arrangements have been completed for the removal of the general offices of the freight department of the Erie Railroad from Cleveland to Chicago. The change will take place about June 15 and is said to presage an active campaign for a larger share of the Chicago east-bound traffic than has heretofore fallen to the Erie.

HAY FEVER UNKNOWN

Certain it is, and many years of careful experience are back of the statement, that hay fever, and kindred annoying and troublesome summer affections distressing to so many thousands all over the country, recurring as regularly as July and August, are absolutely unknown in the "Highlands of Ontario." Thousands of people go to Muskoka, Georgian Bay or the Lake of Bays every year for nothing else but to avoid hay fever, and find perfect immunity from the ailment, and many by going there regularly for a period of a few years are said to be permanently cured.

Hay fever booklet can be had free for the asking by applying to E. De la Hooke, Grand Trunk city ticket agent, corner Dundas and Richmond streets, London. 16-u

A GERMAN OPINION

Dr. Arendt Thinks Colonies Will Own Mother Country.

London, June 6. — Dr. Arendt, the leader of the bi-metallic group in the German Reichstag, has published an article in a London paper commenting on Mr. Chamberlain's proposals. He says if the proposals were adopted they will give the colonies a lever for making the mother country tributary to themselves. He believes that the fiscal consolidation of the British Empire would hasten the formation of a central European customs union, and does not think that it would greatly damage German trade.

PREDICTS A CIVIL WAR

A Chicago Professor's Ominous Warning.

Chicago, June 6. — "Respect for civil law and obligation alone can save this country from a civil war in the next generation." Dr. T. C. Chamberlain, former president of the University of Wisconsin, and now a professor in the University of Chicago, thus summed up the labor situation as seen in Chicago and throughout the country.

"Things are transpiring today in Chicago," he said, "which are causing citizens grave concern. I refer to the labor question and to the right of a man to labor where and when he pleases, and the right of a man to manage his business as he pleases."

PETROLEA.

Petrolea, June 5. — A very interesting event took place on Wednesday, June 3, in the First Baptist Church, Petrolea, when Miss May Cora, youngest daughter of Mr. and Mrs. Wm. Walker, Queen street, was united in marriage to Mr. J. Franklin Chapman, of Chicago, by Rev. L. Brown. The bride entered with her father, and was attended by Miss Gertie Armitage, of London. Little Elizabeth Jackson, dressed in white, preceded the party as flower-girl. Mr. Charles Chapman, of Seattle, Washington Territory, brother of the groom, acted as best man. After the impressive ceremony the party left the church, while Mendelssohn's March was played by Mrs. C. Rowles. The invited guests, about 25, immediate relatives and friends, proceeded to the home of the bride's parents, where the young couple received the congratulations of their friends, and where all partook of an excellent luncheon.

There is some talk of a third paper being started at Petrolea.

A Peerless Piano.

THE HEINTZMAN & CO. PIANO

AN ENVIABLE MUSICAL RECORD.

With the musical successes of Canada—and they have been many in recent years—runs simultaneously the success of the Heintzman & Co. Grand and Upright Pianos.

Sir Alexander Mackenzie, who has just returned to England, is most complimentary in his references to musical conditions in Canada. It will be remembered that in those remarkable Musical Festivals, held from the Atlantic to the Pacific, the Heintzman & Co. Piano was the exclusive choice of this great musician.

This tribute of praise but follows the praises that have come from the many other great artists who in recent years have found Canada a delightful spot for their musical tournees. Among the many who have eulogized this great Canadian-made piano—that this year celebrates its fiftieth jubilee—are the following:

SIR ALEXANDER MACKENZIE
