The reason as the first of the year the cattle have been coming in steadily and prices have been coming in steadily and prices have been up. but today there was a slight summe in the prices. The reason given for the fall in price is that there is an over-supply in the meat market of the cities, and also a shortness of accommodation in the boats for the old country. Some of the buyers have had to feed them. Today they are a little reticent about buying cattle.

The run today was 31 cars, consisting of 571 cattle, 46 sheep. \$5 hogs and 16 horses. The quality of the cattle was not at all up to the average. Only a few cattle on the market, and bought a large more hardened quite a bit since last week. H. B. Kennedy, of Peterboro, was on the market, and bought a large number of hogs at from \$5.25 to \$5.50.

The quality was good. Only a few fair to save and \$4 to \$4.75 for exes.
