

CARS CRASH HEAD-ON
MOTORMAN INJURED

Queer Accident on St. Thomas Street Car Lines.

[Special to The Advertiser.]
St. Thomas, March 19. — D. S. Treadwell, motorman on one of the city's municipal-owned depot street cars, had both legs broken at the ankles, and Motorman Hammill, of belt line car No. 62, had his face cut by broken glass, when the two cars collided on Talbot street this afternoon in front of the Noble biscuit works.

City Will Investigate.
A full investigation will be made by the city in an effort to place the responsibility for the accident. None of the passengers were injured, but all were badly frightened when the crash came.

To Put On Flesh and
Increase Weight

A PHYSICIAN'S ADVICE.

Most thin people eat from four to six pounds of good solid fat-mixing food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all about that fat-mixing food, the nature of it, and the way it is taken.

Thin folks stay thin because their powers of assimilation are defective. They just absorb enough of the food they eat to maintain life and a semblance of health and strength. Stuffing won't help them. A Sargol meal a day won't make them gain a single "stay-there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare the fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but it is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless, yet wonderfully effective. Nearly all rheumatism, flatulence, indigestion, and single pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back—adv.

QUIT MEAT WHEN
KIDNEYS BOTHERTake a Glass of Salts if Your
Back Hurts or Bladder
Troubles You.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, which everyone should take now and then to keep the kidneys clean and active and the blood pure thereby avoiding serious kidney complications. W. T. Strong, druggist, agent, London.

on Tomorrow.

[Canadian Press.]

Washington, March 19.—More stubborn than anything that has arisen to stir the tranquility of the Democratic majority since the party came into control of the National Government, is the opposition to President Wilson's plea for repeal of the toll exemption provision for American ships in the Panama Canal act.

CONVICTED LAWBREAKER
GIVEN GOVT. POSITION

Ottawa, March 19.—The story of another law-breaker appointed to office by the Borden Government and used by the Conservative organization in the party game was told in the Commons tonight, when the case of Ambrose Gray, an Alberta homestead inspector, was discussed. Gray, it was definitely declared by W. H. White, member for Victoria, was a convicted law-breaker.

When Mr. Borden took office Gray was rewarded for party services with a Government position just as Andrew Landry, convicted forger, was released from jail to take office under the Government. When the Alberta elections came on a year ago Mr. Gray resigned and ran as a Conservative candidate in Beaver Hills. Less than three weeks later, having been defeated, he was reappointed as Homestead Inspector and put at work in the very district where he had run as a party nominee, thus placing homesteaders at the mercy of a man whose displeasure they had incurred by rejecting him at the polls.

New York, March 20.—A London cable to the Tribune this morning says: Business was brisk in the cause of charity at Selfridge's yesterday, when one hundred and fifty leaders of London society were added to the ordinary staff of saleswomen. The charity sale was timed to begin at 11, but at 10:30 a.m. an automobile drove up to the main entrance with a peevish, who had come early in order to learn the intricacies of her department.

The Duchess of Rutland, Lady Diana Manners, Lady Violet Charteris, Countess of Althorpe, Lady Alexander, Dowager Marchioness of Tweeddale, Countess of Strathford, and Gertrude Lady Decies were among the saleswomen. All were unanimous in declaring, after their day's experience, that it had taught them a boundless admiration for the shop assistant.

New Liberal Leader
In Upper Chamber

[Special to The Advertiser.]
Ottawa, March 19. — Hon. Hewitt Bostock, of Kamloops, B. C., was unanimously chosen by the Liberal senators in caucus this afternoon to succeed Sir George Ross as Liberal leader in the upper chamber.

During the illness of Sir George, Senator Bostock was asked to take the temporary leadership, and his election today for the permanent post is popular and fitting. The new leader is well equipped by character, training and ability for the task. He is a good speaker, an able debater and a well-informed student of all public questions.

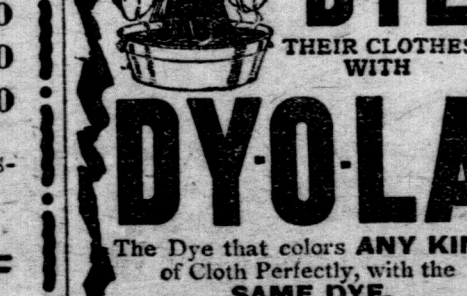

HOLSTEIN WANTS TO
WIPE OUT THE BAR

[Special to The Advertiser.]
Holstein, March 19.—Local Conservatives are dissatisfied with the temperance policy of their leader, Sir James Whitney, and that of the Tory party in general, and are voicing indignant protest in the form of a petition.

Local stalwarts of the Conservatives who want the total abolition of the bar, are at present bearing the paper around and the Tory vote in the village has been largely signed. Very few have refused to sign. The petition, which will be forwarded to Toronto in a few days, asks that a plebiscite vote to wipe out the bar in Ontario be taken.

Holstein, March 19.—The Commercial Hotel, the only hostelry here, was closed yesterday, and accommodation for the travelling public is lacking as a result. Wm. Loughheed, who has had the hotel rented from Proprietor F. Jordan, has given up the business and a successor has not been found.

WINDSOR MAN IS DEAD

Two Break a Window and Get
Freedom Down a Fire
Escape.

Narrowly escaping with his life from the fire which swept the five-story building of the Houghton-Detroit Elevator Company, Woodbridge street, Detroit, yesterday afternoon, Percy Short, son of P. H. Short, 24 Evergreen avenue, proprietor of the Maple Leaf Gum and Candy Company, here, wired his parents late yesterday afternoon that he was safe. News of the fire, following on the heels of the Toronto catastrophe, filled the family with misgivings for their son's safety. They waited in suspense, fearing the worst had happened, until the receipt of the telegram stating that he had escaped. Three other men, not able to make their escape from the burning building, perished in the flames.

Details regarding the young man's escape are meagre, the message merely assuring his parents of his safety and stating that an employee, James Scott, had perished, while another member of the staff, named in the missive as Wilson, had escaped by a scant margin.

The Maple Leaf Company has an American branch in the name of Wilson and Short on the upper floor of the building, and it was while in the offices of the concern that Short nearly lost his life. He left London on Monday to complete arrangements for removing a wrapping machine from the Detroit branch to this city and was in the building at the time of the outbreak of the fire, superintending packing of the machine in anticipation of shipping it to this city.

Two Bodies Recovered.

Two bodies have been recovered and a third body is believed to be in the ruins of the building, which was fire-swept. Two men were injured and two score of employees, including a number of young women, escaped from the blazing building. The property loss was estimated at \$100,000.

Known dead are: Walter Libby, Windsor; John Law, Newark, N. J. Both men were employed by Wilson and Short, who operated a machine shop on the fifth floor. Both bodies were badly burned. A man named Todd, who worked for the same company, is missing.

Went Back for Coat.

Libby, whose body was recovered, is believed to have lost his life through his going back for his overcoat after he started for the fire-escape. He had his overcoat on when found dead. He started for the escape with others when the alarm of fire was sounded. The flames broke out on the fourth floor. The fire got a sweeping start on the firemen and a second alarm was rung in soon after the first. There were six men on the fifth floor of the building when the blaze was discovered. Libby was among them. Two of them broke a window and made their escape down the fire-escape. The other four men started for the fire-escape but turned back. Three of them were seen later on the roof. It is believed these were the three whose bodies the firemen saw.

"The Inside of the Cup"

Winston Churchill's book is a pretty good picture of High Finance, etc., that we in the woods know nothing about. Of course, they like our money at 3 per cent. or less (note the millions in all the Banks without interest), and vote themselves salaries, etc., so as to keep down deficits, etc. Don't you think it's about time that the fellows outside, who really find the millions to loan to railroads, etc., had a chance? Reforming the world is a pretty big order, and most men who tackle the job get the axe, and from the fellows who are always ready for both the outside and inside of the cup. You start out to do any thing worth while, even pave a street, and see how quick the "good fellow" gets fusy. Commodore Vanderbilt said, when told that Westinghouse had invented a way of stopping trains by air, "the fools are not all dead." Even C. V. did not know all there was in wind. "Westinghouse's patent has saved more lives than Napoleon took, and added safety and comfort to every railroad train in the world"; that's a pretty full cup, as full as the cup of human kindness. People who don't know talk about there being no friendship in business—always hard, close and fast; but they have never been to one of our Birthday Parties, when the people come, as Mr. Hodder would say, "rich and poor, high and low, every body." And we want to tell you that you never know who your best friends are until something happens worth while. Certainly not the fellow who tells you your goods are lovely, and spends his money anywhere but at home (where he gets his living). If that chap lived in the first century he would be called a Pharisee. But about that friendship in business, we cannot thank you too much for all the nice things you said and did at the celebration; it makes it worth while to be in business for 33 years, to find that you have "played the game" so as to win and hold public confidence. We don't want to boast, but last Thursday's crowds, morning, afternoon and evening, were the best testimony this store has ever had for fair and square dealing. That day we gave over to being glad. Of course we sold goods—that's what a store is for—but that one day is our day to get even (in a way) for all the patronage of a whole year. We thank you.

Tuesday, the 17th, we did honor to St. Patrick, who is said to have been born in Glasgow. One gentleman said recently to the writer, that an Irishman "was a refined Scotchman." That definition is a proof that he, at least, was Irish. Incidentally, the same day, we made a showing of the swellest line of Millinery, Mantles, Coats, Suits, Silks, etc., etc., not forgetting Clothing for men and boys, that ever got "inside this cup." Come and see us. "Don't worry," we have the goods.

FARMERS ORGANIZE

To Put Produce into Homes at Cost
Price—Oppose Iron Bounties.

[Canadian Press.]
Toronto, March 19.—One hundred and fifty farmers met in Toronto today and took preliminary steps towards organizing the United Farmers of Ontario. This body is to be an eastern unit to correspond with such western bodies as the Grain Growers' Association and the United Farmers of Alberta. The gathering passed a resolution opposing iron and steel bounties or bonuses, and this resolution will be presented to Hon. R. L. Borden, premier of Canada, tomorrow morning by E. C. Drury, secretary of the Canadian Council of Agriculture.

DIED AT BELMONT

[Special to The Advertiser.]
Belmont, March 30.—Colin Campbell, a highly-respected resident of this village, died here this morning about 7 o'clock, after a lingering illness, aged 46 years. He suffered from diabetes for seven years, but has been able to be about most of the time.

Mr. Campbell was a son of the late house and moved to Belmont. He married Edith, only daughter of Louis Cooper, of Gladstone, who, with one son, survives. He also leaves two brothers, William, of Gladstone, and Daniel, of London, and one sister, Mrs. Duncan McCallum, of Gladstone. The funeral will be held on Monday, service at the house at 1 o'clock, and interment in Union Cemetery, Dorchester.
