Remember The California Fruit Market LARGEST ON KING. CORNER JARVIS AND KING-STREETS.

EMPHATIC AND RELIABLE PROOF OF THE GREAT MERITS OF The Owen Electric Belts AND WHAT THEY ARE DOING.

Electricity as Applied by the Owen Electric Belt is now recognized as the greatest boon offered to suffering humanity. It has done and will effect cures in seemingly hopeless cases where every other known means has failed. That is readily felt, it will cure:

Rheumatism, Liver and Kidney Troubles, Lost Manhood, Lumbago, Dyspepsia, Impotency, Lame Back, Nervous Diseases, Urinal Troubles, Etc.

AN OLD RESIDENT'S OPINION.

TORONTO, July 2nd, 1891. The Owen Electric Belt Co. DEAR SIR, -In reply to your request as to how my belt was doing, I will say I have been using it about four months and am so well pleased with it and what it has done for me that I would not part with it for ten times what it cost me. For over twenty years I had been a martyr to rheumatism, suffering at times the most excruciating pains, from which I could get but little relief, for doctors' medicines, pain killers, electric oils, etc., seemed to have no effect on me, and it was only when I got an Owen Belt that I felt on me, and it was only when I got an Owen Belt that I was most marvelous, removing the pain in a few days. I have been so for several months, for the Belt's action on me was most marvelous, removing the pain in a few days. I would have saved me many dollars as well as years of pain. However, I am thankful I got it when I did and rest assured I will not be without it. I am ordering another Belt for a sick friend of mine, feeling assured it is the only thing that will help him. I have been using it for Toronto for thirty years and am well known. If this letter is of any use to you may use it. H. SCHMIDT, 89 VANDERBILT-STREET.

A WELL-KNOWN R.R. MAN'S TESTIMONY. The Owen Electric Belt Co., Toronto, on the advice of his doctor, GEORGE W. BROWN, Esq., procured one of your No. 4 Electric Belts for a very severe attack of lumbago and neck pain, which he had been suffering with for several months, and after using the same for a few days he was able to get up and about, and to get around in a few days. For a short time the pain was all gone and he felt as well as he ever did. He has been using it for several months, and he has much pleasure in recommending it to the suffering. He will use it as long as he lives, and he will not be without it. If I could not get another, for one hundred dollars, yours truly, W. J. LAWSON, Canadian C.P.R. Co.

WE CHALLENGE THE WORLD To show an Electric Belt where the current is not completely as this. We can use the same belt on an infant or a child, and the number of belts have been in the market for five or ten years longer, but to-day there are more Owen Belts manufactured than all other makes combined, our Chicago factory alone being the largest of its kind in the world.

BEWARE OF IMITATIONS AND CHEAP BELTS Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by the Owen Electric Belt and Appliance Co. None genuine without it. Send for illustrated catalogue of information, testimonials, etc.

The Owen Electric Belt Co., 71 King-st. West TORONTO. GEORGE C. PATTERSON, Manager for Canada.

ALL LIVE BUSINESS MEN GIVE THEIR ORDERS FOR ELECTRO & STEREOTYPING, PORTRAITS, DESIGNS & ALL KINDS OF ADVERTISING CUTS FOR NEWS PAPERS OR OTHERWISE TO THE CENTRAL PRESS AGENCY, 412 & 44 MELINDA ST. TORONTO.

ELECTRIC POWER For all purposes. Electric Motors supplied. **TORONTO ELECTRICAL WORKS** 85 Adelaide-st. west, Toronto.

HERE IS A GOOD SITE

A Building Inspector's Most Desirable Place for a Rifle Range.

After spending a pleasant afternoon at Long Branch, one of The World's Young Men leisurely strolled along the Lake Shore road, and came to the site inspected by the military authorities in the spring, which by its slightness, so favorably impressed them as the very spot for a rifle range.

It is a farm of nearly 200 acres, extending from the Lake Shore-road to Lake Ontario, the exact site is easily picked out. It is only the space of one field south of the Grand Trunk Railway; it is immediately past the well-known grove of thickly-planted trees, the entrance to the farm, which is owned by Mr. Hancock Renwick of Queen-street west, has the old gate of the Horticultural Gardens, which were removed there when the new iron railings were adopted. The distance of this proposed site is 10 miles from the City Hall and five miles from the Harbour.

The World's Young Men received permission of the occupants of the farm to walk over the trim little estate. A good roadway, extending to the lake shore, divides it into equal parts. With the exception of a small orchard and cottage, the area is all clear. The property extends three-quarters of a mile to the lake, of which there is an uninterrupted view from the highest. There is an easy, gradual descent to the shore, and the ground is nearly as level as a cricket field. This is a great consideration in the choice of a rifle range, for several have been visited which would require a far more extensive and costly preparation of the ground to be made eligible for a rifle range.

As that would be the case with this Fort Credit site is the erection of batts. Only two things have been put against it—both of which are baseless. In the first place, it is said that the Toronto, Hamilton and Buffalo Railway will, if ever constructed, pass through Mr. Renwick's farm; and in the second place, that there is danger of someone being shot by any stray bullet. As to the first objection, it is replied that, although the promoters of the railway did originally propose such a course for the railway and thence a bridge across the Harbour Bay and on to the Exhibition Grounds, on the strenuous objection of the York County Council, who took no account of the cutting of Humber Bay in two, the track of the line was altered, and now it will go on to Mimico, not touching the proposed site, thence to Toronto Junction and thence to the City.

This disposal of the first objection. As to the second—that there is danger on the lake, The World's Young Men investigated this. No steamer approach within three miles of the shore at this spot, and the distance of these boats to and from Long Branch Park. The proposed site is within the borders of the county of Peel, and is too far westward to be in the line of any of the boats that are used for the purpose of carrying the public. In fact, the residents hereabouts say they never see a boat approach within, not a rifle shot, but a cannon shot, of the farm. Hence there is no ground for the alleged danger of stray shots. Identically it may be remarked that in England the authorities prefer that stray shots go into the sea than over the butte inland.

In reply to The World's Young Men, this project was syndicated; that Mr. Renwick is the sole owner, that he sold the land for \$300,000 in the spring of last year, but owing to a failure to comply with the conditions, on the advice of his solicitors, Messrs. Macpherson, Clarke & Jarvis, he recovered possession of the property, and though it has materially increased in value of increase in the value of land hereabouts. New Toronto and Mimico Proper—not far distant—and has augmented in price 100 per cent. during the same period.

From Mr. Renwick's farm there are views of Toronto and the Island in the distance; the headland at Long Branch Park, the asylum buildings at Mimico, the factories of New Toronto, and the great recommendation of the site is that it is dry enough and large enough and pleasant enough for the summer camp of either of our volunteer regiments. As a very short distance from the land, the most of the land, with deep water all around, where a wharf accessible by steamboats might easily be constructed for the landing of regimental stores.

As regards other means of access, there are two lanes almost close to the farm, at which platforms could be erected close to the Grand Trunk Railway. Then the Victoria and Lake Shore Electric Railway is now in course of construction, and this could easily be extended to the proposed site. Certain it is that within a couple of years the New Toronto and Mimico Proper, if not Fort Credit, the couple of miles between Mimico and Mr. Renwick's farm, and the good level road and the line could be laid much more cheaply than in the vicinity of the Harbour. It is only a few rods from a suburban station on the Grand Trunk.

The World came away quite as favorably impressed with the eligibility of the site as a rifle range as had the military men in the spring. Now that it has been positively decided that the Garrison Common ranges will be abandoned, it behoves the Parks and Gardens Committee, in conjunction with the military authorities, to make their final choice.

Great Care Exercised. The Bank of England does not now so finely balanced that the clerk, by pressing a knob under his desk, can close the outer doors instantly, and they cannot be opened again except by special process. This is done to prevent the daring and ingenious unemployes of the great metropolis from robbing the famous institution. The bulletin departments of this and other great English banking establishments are nightly subjected in several feet of water by the action of the machinery.

The fact that such great care is exercised daily in banking institutions, in order to prevent robbery and wrecking, should remind every man and woman that they have a treasure to guard of greater value than all the gold contained in the Bank of England and other kindred institutions, the most precious of all the gifts that God can bestow. Yet men and women go on from day to day heedless of loss which find an entrance through unguarded channels. These losses, unless promptly arrested and turned out, will wreck this great and precious treasure, life. To-day these losses are numerous, treacherous, daring and unrelenting. They respect neither age or social position, and are ever on the alert to effect an entrance and prosecute their terrible design.

In Canada those which are most to be dreaded to-day are nervousness, headaches, sleeplessness, languidness, worn-out feelings, despondency, morbidness, and paralysis. Dreadful goes to think of and contend with; but more hideous still is the consumption, their work, when they bring on, as is often the result, peris and insanity.

To guard properly the great treasure, life, we require at hand an agent as quick and effective in its action as is the machinery used for closing the great outer doors of the Bank of England.

The great acknowledged agent of modern times is Pain's Colic Compound, which, if used when the first slight symptoms are felt, will effectually close the doors against disease and suffering. Should you have neglected the preliminary symptoms, and allowed any of the above-mentioned dreaded foes to weaken you or lay you low there is no power or remedy on earth that can so completely restore you to perfect health and strength as Pain's Colic Compound. Its sales are now enormous in every section of the continent, and all are deeply impressed with its great remedial properties.

"Certain hard words, made into pills, Simply to swell the doctor's bills," are not what constitute Dr. Pierce's Pleasant Purgative Pills. They are tiny, sugar-coated, purely vegetable pills, as pleasant as confectionery to the taste, and acting upon the stomach and liver gently but effectually, and as naturally as Nature herself, for sick headaches, indigestion, biliousness, constipation and all the resulting diseases to laxative equal to them has ever been discovered.
