fits existence, must be brief there b ten facts to communicate, or nonce? The Province, are considered, it is perhaps fortu- ceived on Mouday last, which completes the Spring and in due time produced several ment in our own community. When society owes its origin to a sentiment long that no emigrants have yet presented second volume of this popular periodical. It very fine apples. In the latter part of Au look at the infinense amount of property the communative, that congruits from the Age prospects, during this winter, of recently taining matter—the poetry is excellent. The is as usual fined with instructive and enterprise it disconnected in January. That congruits from the Age prospects, during this winter, of recently taining matter—the poetry is excellent. The which we have are the fruit of second bloss difficulties of our sisses Colonies, the doors not description of settlers in this country. The is as usual fined with instructive and enterprise is assual fined with instru diagdons of the monarchy. We merely slit to help to pay for his farm and render it. British Consul at Havana, who was recently finde to the well known fact that the Scottish more valuable, by employing him to conduct arrested at Baracoa and sent to the former system of farming has been praised, over all a branch of the public road to his own door, place for irial, has been liberated and placed the world for its superiority; and, accord. Although the Societys great object at pre. on board a steamer for Nassau. It appears in the Custom House — Mr. ingly, has been strended, all the world over sent is to turn the attention of Scottish emittant his object in going thither was to dethe suggested to a few now present, the institution of a Society which should have for their funds hereafter admit, their wish is to tector of the African race residing in the ist places of the stream of emigration from the country in question. We were aware the benefits of a sound education, by helping in the country in question. We were aware the benefits of a sound education, by helping influences of the slaves in that island, making some nice discoveries in the Customs of the slaves in that island, making some nice discoveries in the Customs of the slaves in that island. Department, as will be seen by the following new, for the purpose of affording shelter to paragraph from the Kingston Chronicle:

"Responsible Government is working the country in question. We were aware the benefits of a sound education by helping in the country in question. The awful discloss the country is stated that a great alteration has been that island, making some nice discoveries in the Customs commends the erection of buildings in Syd-Department, as will be seen by the following new, for the purpose of affording shelter to paragraph from the Kingston Chronicle:

"Responsible Government is working the country of their funds hereafter admit, their wish is to tector of the African race residing in the is a sound of the country in question. We were aware the benefits of a sound education, by helping that other Associations had been organized them to procure competent teachers and promoting the realized range, with kindred objects in all the British North American Colonies. Should the means ever be at their command of their energies being waskened by diffusion, and that we might assist materially in promoting the common end—the advantation as special will be a great alteration has been beautifully in Canada. The awful disclosures the Inspector General will have to make, one of these days, of the dark doings the Collectors in the free ports of Canada West, will be a great derin-Chief on this station, sailed for Bermuda on Friday last. Thomas, Jamaica, Balize, Honduras, Should the means ever be at their command, of their energies being waskened by diffusion and that we might assist materially in newly afriving within their bounds, in obspective promoting the common end—the advantation in the country, the beautifully in Canada. The awful disclosures have been in the route of the English West India steamers. Many of the smaller routes have been entirely cut off, and others reduced. West, will be a great derin-Chief on this station, sailed for Bermuda nation, and there have a great derin-Chief on this station and others reduced. West, will be a great derin-Chief on this station, sailed for Bermuda national nation in all the British North American Colonies. Should the means ever be at their command of the Collectors in the free ports of Canada west, will be a great derin-Chief on this station, sailed for Bermuda national nations. The steamer from England now proceeds to with the collectors in the free ports of Canada and Station and the Collectors in the free ports of Canada and Station nation and the work of the Collectors in the free ports of Canada and S promoting the common end—the advantationing a supply of suitable seeds and farmgeous settlement of our extensive forest,—by
ing implements. For the present, however,
bringing our powers to bear on the emigration from a single country, with the character and habits of whose people we might be
supposed to be best acquainted; and who
would be likely to repose greater confidence
in a Highland Society than in a more mixed
and comprehensive association. A public
and of present favorable eligible lands upon their arrival within this
in the scheme, took place here on the 17th County."
