From 10 inches by 3 inches

— TO —

93 inches by 23 inches.

Giving perfect satisfaction.

USED BY

Hunt Bros. Electric Light Works, London.
Royal Electric Light Co., Montreal.
Windsor & Sandwich Electric R. R. Co., Windsor.

LINK BELTING

Gives the advantage of a belt with the positive motion of gears. No centers too short for its use.

A paper manufacturer said to us: "I am using 88 in. to drive my lower floor, including my paper machine. Its positive motion, never varying, produces a ton of paper more every day. Every slip of the belt, or stoppage, means a loss of 100 feet of paper, and this never occurs now."

SPECIALY ADAPTED FOR CONVEYING AND ELEVATING ALL KINDS OF MATERIAL.
