it urgently to fill vessel space Wednesday, notwithstanding consider-able strength in outside markets, Manitoha wheat became quite weak, and although 71c was paid in the morning for 1 hard, no buyors could be found in the afternoon even at 70c. Later in the days a morning to the country of the country o tater in the day a sale was made at 69 1-2c. On Thursday with advancing outside markets, and a small but urgent demand for wheat on spot Fort William, Te was again offered for 1 hard there. Yesterday the market was steady and sales were made of spot wheat at 71c on basis, of No. 1 hard. Wheat for delivery first half October brings 69c basis 1 hard, with a spread of 3c between 1 hard and 1 northern and 2 hard Only about 20 per cent. of the wheat arriving at Fort William is grading 1 hard. Out of 146 cars arrived the first three days of this week, 30 inspected No. 1 hard, 40 No. 2 hard, 73 No. 1 northern and 5 No. 1 spring.

FLOUR-Quotations are the same as last week. Prices are \$2.05 for patent, \$1.85 for strong bakers, \$1.45 for second bakers and \$1.15 for XXXX per sack of 98 lbs.

MILLFEED—Feed continues very scarce, but in a week or so the supply will be more liberal. We quote bran at \$11, and shorts at \$13 per ton in bulk. Large lots nominal at 50c per ton less.

GROUND FIED-Ground teed is 'not-ed at \$27 to \$28 per ton us to qual-ity for outs and scarce.

OATS—A few loads of new oats have been marketed here by farmers this week and were taken at 30c per bushel of 34 lbs. Some buyers, however, were only offering 28c, and the market is expected to decline as soon as offerings become liberal. Two or as offerings become liberal. Two or three cars were also sold on track here at 30c. One car of old oats was reported sold at 38c, and another car at 35c.

BARLEY-A few loads of new barlev were offered by farmers and were taken at 40c per bushel of 48 lbs, but this price would not be paid for any quantity, and the tendency is lower. One car of new barloy sold on track here at 30c, and another car of fine quality was offered at 40c.

BUTTER-Creamery-The market is firm. Some of the factories are holding out for 20c, and are very firm in their views. Buyers have been offering 1-2c higher this week, in someases, for choice goods, 19c having been paid, and a few choice lots were reported at 191-2c, though some large purchases of western were reported at 181-2c.

BUTTER-Dairy-The market is firm at about the same prices as last week. Round lots of good average quality bring 13 1-2c here, and a shade higher has been paid for good lots. Receipts fairly liberal.

CHEESE-Since the filling up of the local market with Ontarlo cheese, the Manitoba factories have been auxious to sell, but buyers do not seem willing to operate. With the trade well suppiled with castern goods, they do not care to load up now with Manitoba cheese. The situation is therefore, against the factories but they can only blame themselves for not having sold when prices were offered above a parity with eastern markets. About 8 3-4 to 9c has been offered for Manitoba cheese, pelivered here, and up to 9 1-2c for spall sizes. The higher price for small sizes is owing to the fact that the eastern cheese is all ilargo sizes.

EGGS—Candled stock is selling here at 15 to 16c, and dealers are paying 13 1-2 to 14c here for receipts. Markot firm

DRESSED MEATS - Pork is very scarce. We quote beef at it to 5 1-2c, as to quality. Mutton easy at 7 to 8c; lamb, 9c; hogs, 6 1-2 to 7c for country dressed and 7 to 7 1-2c for city dressed; veal, 7 to 8 1-2c.

DRESSED POULTRY-Supplies of dressed poultry continue inadequate to he emind, and dealers report that present quotations are likely to prevail until the cold weather arrives and puts prices of a winter basis. Quo'ations are as follows: Chte-kens 55 to 60c per pair live; spring chickens 25 to 50c per pair as to quality and size; turkeys 10 to 11c follows: per pound live weight; ducks, 65 to 70c per pair; gesse, no demand.

GAME-Mallard ducks bring 25 to 30c per pair, canvass backs, 35 to 40c, and small varieties 15 to 20c per pair.

VEGETABLES-Most variaties reported plentical and of good quality. Potatoes are likely to be found scarce when consumers begin to lay in their winter sapplies the heavy rains of early July and the prevalence of potato bugs in some localities having somebugs he some localities having some-what injured the crop. One large grower reports that he has only enough for theel. Quotations are as follows: Potatoes 25 to 35c per bushel; cabbage, 25 to 40c per dozen; cauliflower, 50 to 75c per dozen bunches; celery, 20 to 25c per dozen; cucumbers, 10c per dozen; corn, sweet, 8 to 10c per dozen ears; native corn 8 to 10c per dozen ears; native corn, 5 to 6c; onions 75c to \$1 per bushel; green tomatoes, 40c per bushel. Lo-ent ripe tomatoes, 2 to 3c lb; mush-rooms 10 to 121-2c per lb. The pickl-ing factories are paying 11-2c per pound for caudiflower and 21-4c for small cucumbers.

HIDES - Sheepskins are 5 cents higher. We quote hides. No. 1 71-2c: No 2, 61-2c: kip 61-2 to 71-2c: calf. 7c to 9c; deacon skins, 15 to 25c each; sheepskins and lambskins 20 to 35c; horse hides 75c to \$1.75 each; colts 25c each. In the country, hides, 7c and 6c.

WOOL-We quote 8 1-2 to 9c for unwashed Manitoba fleece.

TALLOW-No. 1, 81-2c: No. 2, 21-2

to 3c.

SENECA ROOT—The market is firm but there is really nothing doing, and but there is really nothing doing, and the ecason may be considered wound up. The quantity of root offered this year has been about the small-est on record One dealer said that he had bought as much in a week or two in past years as has been handled by all the dealers combined during the eatire season. In fact there has been practically no root marketed this year, as the Indians and others would not gather it at the prices offered. The total crop is estimated at only 40,000 lbs., and this includes sevfrom last year. Prices are nominally le higher at 19 to 20c per lb.

HAY—New hay is offering at \$5 to

\$6 per ton for baled on track here and loose \$5 to \$6 per ton on the street. Demand quiet

LIVE STOCK.

CATTLE. The heavy movement of cattle continued throughout this neek and as a result some of the districts where the stock is raised are gettthe some dealers that the supply is going to be short this zear and in

consequence prices are hardening. Export eattle are quoted in Winnipeg at 3 to 3 1-4c and butcher's 2 1-2 to

Sc. SHEEP—The movement is very light and prices are easier at last weeks quotation of 3 1-2c for good to prime animals and 4 1-1e for lambs.

HORSES—A carloud of western horses sold in Winnipez on Wednesday at prices averaging \$66 apiece. Budness has been brisk all week and our figures of last week hold good, as fol-lows Good, smooth horses of ter to eleven hundred pounds weight \$125, to \$175 each, bronchos, \$25 to \$50 un-

HOGS-Offerings are very light All coming are taken by butchers at 5 to 5 1-1c off cars here. Packers are not getting any.

A BIG CROP.

F. W. Thompson, manager of the Ogilvie Milfing Co., Winnipeg, returned the other day from prosecuting further investigations as to the result of the crops. Mr. Thompson has now travelled about 500 miles through the principal wheat sections, during which he made a core personal investigation regarding the crops. He tigation regarding the crops. He said to a Commercial representative yesterday that he was now convinced that his recent remarks regarding the crop would be more than realized. He now estimated that the wheat crop of Manitoba would reach 40,000,000 bushels. Throwing out of the calculation entirely the strip in South-ern Manitoba which had suffered from drouth, he believed that the rost of the country would return 37 to 38 million bushels of wheat. Everywhere he found that the actual yield, as shown by the threshing returns, was far exceeding the previous estimates. Where 20 bushels had been counted on they were getting 25 and even 30 bushels per acre. As an instance, one of the largest farmers west of Neepawa had threshed out an average of 52 bushels of wheat per acre. Mr. Thempon showed a bundle of letters received from their agents at country received in nearly all of which the centre. points, in nearly all of which the statepoints, in nearly all of which the state-ment was made that the yield of wheat was turning out much better than had been estimated, the usual range being 3 to 5 bushels ahead of previous estimates. Mr. Thompson exid that about 85 per cent of the stacking was done before yesterday's rain. The quality of the wheat crop he says, is good. he ears, is good.

BRITISH COLUMBIA PLUMS.

A car lot of British Columbia plums was sold by The Macpherson Fruit Co on Monday, at nuction. The plums were in very bad condition; in fact so had that a quantity were worthless. They sold all the way from 5 to 30 cents per box. The car came by freight, and may have been

some time in transit.

Small lots of British Columbia plums are arriving by express at frequent intervals. Those coming lately from the interior districts have arrivod in better condition than earlier receipts from the coast region. The best have sold here at 75 cents per zod

Though the harvest is well advanced there is still a demand-for farm help. Farmers are anxious to rush the work to make up for the delay cause! by the wet weather. A further excursion parts of farm laborers is expected from the east this week.
