Danish Intensifier.

Waterdown, 23rd April, 1875.

Messrs. Ewing & Co.

GENTLEMEN,—Please allow me to call the attention of my brother photographers to your Danish Intensifier. I have been using it for some time and find it all that can be required, giving a beautiful tint to the negative, without destroying the lights and shadows, as is so often done by other Intensifiers, for weak negatives and copies it certainly has no equal.

PRICE 50c. BOTTLE.

If you want a fine mat for a picture, Ewing & Co. have nearly every size and style.

Photographic Varnishes.

We keep constantly on hand all the Varnishes of the leading makers, but can highly recommend our own preparation. They are cheaper, and purchasers will find that, unlike many makers, both in Canada and the States, who give only *six ounce* bottles, all our varnishes are put up in *full eight ounce* bottles.
