STRONG TONE IN **GRAIN MARKETS**

Good Buying For Export Reported - Corn Crop Be-

low Normal.

CHICAGO, Aug. 23.—All board of trade speculative markets advanced today, wheat 2c to 2½c; corn, ½c to 1; cots, let to 1½c, and provisions, from 7½c to 50c.

Oats enjoyed the best market of the day, the volume of trade, while only fairly large, being equal to that in wheat and corn combined. At the opening profit taking caused a dip in prices, but the recession started buying by commission houses and the demand increased as prices advanced. Export houses were silent about business, but reports had it that the seah. d and exporters were picking up what they could. One of the best known speculators in the market was also reported on the buying side.

The local wheat market followed the lead of Minneapolis. After an opening dip on scattered liquidation prices bulged on the small stocks at Minneapolis, the demand from millers and reports that threshing is being delayed by rains in the northwest.

Rains over the corn belt depressed the market for that cereal at the opening, but at the decline local leaders became buyers of all the leading options on the bellef that the crop will be well below normal.

Provisions, while not active, were firm

Provisions, while not active, were firm in sympathy with hogs and the advance in corn. There was a fair investment demand and pork was bought on the assumption that Europe soon will be needing it.

MONTREAL GRAIN MARKET.

MONTREAL, Aug. 29.—Owing to the limited supply of oats available on spot and for shipment from the west a strong feeling prevails in the market and prices and for shipment from the west a strong feeling prevails in the market and prices have scored a further advance of 2c per bushel. The demand for car lots is fair, and sales of No. 2 C.W. were made at 64c to 65c per bushel ex-store. There was some enquiry over the cable, but as bids were lower than of late no business was done. In flour the feeling is firm under a good demand and an active trade is doing. Millfeed is scarce and strong with a good demand. Rolled oats fairly active. Baled hay in good demand and prices are teading toward a higher level. The butter market is strong and prices in the country scored a further advance of '½c to '%c per pound, compared with last week. Sales of finest creamery butter were made at Cowans-ville at 29½c, and St. Hyacinthe at 28c. Receipts for the week were 14,668 packages, against 10,224 a year ago. The cheese market is strong, but at the higher prices the demand from English buyers has eased. Receipts for the week were 58,640 boxes, compared with 26,232 the same week last year. Eggs active and firm. Receipts for the week were 6617 cases, against 4201 a year ago. Stocks: Wheat 3,608,562, corn 94,913, oats 309,573, barley 90,894, rye 22,604, flax 97,125, flour 26,043 sacks.

WINNIPEG GRAIN MARKET.

WINNIPEG GRAIN MARKET.

WINNIPEG, Aug. 29.—Winnipeg wheat opened %c lower to %c higher. Oats and flax were unchanged. Trading was fairly active during the first hour of business and prices strengthened in sympathy with American markets. It was stated that Morgan & Co., New York bankers, had agreed to pay exporters for wheat sold to certain European countries, and this was a factor in stiffening values, being aided by short covering over the week-end. Closing prices were %c to %c higher.

The cash demand was quieter for wheat and prices were steady. The movement of wheat is gradually increasing, and the market generally is showing the effect of hedging.

MINNEAPOLIS GRAIN MARKET.

MINNEAPOLIS, Aug. 29.—Wheat—Sept., \$1.10 %: Dec., \$1,12% to \$1.12%: No. 1 hard, \$1.20%; No. 1 northern. \$1.12% to \$1.18%; No. 2 do., \$1.08% to \$1.16%. Corn—No. 3 yellow. 76c to 77c. Oats—No. 2 white, 36c to 46½c. Flour and bran—Unchanged.
