DODGE WINS STAKE RACE IN FAST TIME AT LAUREL

Jim Gaffney's Two-Year-Old Gallops Away From Opponents in Handicap.

WASHINGTON, D.C., Oct. 16.—That two-year-olds at this season of the year have a big advantage in the weights over their old opponents was made evident to the 7500 racegoers who braved a raw, drizzling rain and saw Dodge, the bay colt by Jim Gaffney, gallop home the winner of the Prince George Handicap, worth $1850, at the Laurel track this afternoon.

This colt, while in Canada, beat out youngsters of his own age carrying 126 pounds. In the race today he carried 98 pounds, which was seven pounds above weight for age. Despite this he sped thruout the mile and easily ran the mile course in 1.44 2-5 fast time for the track, as it was deep in heavy mud and at least five seconds slow.

While Dodge ran a brilliant race and richly deserved the round of applause that greeted him on his return to the scales, he would not have won so easily and might have been beaten had not Jockey McCaney pulled up Addie M. at the half-mile pole just when she was racing like a passenger engine in pursuit of a freight locomotive.

The success of Spur over Sprint in the second race was a surprise to James Butler, the colt's owner. Neither Mr. Butler nor his trainer, R. C. Benson, thought Spur would race well enough in the deep going to win. Spur and Sprint had the struggle between them after moving away from the barrier in slow fashion.

R. C. Benson will retire as the trainer of Mr. Butler's horses at the end of the racing meeting at Laurel.

SASKATOON GAVE WARM WELCOME

Three Thousand Residents at Station to Meet C. N. R. Train.

MAKING FAST TIME

Party Passed Thru Edmonton Yesterday on Way to Coast.

By a Staff Reporter.

EDMONTON, Alta., Oct. 17.—The Canadian Northern parliamentary special train passed thru here this morning on its way to the Pacific coast. The train stopped yesterday at Regina, Saskatoon and North Battleford.

At Regina the parliamentarians and press men visited the famous field farm where threshing was in progress. The sheaves were taken directly from the wagon and the grain emptied into an enormous granary. This farm is said to have porduced the second largest yield of wheat per acre of any farm on this continent.

At Saskatoon fully three thousand people were assembled at the station to welcome the train. The visitors were taken in automobiles about the city and inspected the new University of Saskatchewan. This university tho only five years old has nearly five hundred students. It is planned on a truly magnificent scale owning 1333 acres overlooking the Saskatchewan River and with provision for future extensions in the way of buildings, which will enable it when completed to care for 20,000 students. The main building is of stone and quite handsome in finish and design.

A number of residences for members of the faculty and dormitories for the students have already been erected and a school of agriculture is carrying on experimental farming on a large scale.

Saskatoon has greatly grown and improved during the past five years. A number of streets with handsome residences are now to be observed across the river from the main part of the town. Five years ago when the corner stone of the university building was laid this district was unbroken prairie. A similar measure of growth and improvement was also observed in North Battleford which now, by means of a large sign fronting the railway station, proclaims itself to be the fifth largest city in Saskatchewan.

Constant sunshine and warm weather has accompanied the party all along its way from Quebec and Toronto to Edmonton. All thru Saskatchewan so far as the parliamentary visitors could observe, the wheat had been cut, but the greater portion of it is stooked and waiting for the threshers to come around. At Winnipeg it was stated that while a great quantity of wheat was arriving every day for insection, a considerable proportion of it was of a low grade, and this fact has given unusual vehemence this season to the long-standing demand of the western grain growers for free access to the American market.

The excellent roadbed, the smooth running of the train and the good time made by one locomotive with a train of sixteen heavy cars, have elicited favorable comment from all on board. The trip thruout has been a pleasant one and all the party are well.
