

BUTTER

WE WANT every pound of Fresh Dairy Butter that Manitoba can produce from now on. We will allow the highest price (quality considered) that can be made by any Wholesale Commission House in the trade here. We have a big daily consumption to supply in filling orders for customers in this city, and also lumber and railway construction camps north, south, east and west of this big centre. We also have a special advantage over all other commission houses, by having a large demand for our own well-known meats; and customers at country points give us the preference, owing to the fact of our being able to fill complete orders for Butter, Cheese, Eggs and Meats. We can sell your consignments promptly, as we give this department special attention.

Railway and Traffic Matters.

It is alleged that the Canadian Northern Railway will build a large extension of the Gilbert River branch this year, with the intention of making this route the main line through to the coast, instead of the northern route via Swan River and Pelly.

A mass meeting of farmers was held last week at Beaton for the purpose of considering the railway extension in that district. It was decided to send a delegation to the Canadian Northern Railway to secure if possible the extension of the Canadian Northern through that region.

G. H. Shaw, general traffic manager of the Canadian Northern, has announced that that railway will be put into effect a revised selling freight tariff providing for a reduction of 7½ per cent on general merchandise between all stations on the Canadian Northern line.

A survey party will shortly commence work laying out a route for a new line of railway from the town of Metchosin, Alberta, to the International boundary. This survey is in connection with the Calgary and Edmonton Railway, which is applying to the Dominion parliament for a revision of its charter to build such a road. It is supposed that the new line will connect at the boundary with the Canadian Northern Railway.

The Canadian Northern announces the following reduced rates for seeding and grass seeds for seeding purposes. Shipments of wheat, oats, barley, flax seed and grass seeds will be accepted for shipment from date to and including May 31, 1902 for seeding purposes at one-half tariff rate, minimum charge for any single shipment, 35¢. Forwarding agents will require shippers to furnish certificates stating that shipments are to be used for seeding purposes. This reduction will not apply on shipments billed to Winnipeg, St. Boniface, Port Arthur, West Port William or Port William or when destined to points on other companies' lines.

The Canadian Northern Railway has adopted a new time table. The new schedule includes a passenger service to Carman over the St. Charles extension and also a service to Port Arthur and intermediate points. Trains on the Carman branch leave Winnipeg at 8:45 o'clock on Tuesday and Friday, returning same day leaving Carman at 14 o'clock and arriving at Winnipeg at 18 o'clock. Trains for Port Arthur leave Winnipeg at 8:30 o'clock, Monday, Wednesday and Friday, for points on the Ontario and Rainy River sections, and return from these points, Tuesday, Thursday and Saturday, arriving at Winnipeg at 17:30 o'clock. Trains also run to Gimli on the South extension. A weekly service to Port Arthur and intermediate points has also been added. A reduction of 15 cents on single fare and 25 cents on the round trip has been made between the city and Carman.

The Western Agricultural and Am Association will hold their annual summer fair at Brandon from July 2 to August 1, next.

By a vote of 6 to 5 Winnipeg city council decided to accept without reservation the offer of Andrew Carnegie to build a \$75,000 free library in Winnipeg. The city is obliged to equip and maintain the library.

A representative of the Doukhobors, sect of German-American Baptists, resembling in some ways the Mennonites, and who are quite numerous in several of the States of the American Union, is now in Western Canada looking for land upon which to settle a colony of his brethren. They prefer Northern Alberta, and will first examine that country.

For the seven months of the current fiscal year, ending January 31 last, the aggregate trade of Canada was \$253,737,739, an increase of \$18,716,000 over the same time last year. The imports were \$114,710,000, an increase of \$104,800,074 for the same time last year. The exports were \$139,027,739, an increase of \$18,131,233, a gain of \$18,500,907 last year, or a decrease of \$1,576,000. For the month of January alone, the imports amounted to \$15,055,052, as against \$15,265,762 last year. The duty thereon was \$2,455,810, a gain of \$250,046. The exports of domestic products amounted to \$13,298,734, as against \$12,440 last year.
