NO CHANGE IN PULP WOOD POLICY.

Whatever may happen to the reciprocity agreement the effect on the Ontario pulp wood market will be inappreciable. The government thoroly realizes the importance of the pulp industry and its retention for the province, and it is also realized that the continuity of a policy is quite as important as the policy itself. Continuity leads to stability, and stability invites confidence, and confidence is the basis of prosperity. In Ontario prosperity for the pulp industry will rest undisturbed on the continuity of the present policy.

RECIPROCITY IN THE BRITISH PARLIAMENT.

Mr. Asquith has easily scored in the first skirmish of the new parliamentary campaign. Contrary to report, the Laborites and Nationalists were be held under the auspices of the Upsolid in their support and gave him a majority of over the hundred. Nothing evidently will be allowed to stand between the coalition majority and the constitutional issue. This is sound political judgment, for the earlier the opposing parties get into grigs the better for the country. The time has coine to decide once and finally whether a partisan majority in the house of lords, either reformed or unreformed, is to continue rejecting

Most treatments for the blood and for skin eruptions are miserably slow in their results, and besides, many of them are polsonous. Stuart's Calcium Wafers contain no poison or drug of any kind; they are absolutely harmless, and yet do work which cannot fail to surprise you.

Don't go around with a humiliating, disgusting mass of pimples and blackheads or on your face. A face covered over with these disgusting things makes people turn away from you, and breeds fallure in your life work. Stop it. Read what an lowa man said when he woke up one morning and found he had a new face:

"By George, I never saw anything like it. There I've been for three years trying to get rid of pimples and blackheads, and guess I used everything under the sun. I used your Calcium Wafers for just seven days. This morning every blessed pimple is gone and I can't find a blackhead. I could write you a volume of thanks. I am so grateful to you.

Con.). moved the second reading of his bill to amend the School Act in the direction of stiffening the conditions of the nomination proceedings. Hon. Dr. Pyne, minister of education, said that while the present regulations allowed some latitude, it would be unwise to change them as suggested owing to the difficulties in many rural school districts of securing ratepayers who were willing to take the position of school trustees.

Mr. Bradburn, in deference to Hon. Dr. Pyne's views, withdrew his bill to amend the Municipal Act, which elicited a few words of commendation from Hon. W. J. Hanna.

The provincial secretary said that Mr. Bradburn's motion contained about half a dozen suggestions which might be considered in the municipal committee. The clause which provided that some officer other than the mayor should be qualified to sign debenture coupons was worthy of consideration, as it certainly was a big task to sign innumerable debenture coupons several times a year.
