UNUSUAL OPPORTUNITIES

The market for the Porcupine stocks will offer unusual opportunities for making profits. Porcupine is yet in its infancy, and during the constructive stage many stocks will be thrown over by those who do not know

their intrinsic value. I have my own man on the ground. I have a know-

ledge of all the good properties, and my clients can rely on the facts I issue.

PORCUPINE GOLD REEFS, under development, will make one of the camp's big mines. I recommend these shares while they are to be had cheap. Get my Porcupine Map free, and write for any information on any of the

PORCUPINE CITY TOWNSITE

Chosen because of its natural advantages as an ideal townsite focation, has by its steady, healthy growth more than justified the good judgment of its founders. The establishment of the government townsite on land immediately adjoining, followed by the building of the T. & N. O. Railroad, with its main station in the government townsite, has added materially to Porcupine City's original qualifications as an exceptionally good site for a permanent business

NEWYORK STOCK BROKER RETURNS ENTRUSIASTIC

Will Be the World's Wonder Gold Mining Camp.

Frederick Morris, broker of Exchange Place, New York, returned from an inspection of Porcupine on Satura and was seen by The World at the in an entirely new spot to the south of the main lead. With this shaft down 100 feet the angle formed by the straking doue last summer will be comvisited all the big mining camps on

"I am doubtful," he said, "whether islined in the underground exploration any gold camp in the world will excel work?"

any gold camp in the world will excel there has been much prospecting done. Shafts were put down 200 feet in ed. The showings are samply imposses in a surgely support to place the machinery houses is a nurse.

"I went over the Dome, Dome Extension and the Preston. There are stringers of vein on the Preston that make your mouth water. Before seeing Porcupine, I took 50,000 shares of the Dome Extension, and I have now arranged to take 30,000 more.

The strike of the veins across the Dome are about east and west with a bulge of quartz on the surface that covers nearly four acres. From this elaborate outcropping the name they will be held until their wives names so that elaborate outcropping the name them put in their wives' names so that they will be held until they return bandsome profits."

(From Our Man Up North.)—Readers Our Man Up North.)—Thomas Township claims, Nos. 3086 and 3087, owned of the roads from Matheson to the Alfred G. Minter of California, a Frederickhouse River. They anticipate locating somewhere in that section on farm lands.

In the winter time the roads are most excellent and should be good in the dry time of summer, as the country is rolling in character with good drainage thru the small creeks that lead to the Frederickhouse River. There are places, however, where no doubt ditching and corduroying would help ma-

If the country were cleared, so as to make drainage more rapid, with the roads turnpiked, except in the rainy times, traveling should be fairly good. The main road leading to the camp, in use last year, came from Kelso. During the first part of the summer. the track was dry. During the latter mineralized and carries strongly in part of August till freeze-up time, ex- sulphides, some of the pieces showing cessive traveling mixed in with the rain, caused a very bad condition. The Kelso experience could soon be avoided, where any considerable extent of the country is settled, by the government encouraging the farmers in road building thru substantial road grants. The best advice is for those who anticipate making their homes in the north on farming lands, to come up on the vein for a distance of 10 much later date, the geologists contest of the north of Porcu-

BEAVER SHIPMENT
