Word About Educator Boots and Real Foot Comfort for Men

The Educator Way is Nature's Way

Many of the ills and discomforts of mankind are due to the violation or ignorance of nature's law, and this is particularly true in regard to the feet-those much-used and much-abused extremities. If you would avoid or allay foot troubles, wear Educator Shoes. Educator Shoes are so made that the foot rests naturally, without cramping of the toes or bones of the foot. In walking or standing, the foot is in a natural position, and so foot comfort is assured.

Take a Tracing of Your Sole

Spread a piece of paper on the floor and run a pencil around your unshod foot pressed upon it. Then place over the tracing one of the boots you are wearing. This little test will show you whether or not you are giving your feet a fair opportunity to perform their supremely important functions in comfort and health.

> A FIRST-AID FOR ABUSED F EET IS TO BE FOUND IN THE FAMOUS RICE and HUTC HINS' EDUCATOR SHOE.

A contrast in bone positions, which means everything to the working efficiency of the foot, is shown in the accompanying cut of a foot in the average boot, and of another that enjoys the natural freedom and comfort of an Educator.

We carry a full line of Educator shoes in stock. Come in and find out what real comfort means.

The Educator in fine vici kid, blucher cut, neat perforated toecap, leather sole and low heel. Widths AA to EE. Sizes 51/2 to 11. Price, \$12.00.
