

THE CANADIAN LAND AND FRUIT COMPANY, LIMITED.

AN ORANGE GROVE FOUR YEARS OLD MEANS AN INDEPENDENCY FOR LIFE

The promises made by the Company will be carried out in every detail. Our Company's lands are fruit lands, a sandy loam soil, which is necessary for all citrus fruits. Best of expert fruit growers pronounce these lands to be the very best for oranges, lemons, grapes and small fruits. We intend to have every purchaser perfectly satisfied with their land. We have numerous cables direct from the property asking for land which they have selected. The following letter is just to hand which speaks for itself:

THE CANADA CUBA LAND AND FRUIT CO., LIMITED,
106 King Street West, Toronto, Canada.

GENTLEMEN:—Having made a thorough inspection of your property at Ocean Beach I find it entirely as represented. I have travelled through Bolivia, Chili, Argentina, England and Canada, but have not found any soil that will surpass that of Ocean Beach in any shape or form. The soil consists of a rich sandy loam with a good subsoil at from one to three feet from the surface, and I am sure that any one in search of ground for farming purposes, fruit growing or tobacco culture can easily find suitable land of good quality for his purpose. There is very little bush land, much of it—in fact most of it—being ready nearly for the plow.

Yours very truly, GEO. FOX.

Numerous letters are here from purchasers who express themselves pleased with their location and land. Call and see reports.

These Lands can be Bought at \$20 per acre for a Short Period Only.

CALL FOR FULL INFORMATION WHICH IS CHEERFULLY GIVEN.

HEAD OFFICE, 106 KING STREET WEST,

TORONTO.
GEO. F. DAVIS, Managing Director

LIFE A MISERY OR BURDEN THEN 'TIS KIND TO KILL

Cambridge Doctor Joins Others in
Argument Against Certain Pro-
longation of Life.

Philadelphia, Jan. 5.—Dr. Charles J. Norton of Cambridge has joined forces with Miss Annie S. Hall of Cincinnati and with Mrs. Maude Ballington Booth in their campaign for the killing off of the hopelessly insane, hopelessly diseased and victims of accident. His views are expressed in a letter written to Miss Hall, and made public here to-day.

Dr. Norton was formerly professor of literature at Harvard. He was a friend of Longfellow and Lowell, and with them made the famous translation of the "Divine Comedy." He heads the letter "An appeal to reason as well as compassion," addressed to Miss Hall, and writes:

"The principle that it is a duty to prolong every human life as long as possible, at whatever cost, has hitherto been generally accepted. Its main support has been the doctrine of the sacredness of human life.

Should End Suffering.
"The doctrine and the practice have both been pressed too far. There is no ground to hold every human life as inviolably sacred, and to preserve it at whatever cost, results in the individual, or to others. On the contrary there are cases to which every reasonable consideration urges that the life should be put. Setting aside all doubtful cases, no right thinking man would hesitate to give a dose of laudanum sufficient to end the suffering of an individual, or to the victim of an accident from the torturing effects of which recovery was impossible, however many hours of misery might be added to conscious life by stimulants or surgical operations.

WELCOME WORDS
TO WOMEN.

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive the advice of a physician of over forty years' experience in the diseases of women. Every letter has the most careful consideration and is regarded as a personal consultation. Many sensitively modest women write fully to Dr. Pierce, and he writes back in the most confidential manner, without an examination. Dr. Pierce holds that these distasteful examinations are generally needless, and that women, except in rare cases, should submit to them.

Dr. Pierce's treatment cures in the privacy of your home. His "Favorite Prescription" has cured hundreds of thousands of bad cases. It is the only medicine of its kind that is the product of a regularly graduated physician. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't take it. Don't take it. Write to Dr. R. V. Pierce, N. Y., take his advice and be cured.

AN ARTISTIC CALENDAR. For Richness, Beauty and Artistic Merit the Malt-Nutrite Calendar for 1906 Outstrips All Others.

The art calendar for 1906 issued by the Anheuser-Busch Brewing Association is an unquestionable triumph of artistic genius. It is composed of five panels, each 24 x 10 inches in size, representing the four seasons, the extra panel being a calendar of the year. The panels are lithographed in 12 colors, picked out with gold, and are bound together with silken cord. The subjects, from the brush of Maud Humphrey, the celebrated artist, are idealized female figures, hand-painted in the chaste delicacy and feeling which characterize Miss Humphrey's work. Surrounding the central figures are descriptive border designs from the brush of C. A. Elshington, a pupil of Mueha. Paris, the greatest living decorative artist. These are representative of this great artist, and in common with all his productions are indeed a symphony of color harmonies.

VICTIM OF CANNIBALS.

Liverpool, Jan. 5.—The steamer Olanda, which arrived here to-day, brought a horrible story of cannibalism in Nigeria, of which Dr. Stewart of the Southern Nigerian Government was the victim.

Artificial Limbs.

The firm of Authors & Cox, artificial limb and truss makers of Toronto, have been looking over the past year's record that a valuable asset has been added to their business—not only a large increase in orders and output, but a more extensive and varied range of confidence and good-will tendered them by their patients for careful attention and solid comfort.

Carriage in Cradle.

New York, Jan. 5.—When Antonio Castiglione, the seven-year-old son of a baker, living in East 11th-street, dropped a cradle which he had been playing with in his father's shop to-day, there was a loud explosion. A carriage of large calibre had been fitted to the cradle and exploded when it dropped to the floor.

Very special abnormal low rates from Chicago to New Orleans, one-way second-class, good in tourist cars—\$15. Very low abnormal round trip first-class tickets for twenty-one days. Liberal stop-over arrangements from Chicago—\$15.50.

Note the dates, Jan. 15, Feb. 6 and 20. A lot of other cheap rates. Ask your agent or write G. B. Wylie, T.P.A., 100 R.R. 210, Elliffville, Buffalo, N.Y.

BUSY AT THE BUILDINGS COBALT INTERESTS BRITISH

Normal Teachers Want Higher Sal-
aries—Request for Bible
in Public Schools.

Cobalt is creating some interest in England. Hon. Col. Matheson has received a cable from Baron Rothschild which should have a most important bearing on the mining development of the new district in Ontario.

Want Bible in Schools.

A deputation of the Sunday School Association, consisting of Rev. Dr. Courtney, Principal Scott, H. L. Thompson, F. C. Jarvis and J. A. Jackson, waited upon Hon. Dr. Pyne yesterday regarding the reading of the Bible in the public schools. In reply to them sympathy, but could not act on their own responsibility. This was, however, a good time to agitate as changes were likely to be made in the near future.

Whole Lot of Letters.

Col. Delamere postmaster at the parliament buildings, in a report just issued shows that his department handled 200 tons of mail matter in 1905, and 210 in 1906. There were 10,729 registered letters received, and 3827 mailed. This shows an immense amount of business transacted at the parliament buildings yesterday after an illness of three weeks.

A Mountain of Solid Iron.

At Durango, Mexico, is to be seen a mountain of solid iron having an estimated value of 200 millions of dollars. That is one of the big things of Mexico. The world's greatest pyramid, the finest and most ancient ruins, the largest tree and the greatest bell are all found in the shadows of these giants among mountains. Colima, Popocatepetl and Ixtaccihuatl. Here is quaint and novel scenery at all points, odd customs and strange stories, a winter climate that is ideal; the land of fruit and flowers, the land which scientists say contains in its mountains the vast store of countless generations to come.

Wood's Peppermint Cure.

The Great English Remedy. A positive cure for all forms of Croup, Whooping Cough, Sore Throat, Hoarseness, Asthma, Bronchitis, Hay Fever, Eczema, all of which lead to Consumption, Indigestion, Nervousness, and all other ailments. Sold by all druggists or mailed in plain packages on receipt of price. Write for Sample. The Wood Medicine Co., Windsor, Ontario.

NEW YEAR'S DAY IN CUBA.

A Visit to a Pineapple Plantation,
as Written by Maud Benson.

To the northerner there is something fascinating in the cultivation of tropical fruits in greenhouse or conservatory, but place that same person in sunny Cuba, and he becomes an enthusiast.

A Pineapple Plantation.

WHIPPED AROUND SHAFT.

NEW LICENSE BOARD.

WINDSOR, Jan. 5.—An entirely new board of license commissioners for Windsor has been appointed by Dr. Reame, consisting of Dr. H. R. Casgrain, G. B. White and S. K. Peck.

THE TERRIBLE PANGS
OF DYSPESIA
CAN BE CURED

To be dyspeptic is to be miserable, hopeless, confused and depressed in mind, forgetful, irresolute, drowsy, languid and useless.

Constitution, headache, heartburn, sour stomach, distress after eating, belching of wind, flatulence, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic.

Dyspepsia is a disease that in one way or another renders nearly every other disease, and the only way to get rid of it is to tone up the system, live, breathe and bleed. This will be quickly done by the use of

BURDOCK
BLOOD BITTERS

It regulates the stomach, stimulates the secretion of the saliva and gastric juice to facilitate digestion, removes acidity, purifies the blood, and tones up the entire system.

Mrs. M. A. McNeill, Brook Village, N.S., writes: "Last winter I was very thin and was fast losing flesh owing to the run-down state of my system. I suffered from dyspepsia, loss of appetite and bad blood. I tried everything I could get but to no purpose. I finally started to use Burdock Blood Bitters, and from the first day I felt the good effects of the medicine and am strong and well again. I can eat anything now without any ill effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."
