YORK COUNTY CROPS MAKE GREAT GROWTH

Eastern Counties Report Fine Yields of Hay-General News Items.

TORONTO JUNCTION, July 19 .-About 11 a.m. to-day the horses of one of the Robert Simpson Co.'s delivery wagons took fright at the work car of the Toronto Suburban Railway on King-street, opposite No. 2 fire hall. One of the whipple trees broke and the driver, William McKeag, was thrown to the ground, and tho the wagon passed over him he was not touched by the wheels and escaped with a rew scratches. The horses bolted and rang along King and Carlton-streets, where they were stopped by the wagon striking a telegraph pole near the C.P.R. tracks. The wagon was badly smashed and the

orses were cut about the fore legs. William Switzer, a stonecutter on the new Bank of British North America, had a valuable silver watch stolen while at work this afternoon. He had placed his vest, containing the watch and chain, on some lumber nearby and a short time afterwards, on going to see what time it was, found the watch had disappeared. The chain had been clipped and part of it still remained in his vest. Chief of Police Flintoff was immediately notified and a description of the watch given him, but so far the thief has not been discovered. The watch was valued at \$30.

The electric light town superintendent, James Hardy, who received injuries on the pole on which Lineman Mc-Gowan was killed a few days later, has now left the General Hospital and returned to his home in the Junction, but has not yet recovered sufficiently

to resume his duties.

In the council chamber of the town hall to-day Judge Morgan heard the appeal of the Toronto Suburban Railway against the assessment of their property in Weston. This property was formerly assessed at \$6000 per mile. but at last court of revision in Weston it was reduced to \$6000 per 1 1-4 miles, within the village limits. To-day it was further reduced to \$5000 per 1 1-4 miles, within the village Ilmits.

NORTH TORONTO, July 19 .- The report in this morning's World re the honora discussion at the school board meeting istrar. of the advisability of establishing a high school in town has caused considerable comment in town. Few expressed themselves as antagonistic towards the idea, but stated that the

ARE YOU YOUR **BROTHER'S KEEPER?**

"You church people should mind your own business." This is a remark unthinking men sometimes make. It is Cain's old question, "Am I my brother's keeper?" put in another form. Christians are commanded by God to protect and preserve the moral and spiritual interests of their fellowmen and "they are" just minding their own business when they strive to banish every bar from the grand old Township of York. daughters of deceased, the grandsons town first needed more public school accommodation. One solution of the problem would be the building of a 4 or 6-roomed public school in Bedford Park, which is needed and which will require to be done next year. This would relieve Eglinton school and render vacant two rooms in the latter which could be utilized for high school purposes.

The World interviewed several large ratepayers in connection with the movement, and their replies are: Ex-Mayor J. S. Davis said: "The esablishment of a high school in town is the best move towards the town's progress that can be suggested." Ex-Councillor James Pears said: "I did not study the matter to any extent, but considering everything, North Toronto should be in a position to open up a high school. If villages in the County of York with 700 inhabitants can successfully maintain a high school, North Toronto with over 3000 inhabitants should. Editor World: As I have heard of no effort having been made to make easier to remove the immense crowd which forms in Dufferin-street after the fireworks, I beg to offer the fol-lowing suggestion which, I am convinced, would very much relieve the congestion which invariably takes

At present the crowd accumulates at the corner where the cars enter Dufferin-street from the loop. Passengers for all the car routes are almost inextricably wedged together, and as King, Queen or other car turns the corner a most dangerous rush is made to fill it by those who are waiting to go by that route. The only wonder is that more bad accidents do not occur. To obviate this terrible struggle and confusion I would suggest that immediately above the entrance from the loop, separated by the dis-tance of a motor and trailer, poles ten

feet high be erected, crossed at the top with a sign, such as is used on the street cars. The first one, "King," the second, "Queen;" the third, "Baththe second, "Queen;" the third, "Bath-urst;" the fourth, "Dovercourt." The crowd would therefore be broken up into four, which would greatly relieve the congestion, as the passengers would make for the sign where their car stopped. The cars would fill eas-ily and be got away with little diffi-culty, and the necessity for the string of men done away with.
