Birmingham, England, Sept. 7.—The Trades Union Congress resumed its sessions to-day, with President Stevens in the chair. The latter, in his annual address, said the engineers' strike was an instance of one of the best organized and most powerful combinations in the world being in the throes of a great struggle with a powerful combination of capital. It was certain, he added, that the struggle would be prolonged and that the engineers would have to appeal for help to the trades unionists throughout the country. That help, the President continued, must be given, for under no circumstances could they allow the engineers to be defeated. [Great cheering.]

The delegates then unanimously and euthusiastically adopted a special resolution, pledging moral and financial aid to the striking engineers.

Mr. Benjamin Pickard, M.P., President of the Miners' Federation of Great Britain, in supporting the motion, said that all trades unionists should tender cight-hour notices and "sink or swim" with the engineers.

Fast Line Centractor Says All Arrange ments are Progressing.

Paris, Sept. 7.—The Gaulois to-day prints an interview with Prince Bismarck, in which he is quoted as having expressed fear that the efforts made at Peterhof were so much wasted time, What was required, the ex-Chancellor is said to have added, was a serious, active agreement, with a well-defined program and much clear sightedness and tenacity to achieve a result whereby the pretensions of Great Britain could be stayed. London, Sept. 7.—Mr. Petersen emphatically denies the statement in which John Torrance of the Dominion Line is quoted as saying that Petersen, Tate & Company's fast Canadian steamship line project is dead, owing to the fact that the company has been unable to finance it. Mr. Petersen assured the Associated Press that the organization necessary to carry out the new steamship service is progressing rapidly. "It is absolutely certain that Germany not succeed in attaining this end, and might regret having harassed England she might regret having harassed England too much."

Prince Bismarck admitted that the time was propitious for the snatching of Egypt and the Suez Canal from England, but said he did not believe that Frenchmen have any passionate interest in that question, adding: "Perhaps they are right to wait for us Germans to become still more deeply involved in our foreign policy, for now we have neither leadership nor principles—nothing whatever. Everyone is groping about and the treasures of influence I labored to accumulate are being profitlessly Equandered."

Worthy of Notice—To-Day's Program.

It was Germania Day at the Exhibition; a day celebrated by the reception of bodies of delegates from the various German Societies of Canada and the United States by the directorate. The threatening haze overhead all day frightened a great number and precluded what otherwise would have been a large attendance. Everything is now at its best. The dog show started Monday and yesterday saw the cut flower and fruit exhibit opened, and all machinery, implements and processes of manufacture in full operation. The judging was confined to the Shropshires, South downs, Merinos and Dorset-horn sheep, and the completion of the judging of the horse and cattle classes. The crowd was much ingrer at night. Hon. J. Israel Tarte, M. P., will be at the big show to-day.

The Directors' Lunckson.

The invited guests at yesterday's luncher of the directors were: W. C. Edwards, M.P. for Russell; Senator Ferguson, Prince Edward County; Mr. Samuel Nordheimer, German Consul; Mr. W. E. Churchill, editor of The Weedsport Republican, together with the judges and committee of the Dog Show, and the Dairy and Creamery Association.

Would Like Less of the Circus.

After the usual preliminary proceedings,

After the usual preliminary proceedings, President Withrow called upon Mr. W. C. Edwards, M.P. for Russel, one of the oldest exhibitors at the Exhibition. After congratulating the directors on the splendid exhibition, he said that he thought they were all agreed that one of the best means of promoting agriculture in this country is through the instrumentality of the Toronto Exhibition, but he would feel better satisfied if it was more of an agricultural show and less of the circus, but he supposed the good of the show would counterbalance the evil. Notwithstanding the difference of opinion on this matter, he felt satisfied that for many years Toronto must hold a first place in this country, for the reason that she is the premier city of this province, and hoped the city and the Expectation of the city and the city and

An Educational Trip.

Senator Ferguson, on being called upon, thanked the directors for the invitation to be present, and said that a trip to the Industrial Fair, by a Prince Edward Islander, took the form of an educational trip. While the people of his Island are good consumers of products from Ontario, there is very little interchange of commodities, which is highly desirable. He always bought largely in Toronto himself when in Toronto at Fair time, and one manufacturer had told him that his firm had sold 150 binders on the island. He was of opinion that the Dominion Government could help them by establishing a cold storage system for the shipping of their fish, one of their principal industries. He hoped to see in the near future a greater interchange of commodities between Ontario and Prince Edward Island.

Called it Dessert. Mr. J. Caven, M.L.A. for Prince Edward County, after extending the usual congratulations, said he thought the circus part of the show was something like a dessert to a meal, but while many of the farmers might imagine that if the circus part was dispensed with, they would have the money used for that purpose devoted to enlarging the prizes, the speaker felt this dessert is a benefit to the farmers after their hard work.

It Advertises Canada. Prof. Robertson of the Dominion Experimental Farm said that he considered the Industrial Fair the very best advertising medium that could be procured, as it spoke in goods, not in words, and the Province would become better known as a consequence. He further said that he was permitted by his Minister to say that while a good deal had been done for the dairying industry, more would be done in the future, and also more for the live stock business. Short addresses were also made by Mr. D. Derbyshire, Mr. J. McIntyre, Q.C., ex-Mayor of Kingston, and Major W. E. Churchill.

High Praise for the Dog Show. The Dog Show Committee had luncheon in the small dining room, where Mr. G. H. Gcoderham presided. Among the guests present were: F F Dole, New Haven, Ct.; James Mortimer and C H Mason, New York; J Cary Curr, Louisville; H C Bates, T A Carson, C Y Ford, Kingston, Ont.; James Lindsay, Montreal; A Caldwell, Philadelphia; F S Stedman, Peterboro; H C Sweetman, A A McDonald and J G Kent.
