Wednesday Evening, May 18.

On lower cables, seasonable seeding weather in the Northwest, excellent growing weather in the southwest and large deliverles in the west the bears had things their own way on the Chicago wheat market today. In the opinion of many traders the foreign demand has been discounted by prespects are for an immense crop in Canada and the United States this season. Under these conditions May wheat declinated by the cap of the chicago board. July 2%c, September 1%c and becember 1%c.

At Liverpool May and July wheat fell 3d. Wednesday Evening, May 18. At Liverpool May and July wheat fell 3d

AT OSGOODE HALL.

At Toronto the receipts of Ontario wheat continue pretty free, with not very much doing in the way of export. Prices were lower to-day on the Board of Trade, No. 2 red being quoted around \$1.05 at the close, spring at about \$1.02 and goose around \$1.01. No. 1 Manitoba hard remains at about \$1.45 at Toronto. On the street there were some deliveries of red at \$1.11 to \$1.14.

\$1.11 to \$1.14.

(forn was bearish in sentiment to-day because of a reported failing off in the export demand, and also as a result of the bright crop outlook. At Chicago corn futures declined %c for the day, with losses of %d to %d at Liverpool.

At Chicago provisions were irregular today. Early in the session large hog receipts caused weakness, but the continued buying from various quarters brought about strength, and pork closed 10c to 12c higher for the day, lard 3c to 5c higher and ribs 5c higher.

Lefter is said to be offering September wheat in order to break prices.

Receipts of wheat at Minneapolis and Du'uth to-day were 604 cars, against 421 the same day last year. Primary receipts of wheat to-day were 595,000 bushels, against 511,000 bushels the same day last year. Shipments 588,000 bushels, against 517,000 bushels.

The Uphoisterers' Strike.

The uphoisterers on strike say they no idea of giving in at present. They have secured proofs that one American was brought over and put to work under contract and they intend to rest their case on this one instance. The evidence has been forwarded to Ottawa.

As to the statement of the T. Eaton Company that they have not refused employment to those who will comply with their regulations, the men allege that the union will not sanction men working under those regulations and that the company will not modify them. So the breach remains,

Stocks of wheat at Fort William and Port Arthur total 784,393 bushels, against 782,170 bushels a week ago and 2,045,325 bushels a year ago.

Beerbohm estimates Europe's weekly requirements of wheat until July 1 at 6,800,000 bushels.

Exports at New York to-day: Flour 106 parrels and 7041 sacks, wheat 101,512 bush. Receipts of hogs at chief western points to-day were 121,800, against 79,800 the same day last year. Live stock receipts at Chicago to-day: Cattle 17,500, hogs 57,000.

A Method of Preserving Milk.

Serious damage is said to threaten the dairy interests of Great Britain in the growing imports of milk into England from Normandy. These imports, which in December last amounted to 1200 gallons daily, have been made possible by the discovery of a tincture secured from a common French herb, one drop of which will prevent all fermentation in a quart of milk for six days. The secret of the preparation has been purchased by a French firm, which has started a milk treating establishment near the docks at Cherbourg. This firm collects milk from all parts of the region, sterilizes it and ships it to British markets. An effort is now being made to form, with the help of English dairymen, a limited hability company to engage in this traffic.

also considerable liquidation by holders. General feeling is very bearish. Provisions—Have been irregular, but closed steady, Hog receipts were enormous, which caused a lower range of prices for products at the opening, but there seemed to be large buying orders in the markets, and prices raillied quickly. Hog products have absorbed some of the bull speculative fever, and the market is likely to be very active for a time.

New York Gessip.

Henry-A, King & Co., 12 King-street east, received the following despatch to-day from New York:

The stock market to-day was more professional in character, and there were numerous trading fluctuations. The absence of important news relating to war or otherwise left the speculation free to the play of the whims of the room. Early strength was general, and the Grangers and People's Gas rose over 1 per cent. Rubber stocks were strong on the recent financial statement, the preferred scoring a gain of over 5 per cent, and reacting only moderately. In the afternoon the market was influenced adversely by a break of 3½ per cent, from the opening in Sugar, in which pool liquidation appeared to have removed important support. Tobacco also declined over 2 per cent, on sales, based on knowledge that the negotiations for a Plug Tobacco and Cigaret Union mad been suspended. People's das in the afternoon reacted sharply on realization. The bear faction became aggressive in the last heur, and succeeded in carrying prices 1 to 14, suspended. People's 'das in Le after, reacted sharply on realization. The faction became aggressive in the last hand succeeded in carrying prices 1 to per cent, below the highest points of morning. The market closed dull a heavy, Government bonds were practical unchanged. Rallway bonds dull and regular.

New York, May 18.—The Evening Post's financial cable from London says:

There have been no more political scare speeches, and so the stock markets here were better to-day. Americans closed at about the best. Spanish fours were exceptionally flat, being sold from Madrid. Grand Trunk was booming on good traffic reports. Tinto copper was strong.

The Paris Bourse and Berlin markets were good.
