# FIRE PREVENTION PROCLAMATION

### Issued By Mayor C. R. Somerville, London

WHEREAS next to the care of those who are offering their lives on the front line of battle, the conservation of all our energies and substance is our most important problem; AND WHEREAS the saving of human life, thrift, and the prevention of loss of property through destruction by fire, is an aid which everyone should give willingly to the community at large;

AND WHEREAS the reckless and impoverishing fire waste that confronts the people of our Province is appalling;

contronts the people of our Province is appairing;
THEREFORE, believing that the loss can be minimized only by
awakening in the public mind a universal watchfulness against
carelessness, accumulation of rubbish and unsanitary conditions, and Because of this great need, and in order to arouse a sense of watchfulness, carefulness and cleanliness, and to create a greater personal responsibility in reducing the number of preventable fires; We have thought fit by, and with the advice of the Council of the Corporation of the City of London, to name, and do hereby name WEDNESDAY, the 9TH DAY OF OCTOBER, 1918, as FIRE PRE-VENTION DAY.

AND we do hereby urge that on this day, throughout our City, attention be called in schools and public places, to the conditions that exist and to the need of immediate action and co-operation on the part of everyone; and special exercises, addresses and other means be employed to impress on the public mind lessons of Fire Pre-

To insure the success of this great Clean-up Campaign, it will-be necessary to have the hearty and harmonious co-operation of all who have for their objects civic, social and industrial betterment. The Proclamation should be read in all schools and at public gatherings.

WALL STREET.

New York, Oct. 7—Wall Street, 10:30 a.m.—The line between peace and war shares was again sharply defined at the irregular opening of today's stock market, as a result of developments in the foreign situation over the week-end. Popular war issues reacted 1 to 3 points in the first half hour. Baldwin Locomotive, Crucible Steel and Republic Iron displaying greatest weakness at lowest levels for the present movement. Corresponding gains were registered by leading rails, notably Canadian Pacific and Union Pacific, also the better known Petroleums, while shippings, motors and utilities rose from large fractions to 2 points.

1:30 p.m.—Some of the stronger specialties, particularly oils, were carried down at midday by the increased weakness of war shares, which were more freely offered. Later United States Steel's recovery of half of its 2-point loss effected partial rallies elsewhere.
