Government Wonders at Existing Unrest; You Cannot Suddenly Remove Freedom and Democracy Without a Disturbance"-Declares That Labor Demands Liberty and Comfortable Living.

[Special to The Advertiser.] OTTAWA, March 11.-W. D. Euler, M. P. for North Wateroo, today delivered one of the most eloquent, most critical and most practical speeches that has been uttered during the debate on the reply to the speech from the throne. His criticisms were for the most part constructive and gave the Government leads on many questions.

"We have three great problems to solve, all inter-related. Debt, reconstruction, allaying of unrest. We owe two thousand illions of dollars, placing a staggering weight of \$250 upon very man, woman and child in Canada. So far we have not felt We have lived on borrowed money, but must pay the piper, and begin paying right away. It can be done, but only by a urageous people working harmoniously to develop our own

"The ex-minister of militia says that Sir Joseph Flavelle owns the Government. If he does, the suggestion I am going to make will not meet with favor. Sir Joseph has denied that he owns it, but the Government does not. It seems then, it is reasonable to say that he half owns it. The Government should seriously consider a heavy succession tax. No man can earn a million dollars. If he possesses that much it is the product of the labor of others. I BELIEVE THAT UNDER EFFICIENT CONDITIONS AN EIGHT-HOUR DAY, AND PERHAPS LESS, SHOULD BE SUFFICIENT TO PROVIDE EVERY PERSON WITH A COMFORTABLE SUBSISTENCE. Crushing the Wage-earner.

"The minister of public works wants the income tax to operate on both higher and lower levels. Certainly large incomes must pay larger taxes. I do not agree with him when he says that the taxes should fall on men who earn \$1,000 a year or less. The man who earns wages has a heavy load to carry. It is barely equal to \$500 a few years ago. How much of a surplus has he got with a family of four or five children with meat at 25, 30 and 40 cents a pound, with woolens almost prohibitive and everything else in proportion. He has carried the brunt of the war. It is the worker, the rank and file, who suffered and bled in this war. He does not have to pay a tax to realize that this is his country. The casualty lists have told him, while the rich man has given only of his abundance—in fact, has been piling up money.

"Let them return to the state which provided the opportunity for their accumulation, leaving sufficient for the reasonable needs of the family of the former possessor. Thus, when the time comes that the revered knight of bacon fame is gathered to his fathers, and the Government takes some fifty or seventy-five millions of the one have, it would simply be restitution of what he has taken from the people.

and even 50 years. They came from Germany. Many of them took the oath of alleglance years ago, considered themselves British subjects, although technically they were not such, as they were not aware complete naturalization required taking out of papers. They have heretofore always voted. The fact that both political parties agreed not to challenge a voter because of nationality aggravated the trouble. No one foresaw the war. Then war broke out, and the real position of these people became apparent. In Kitchener 93 of these men applied for naturalization under the order-in-council of 1917. They were recommended by the judge. They were refused. Yet I read that in that year 471 Austrians and 43 Germans of other sections of the country were naturalized. Did they vote Unionist, and so were made citizens? I know of one case in Kitchener, a man out from Germany flitteen years, who had been back shortly before the war, but because he was a Unionist he was given naturalization. The war is over, and these men should be given naturalization papers."

We owe the returned soldier every effort we can make towards securing steady employment for him.

Do not try to throw the burden entirely on employers. They have a grave responsibility, but only insofar as every man, woman and child gives willing help can Canada ensure a fair day's pay for a good day's work for all her men. How can YOU help? By investing in War-Savings Stamps.

How will THAT help? Canada must secure foreign purchasers for the products of her forests, farms, and factories. Many nations are anxious to buy our goods, but can only do so if Canada grants credit to them.

Lend your money to Canada, so that Canada may re-lend to those who must buy on credit. The money is being raised by the sale of War-Savings Stamps, so that when you invest in a War-Savings Stamp you provide a day's pay for some returned soldier.

A War-Savings Certificate with 10 W-S.S. affixed will be redeemed by the Dominion of Canada on January 1st, 1924, for \$50.00, for at that date the W-S.S. are worth \$5.00 each.

> War-Savings Stamps cost \$4.02 in March; \$4.03 in April; \$4.04 in May, and they may be purchased at any place displaying the Beaver-Triangle sign.
