IT MAKES LIVE MEN OUT OF WRECK!

Many people would give all they possess to regain the health they have lost. Many have spent their last cent in its pursuit—and thrown their money away. Such people are misled by custom and the well-meant advice of friends. They take every new drug under the sun and find them all useless.

Yet here is a simple, natural remedy, Dr. McLaughlin's Electric Belt, that does what other things fail to do. It does not poison the system nor depress the spirits. On the contrary, it starts the system for recovery. It invigorates the mind. Without knowing how, the patient jumps from despondency to health and ambition.

There is nothing wonderful in this change. It is all so natural. Think what the effect would be if you were suddenly deprived of all the Electricity in your body. You could not live an instant. No mental or physical life could exist without Electricity. Naturally, when the amount is below normal you are less vigorous, less ambitious.

What is my Belt? It is a body battery, made for the purpose of applying Electricity to the human system in the most scientific and effective way. It is made on an entirely different plan from the worthless devices known by "Electric Belt." Its current is of guaranteed strength and constancy. It is provided with a regulator. This enables you to change the current to suit varying needs. You wear it at night. Its soothing currents send you to sleep. You wake up refreshed and invigorated. Before long you feel like a different person—and you are different. Your friends tell you so.

When You Are Cured Pay Me

MR. WILLIAM P. MORTER, Box 51 Hawkesbury, Ont., says: "I am pleased to report a good account as regards my health. I am beginning to find myself stronger in every way. Certainly my Belt does its duty and its work is sure."

MR. JOHN HUNT, Davisville, Ont., says: "I wish to say that your Belt has done more good than all the medicine I ever took. I need it regularly for three months, and I have not needed it since."

MR. THOS. JORDISON, Chatsworth, Ont., says: "Your Belt worked wonders with my back, and my general health is built up far beyond my best expectations."
