White Star Line that their steamers in the New York-Liverpool service will resume their calls east and west bound at Queenstown, which was the old practice but which was discontinued owing to the war.

The first steamer calling at Queenstown will be the S. S. "Celtic," leaving New York May 15th, and will be followed regularly by steamers after that date.

that date.

The demand for direct sailings to and from Irish ports has been quite insistent, and it is felt that by the resumption of the White Star Line steamers, calling at Queenstown, a long felt want will be taken care of and give the Irish population an opportunity of embarking and disembarking at one of their own ports, instead of going via Liverpool, which has heretofore been necessary.

The same high standard of service rendered by the White Star Line in

The board of control has usurped authority to act as an independent commission in charge of the datation. It has persuaded the council to give an illegal consent to this arrangement. The Jews' Two Ships

DR. FRANK CRANE, in the New York Globe

I have just seen two pictures in the paper, and my heart is pounding.

One is of the steamship Westward Ho being loaded with tons of grain, thousands of cases of condensed milk, and other life-sustaining provisions, purchased with the American Jewish Relief Funds and American Polish Relief Funds, for the starving women and children of Poland. The port of destination is Danzig, where the cargoes will be transported overland to stricken communities. The cost of this cargo exceeds Two Million Dollars.

The other is of the steamship Pensacola starting on its long voyage to the Near East, bringing life and happiness to thousands in Palestine, Syria and Armenia. Ports of destination are Constantinople and Beirut. The provisions were purchased by the Joint Distribution Committee of the American Jewish Relief Funds and the American Committee for Relief in the Near East. The cost of this cargo is One Million Eight Hundred Thousand Dollars.

Jews mean nothing to me, nor do Gentiles, nor Baptists, nor Patagonians, nor Southerners, Mahometans nor Irish. All these Classes, Races, Sects, Labels, Fences and Pigeonholes - are Holdovers of dead contentions. They are the Vermiform Appendices of Progress, and the Body Politic would undoubtedly be better off for a surgical operation.

Still, Classes linger, and will. We shall go on being proud of our Church, Pedigree and Locality.

And—if so—

The one, only and wholly admirable way to justify our Class is by Superiority in Helpfulness.

Heaven knows we have killed and hated enough because of our differences. Let us now compensate History by a most strenuous rivalry in Charity, "for," says Bacon, "in all things else there is danger of excess, but in Charity there can be no excess."

I love every Jew in the world for those two ships' sake. I would kiss every pretty Jewish girl, and take off my hat before every Synagogue, for these two ships' sake.

Though not born of this ancient race, I am sending along a little contribution to Nathan Strauss, who called my attention to these ships, and ask the reader to do likewise.
